DEED OF ASSIGNMENT AND LICENCE

Slaughter and May
One Bunhill Row
London

51498181.2

THIS DEED is made on 21 MARCH 2013

BETWEEN:

GLAXO GROUP LIMITED of 980 Great West Road, Brentford, Middlesex TW8 9GS (registered number 00305979) ("**GGL**");

AND

GLAXOSMITHKLINE INTELLECTUAL PROPERTY MANAGEMENT LIMITED of 980 Great West Road, Brentford, Middlesex TW8 9GS (registered number 7739397) ("**GIPM**").

WHEREAS:

(A) GGL and GIPM are members of the GSK Group. GIPM is a wholly owned subsidiary of GGL at the date of this Deed;

(B) Under a Deed of Assignment dated 1 October 2011 (the "**2011 Assignment**"), GGL: (i) assigned all its rights, title and interest in and to certain intellectual property rights (the "**2011 Rights**") to GIPM; and (ii) granted a declaration of trust in favour of GIPM in respect of certain patents and know-how (defined herein as the Trust Assets). The effect of the 2011 Assignment was that GIPM became the economic owner of GGL's rights in the 2011 Rights and the Trust Assets.

(C) In December 2012 the GSK Group underwent a reorganisation, the aim of which was to streamline its varied global business and simplify its trading model by centralising its intellectual property structure and R&D governance in the UK (the "**Reorganisation**"). In order to ensure consistency with the intellectual property ownership structure established by the Reorganisation, GIPM and GGL have agreed that the 2011 Rights will be assigned back to GGL (including certain trade marks which form part of the 2011 Rights but which were not expressly listed in the 2011 Assignment in respect of which GIPM has a beneficial interest, notwithstanding that such marks are recorded as owned by GGL) and that all trade marks filed or registered in the name of GIPM since the 2011 Assignment and any other intellectual property to which GIPM has become entitled since the 2011 Assignment which fall under the definition of Assigned Brand Intellectual Property set out in this Deed (excluding for the avoidance of doubt any rights in patents or know-how) will also be assigned to GGL. All such rights will be simultaneously licensed back by GGL to GIPM under an exclusive perpetual royalty free licence with a right for GIPM to call for an assignment of such rights for no consideration at any time.

(D) In addition, and again in order to ensure consistency with the intellectual property ownership structure established by the Reorganisation, GIPM as sole beneficiary under the trust granted under the 2011 Assignment will direct GGL to grant it an exclusive perpetual royalty free licence under the Trust Assets on the terms of this Deed and GGL as trustee will grant the licence according to GIPM's directions.

(E) GIPM shall also have the right to call for an assignment of the Licensed Brand Intellectual Property and/or Trust Assets for no consideration at any time.

(F) The intention of the parties is that GIPM shall at all times continue to be the economic owner of the Assigned Brand Intellectual Property and the Trust Assets.

(G) Under the 2011 Assignment GIPM was also assigned the benefit subject to the burden of certain contracts, licences and other commitments (defined in the 2011 Assignment as Contracts). The parties intend that GIPM should retain the benefit subject to the burden of all such Contracts and nothing in this Deed shall operate to alter the rights or obligations of either GIPM or GGL in respect of such Contracts.

(H) GGL and GIPM wish to clarify that GIPM is the economic owner of rights relating to certain specific delivery devices relating to the products that were the subject of the 2011 Assignment (whether such delivery devices relate to pharmaceutical products or consumer healthcare products). GGL and GIPM have further agreed that GIPM, as an identified economic owner of certain delivery devices, should also be the economic owner of rights in all Shared Delivery Devices (as defined in this Deed) relating to pharmaceutical products. GGL has agreed to grant GIPM an exclusive licence of rights relating to Shared Delivery Devices on the terms of this Deed.

(I) GGL and GIPM now wish to implement the said proposal by entering into a formal agreement on the terms and conditions of this Deed.

THIS DEED PROVIDES as follows:

1. **DEFINITIONS**

DEED OF ASSIGNMENT AND LICENCE

Slaughter and May
One Bunhill Row
London
EC1Y 8YY

514991814

THIS DEED is made on 2013

BETWEEN:

GLAXO GROUP LIMITED of 980 Great West Road, Brentford, Middlesex TW8 9GS (registered number 00305979) ("**GGL**");

AND

GLAXOSMITHKLINE INTELLECTUAL PROPERTY MANAGEMENT LIMITED of 980 Great West Road, Brentford, Middlesex TW8 9GS (registered number 7739397) ("**GIPM**").

WHEREAS:

(A) GGL and GIPM are members of the GSK Group. GIPM is a wholly owned subsidiary of GGL at the date of this Deed;

(B) Under a Deed of Assignment dated 1 October 2011 (the "**2011 Assignment**"), GGL: (i) assigned all its rights, title and interest in and to certain intellectual property rights (the "**2011 Rights**") to GIPM; and (ii) granted a declaration of trust in favour of GIPM in respect of certain patents and know-how (defined herein as the Trust Assets). The effect of the 2011 Assignment was that GIPM became the economic owner of GGL's rights in the 2011 Rights and the Trust Assets.

(C) In December 2012 the GSK Group underwent a reorganisation, the aim of which was to streamline its varied global business and simplify its trading model by centralising its intellectual property structure and R&D governance in the UK (the "**Reorganisation**"). In order to ensure consistency with the intellectual property ownership structure established by the Reorganisation, GIPM and GGL have agreed that the 2011 Rights will be assigned back to GGL (including certain trade marks which form part of the 2011 Rights but which were not expressly listed in the 2011 Assignment in respect of which GIPM has a beneficial interest, notwithstanding that such marks are recorded as owned by GGL) and that all trade marks filed or registered in the name of GIPM since the 2011 Assignment and any other intellectual property to which GIPM has become entitled since the 2011 Assignment which fall under the definition of Assigned Brand Intellectual Property set out in this Deed (excluding for the avoidance of doubt any rights in patents or know-how) will also be assigned to GGL. All such rights will be simultaneously licensed back by GGL to GIPM under an exclusive perpetual royalty free licence with a right for GIPM to call for an assignment of such rights for no consideration at any time.

(D) In addition, and again in order to ensure consistency with the intellectual property ownership structure established by the Reorganisation, GIPM as sole beneficiary under the trust granted under the 2011 Assignment will direct GGL to grant it an exclusive perpetual royalty free licence under the Trust Assets on the terms of this Deed and GGL as trustee will grant the licence according to GIPM's directions.

(E) GIPM shall also have the right to call for an assignment of the Licensed Brand Intellectual Property and/or Trust Assets for no consideration at any time.

(F) The intention of the parties is that GIPM shall at all times continue to be the economic owner of the Assigned Brand Intellectual Property and the Trust Assets.

(G) Under the 2011 Assignment GIPM was also assigned the benefit subject to the burden of certain contracts, licences and other commitments (defined in the 2011 Assignment as Contracts). The parties intend that GIPM should retain the benefit subject to the burden of all such Contracts and nothing in this Deed shall operate to alter the rights or obligations of either GIPM or GGL in respect of such Contracts.

(H) GGL and GIPM wish to clarify that GIPM is the economic owner of rights relating to certain specific delivery devices relating to the products that were the subject of the 2011 Assignment (whether such delivery devices relate to pharmaceutical products or consumer healthcare products). GGL and GIPM have further agreed that GIPM, as an identified economic owner of certain delivery devices, should also be the economic owner of rights in all Shared Delivery Devices (as defined in this Deed) relating to pharmaceutical products. GGL has agreed to grant GIPM an exclusive licence of rights relating to Shared Delivery Devices on the terms of this Deed.

(I) GGL and GIPM now wish to implement the said proposal by entering into a formal agreement on the terms and conditions of this Deed.
