GRANT OF
SECURITY INTEREST IN TRADEMARK AND PATENT RIGHTS

This GRANT OF SECURITY INTEREST IN TRADEMARK AND PATENT RIGHTS (this "Agreement"), effective as of December 19, 2008 is made by Brunswick Corporation, a Delaware corporation (the "Borrower") and the subsidiaries of the Borrower listed on the signature pages hereof (together with the Borrower, the "Grantors") in favor of JPMorgan Chase Bank, N.A, as Administrative Agent (the "Agent") for the several banks and other financial institutions (the "Lenders") party to the Amended and Restated Credit Agreement, dated as of December 19, 2008 (as amended, supplemented or otherwise modified from time to time, the "Credit Agreement"), among the Borrower, certain subsidiaries of the Borrower, the Administrative Agent and the Lenders.

WITNESSETH:

WHEREAS, pursuant to the Credit Agreement, the Lenders have severally agreed to make loans and other extensions of credit to the Borrower upon the terms and subject to the conditions set forth therein; and

WHEREAS, in connection with the Credit Agreement, the Grantors have executed and delivered a Pledge and Security Agreement, dated as of December 19, 2008, in favor of the Agent (together with all amendments and modifications, if any, from time to time thereafter made thereto, the "Security Agreement");

WHEREAS, pursuant to the Security Agreement, the Grantors pledged and granted to the Agent for the benefit of the Agent and the Lenders a continuing security interest in all Intellectual Property, including the Trademarks and Patents; and

NOW THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, and in order to induce the Lenders to make loans and other extensions of credit to the Borrower pursuant to the Credit Agreement, each Grantor agrees, for the benefit of the Agent and the Lenders, as follows:

SECTION 1. Definitions. Unless otherwise defined herein or the context otherwise requires, terms used in this Agreement, including its preamble and recitals, have the meanings provided or provided by reference in the Credit Agreement and the Security Agreement.

SECTION 2. Grant of Security Interest. Each Grantor hereby pledges and grants a continuing security interest in all of such Grantor's right, title and interest in, to and under the Trademarks and Patents (including, without limitation, those items listed on Schedule I hereto) (collectively, the "Collateral"), to the Agent for the benefit of the Agent and the Lenders to secure payment in full of the Obligations.

SECTION 3. Purpose. This Agreement has been executed and delivered by each

Grantor for the purpose of recording the grant of security interest herein with the United States Patent and Trademark Office. The security interest granted hereby has been granted to the Lenders in connection with the Security Agreement and is expressly subject to the terms and conditions thereof. The Security Agreement (and all rights and remedies of the Lenders thereunder) shall remain in full force and effect in accordance with its terms.

SECTION 4. Acknowledgment. Each Grantor does hereby further acknowledge and affirm that the rights and remedies of the Lenders with respect to the security interest in the Collateral granted hereby are more fully set forth in the Credit Agreement and the Security Agreement, the terms and provisions of which (including the remedies provided for therein) are incorporated by reference herein as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the terms of the Security Agreement, the terms of the Security Agreement shall govern.

SECTION 5. Counterparts. This Agreement may be executed in counterparts, each of which will be deemed an original, but all of which together constitute one and the same original.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed and delivered by their respective officers thereunto duly authorized as of the day and year first above written.
