PATENT, TRADEMARK AND COPYRIGHT COLLATERAL ASSIGNMENT
(Parent)

This Patent, Trademark and Copyright Collateral Assignment (the "Assignment"), dated April 24, 1998, is entered into by and between PARTY CITY CORPORATION, a Delaware corporation (the "Assignor"), and PNC BANK, NATIONAL ASSOCIATION, a national banking association, in its capacity as agent for the Banks (the "Assignee").

WHEREAS, pursuant to that certain Credit Agreement (as amended, restated, modified or supplemented from time to time, the "Credit Agreement") of even date herewith by and among Assignor as borrower, each of the Guarantors, the Banks and Assignee, the Banks have agreed to provide certain loans to the Assignor and the Assignor has agreed, among other things, to assign to the Assignee certain patents, trademarks, copyrights and other property as security for such loans and other obligations as more fully described herein.

NOW, THEREFORE, intending to be legally bound hereby, the parties hereto agree as follows:

1. Except as otherwise expressly provided herein, capitalized terms used in this Assignment shall have the respective meanings given to them in the Credit Agreement.

2. To secure the payment and performance of all Indebtedness and other obligations of the Assignor now or hereafter existing under the Credit Agreement and the other Loan Documents, including, without limitation, principal, interest, fees, expenses, costs and expenses of enforcement, reasonable attorney's fees and expenses, and obligations under indemnification provisions in the Loan Documents, together with all other Obligations of the Assignor to the Banks (collectively, the "Secured Obligations"), Assignor hereby grants, assigns and conveys to Assignee the entire right, title and interest of Assignor in and to all trade names, patent applications, patents, service marks, trademark applications, trademarks and copyrights whether now owned or hereafter acquired by Assignor, including, without limitation, those listed on Schedule A hereto (which schedule does not list copyrights not registered in the United States Copyright Office), including all proceeds thereof (such as, by way of example, license royalties and proceeds of infringement suits), the right to sue for past, present and future infringements, all rights corresponding thereto throughout the world and all reissues, divisions, continuations, renewals, extensions and continuations-in-part thereof, and the goodwill of the business to which any of the patents, service marks, trademarks and copyrights relate (collectively, the "Patents, Trademarks and Copyrights").

3. Assignor covenants and warrants that:

(a) The Patents, Trademarks and Copyrights are subsisting and have not been adjudged invalid or unenforceable, in whole or in part;

(b) To the best of Assignor's knowledge, each of the Patents, Trademarks and Copyrights is valid and enforceable;

(c) Except for Permitted Liens and licenses granted to Franchisees of Assignor now existing or as may be existing in the future, Assignor has an unencumbered right, title, interest and license in and to each of the Patents, Trademarks and Copyrights, free and clear of any liens, charges and encumbrances, including without limitation pledges, assignments, licenses, shop rights and covenants by Assignor not to sue third persons;

(d) Assignor has the corporate power and authority to enter into this Assignment and perform its terms;

(e) No claim has been made to Assignor or, to the knowledge of Assignor, any other person that the use of any of the Patents, Trademarks and Copyrights does or may violate the rights of any third party;

(f) Assignor shall, in order to protect the goodwill associated with the Patents, Trademarks and Copyrights, and in order to prevent any deception to the public, operate its business in accordance with the requirements of product and service in relationship to the goods and services as heretofore conducted by Assignor and agrees to maintain the quality and standards of the goods and services sold under the Patents, Trademarks and Copyrights at least equal to the prior quality and standards set by the Assignor; and

(g) Assignor has used, and will continue to use for the duration of this Assignment, proper statutory notice in connection with its use of the Patents, Trademarks and Copyrights.

4. Assignor agrees that, until all of the Secured Obligations shall have been satisfied in full, it will not enter into any agreement (for example, a license agreement) which is inconsistent with Assignor's obligations under this Assignment, without Assignee's prior written consent which shall not be unreasonably withheld. Nothing contained herein, however, shall prohibit agreements entered into by Assignor with Franchisees not otherwise prohibited by the Loan Documents.

5. If, before the Secured Obligations shall have been satisfied in full, Assignor shall own any new trademarks or any new copyrightable or patentable inventions, or any patent application or patent for any reissue, division, continuation, renewal, extension, or continuation in part of any Patent, Trademark or Copyright or any improvement on any Patent, Trademark or Copyright, the provisions of this Assignment shall automatically apply thereto and Assignor shall give to Assignee prompt notice thereof in writing. Assignor and Assignee agree to modify this Assignment by amending Schedule A to include any future patents, patent applications, trademark applications, trademarks, service marks, registered copyrights or copyright applications for registration in the United States Copyright Office, and the provisions of this Assignment shall apply thereto.

6. Unless and until the Secured Obligations are declared due and payable pursuant to the Credit Agreement, Assignee hereby grants to Assignor the exclusive, nontransferable right and license under the Patents, Trademarks and Copyrights to make, have made for it, use and sell the inventions and products disclosed and claimed in the Patents, Trademarks and Copyrights in accordance with any specifications provided by Assignee for Assignor's own benefit and account and for none other. All use by Assignor of the trademarks which are part of the Patents, Trademarks and Copyrights shall inure to the benefit of Assignee. Except as provided above, Assignor agrees not to sell or assign its interest in, or grant any sublicense under, the license granted to Assignor in this Paragraph 6, without the prior written consent of Assignee which shall not be unreasonably withheld. Assignee reserves the right upon reasonable notice during normal business hours to inspect the operations and facilities of Assignor from time to time for the purpose of ensuring that the standards and quality requirements of Assignee are met.

7. If and during the period that the Secured Obligations are declared due and payable pursuant to the Credit Agreement, Assignor's license under the Patents, Trademarks and Copyrights as set forth in Paragraph 6 shall terminate, the Banks shall have, in addition to all other rights and remedies given them by this Assignment, those allowed by Law and the rights and remedies of a secured party under the Uniform Commercial Code as enacted in any jurisdiction in which the Patents, Trademarks and Copyrights may be located and, without limiting the generality of the foregoing, Assignee may immediately, without demand of performance and without other notice (except as set forth below) or demand whatsoever to Assignor, all of which are hereby expressly waived, and without advertisement, sell at public or private sale or otherwise realize upon, in Princeton, New Jersey, or elsewhere, the whole or from time to time any part of the Patents, Trademarks and Copyrights, or any interest which Assignor may have therein, and after deducting from the proceeds of sale or other disposition of the Patents, Trademarks and Copyrights all expenses (including fees and expenses for brokers and attorneys), shall apply the remainder of such proceeds toward the payment of the Secured Obligations as the Assignee, in its sole discretion, shall determine. Any remainder of the proceeds after payment in full of the Secured Obligations shall be paid over to Assignor. Notice of any sale or other disposition of the Patents, Trademarks and Copyrights shall be given to Assignor at least ten (10) days before the time of any intended public or private sale or other disposition of the Patents, Trademarks and Copyrights is to be made, which Assignor hereby agrees shall be reasonable notice of such sale or other disposition. At any such sale or other disposition, Assignee may, to the extent permissible under applicable Law, purchase the whole or any part of the Patents, Trademarks and Copyrights sold, free from any right of redemption on the part of Assignor, which right is hereby waived and released.

8. If any Event of Default shall have occurred and be continuing, Assignor hereby authorizes and empowers Assignee to make, constitute and appoint any officer or agent of Assignee, as Assignee may select in its exclusive discretion, as Assignor's true and lawful attorney-in-fact, with the power to endorse Assignor's name on all applications, documents, papers and instruments necessary for Assignee to use the Patents, Trademarks and Copyrights, or to grant or issue, on commercially reasonable terms, any exclusive or nonexclusive license under the Patents, Trademarks and Copyrights to any third person, or necessary for Assignee

to assign, pledge, convey or otherwise transfer title in or dispose, on commercially reasonable terms, of the Patents, Trademarks and Copyrights to any third Person. Assignor hereby ratifies all that such attorney shall lawfully do or cause to be done by virtue hereof. This power of attorney, being coupled with an interest, shall be irrevocable for the life of this Assignment.

9. At such time as Assignor shall have indefeasibly paid in full all of the Secured Obligations and the Commitments shall have terminated, this Assignment shall terminate and Assignee shall execute and deliver to Assignor all deeds, assignments and other instruments as may be necessary or proper to re-vest in Assignor full title to the Patents, Trademarks and Copyrights, subject to any disposition thereof which may have been made by Assignee pursuant hereto.

10. Any and all fees, costs and expenses, of whatever kind or nature, including reasonable attorney's fees and expenses incurred by Assignee in connection with the preparation of this Assignment and all other documents relating hereto and the consummation of this transaction, the filing or recording of any documents (including all taxes in connection therewith) in public offices, the payment or discharge of any taxes, counsel fees, maintenance fees, encumbrances, the protection, maintenance or preservation of the Patents, Trademarks and Copyrights, or the defense or prosecution of any actions or proceedings arising out of or related to the Patents, Trademarks and Copyrights, shall be borne and paid by Assignor within fifteen (15) days of demand by Assignee, and if not paid within such time, shall be added to the principal amount of the Secured Obligations and shall bear interest at the highest rate prescribed in the Credit Agreement.

11. Assignor shall have the duty, through counsel reasonably acceptable to Assignee, to prosecute diligently any patent applications of the Patents, Trademarks and Copyrights pending as of the date of this Assignment or thereafter until the Secured Obligations shall have been indefeasibly paid in full and the Commitments shall have terminated, to make application on unpatented but patentable inventions (whenever it is commercially reasonable in the reasonable judgment of Assignor to do so) and to preserve and maintain all rights in patent applications and patents of the Patents, including without limitation the payment of all maintenance fees. Any expenses incurred in connection with such an application shall be borne by Assignor. Assignor shall not abandon any Patent, Trademark or Copyright except for such Patents, Trademarks and Copyrights which are no longer necessary for the ownership and operation of any Loan Party's properties and business, without the consent of Assignee, which shall not be unreasonably withheld.

12. Assignor shall have the right, with the consent of Assignee, which shall not be unreasonably withheld, to bring suit, action or other proceeding in its own name, and to join Assignee, if necessary, as a party to such suit so long as Assignee is satisfied that such joinder will not subject it to any risk of liability, to enforce the Patents, Trademarks and Copyrights and any licenses thereunder. Assignor shall promptly, upon demand, reimburse and indemnify Assignee for all damages, costs and expenses, including reasonable legal fees, incurred by Assignee as a result of such suit or joinder by Assignor.

13. No course of dealing between Assignor and Assignee, nor any failure to exercise nor any delay in exercising, on the part of Assignee, any right, power or privilege hereunder or under the Credit Agreement or other Loan Documents shall operate as a waiver of such right, power or privilege, nor shall any single or partial exercise of any right, power or privilege hereunder or thereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

14. All of the Banks' rights and remedies with respect to the Patents, Trademarks and Copyrights, whether established hereby or by the Credit Agreement or by any other agreements or by Law, shall be cumulative and may be exercised singularly or concurrently.

15. The provisions of this Assignment are severable, and if any clause or provision shall be held invalid and unenforceable in whole or in part in any jurisdiction, then such invalidity or unenforceability shall affect only such clause or provision, or part thereof, in such jurisdiction, and shall not in any manner affect such clause or provision in any other jurisdiction, or any clause or provision of this Assignment in any jurisdiction.

16. This Assignment is subject to modification only by a writing signed by the parties, except as provided in Paragraph 5.

17. The benefits and burdens of this Assignment shall inure to the benefit of and be binding upon the respective successors and permitted assigns of the parties.

This Assignment shall be governed by and construed in accordance with the internal Laws of the State of New Jersey without regard to its conflicts of law principles.

IN WITNESS WHEREOF, the parties hereto have caused this Assignment to be executed by their respective officers or agents thereunto duly authorized, as of the date first
