INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Intellectual Property Security Agreement is entered into as of October 21, 1998 by and between Silicon Valley Bank ("Bank") and InfoGear Technology Corporation ("Grantor").

RECITALS

Bank has agreed to make certain advances of money and to extend certain financial accommodation to Grantor (the "Loans") in the amounts and manner set forth in that certain Loan and Security Agreement by and between Bank and Grantor dated of even date herewith (as the same may be amended, modified or supplemented from time to time, the "Loan Agreement"; capitalized terms used herein are used as defined in the Loan Agreement). Pursuant to the terms of the Loan Agreement, Grantor has granted to Bank a security interest in all of Grantor's right, title and interest, whether presently existing or hereafter acquired, in, to and under certain of Grantor's personal property and proceeds from certain intellectual property as set forth below.

NOW, THEREFORE, Grantor agrees as follows:

AGREEMENT

To secure its obligations under the Loan Agreement, Grantor grants and pledges to Bank a security interest in all of Grantor's right, title and interest in and to all proceeds of all the Patents, Trademarks and Copyrights in which Grantor has an interest, including without limitation those listed on Schedule A (such as, by way of example but not by way of limitation, license royalties and proceeds of infringement suits to the extent such proceeds are derived from the proceeds of the Patents, Trademarks and Copyrights in which Grantor has an interest), the right to sue for past, present and future infringements to the extent such infringements give rise to proceeds of the Patents, Trademarks and Copyrights in which Grantor has an interest, all rights corresponding thereto throughout the world and all re-issues, divisions continuations, renewals, extensions and continuations-in-part thereof (the "Intellectual Property Collateral").

This security interest is granted in conjunction with the security interest granted to Bank under the Loan Agreement. The rights and remedies of Bank with respect to the security interest granted hereby modify those set forth in the Loan Agreement and the other Loan Documents, and those which are now or hereafter available to Bank as a matter of law or equity.

The Intellectual Property Collateral shall not be deemed to include the Intellectual Property underlying the Intellectual Property Collateral, except to the extent that any judicial or other authority of competent jurisdiction (including a U.S. Bankruptcy Court) holds that a security interest in the underlying Intellectual Property is necessary to have a security interest in such Intellectual Property Collateral in which case the Intellectual Property Collateral shall be deemed to include such underlying Intellectual Property but the value of such security interest in the Intellectual Property shall be limited to the amount of proceeds of all Patents, Trademarks and Copyrights in which Grantor has an interest.

IN WITNESS WHEREOF, the parties have cause this Intellectual Property Security Agreement to be duly executed by its officers thereunto duly authorized as of the first date written above.
