ASSIGNMENT

WHEREAS, ELECTRONIC DATA SYSTEMS CORPORATION, a Delaware corporation, having an address of 5400 Legacy Drive, Plano, Texas 75024 (hereafter "Assignor"), is the owner of certain patent applications, trademark registrations, and copyright registrations in the United States of America, which are listed in Exhibit A attached hereto; and

WHEREAS, Assignor is the sole and exclusive owner of certain patent applications in countries foreign to the United States of America, which are listed in Exhibit B attached hereto; and

WHEREAS, New Energy Associates, L.L.C., a Delaware limited liability company, having its principal place of business in Atlanta, Georgia (hereafter "Assignee"), desires to acquire all right, title and interest in and to the patent applications, trademarks and copyrights set forth on Exhibits A and B, and in turn grant a nonexclusive license to Assignor as further set out below:

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor does hereby sell, assign, transfer and set over to Assignee, all its right, title and interest in and to:

1) the patent applications, copyright registrations and trademark registrations, together with the goodwill of the business symbolized by such marks, in the United States of America listed on Exhibit A, as well as all continuations, divisions, and continuations-in-part of said patent applications, and all reissues and extensions of the term of any patent issuing on said patent applications, the same to be held and enjoyed by Assignee for its own use and benefit, and for the use and benefit of its successors, assigns, or legal representatives, to the end of the term or terms for which such patents are or may be granted or reissued;

2) the patent applications for countries foreign to the United States of America as listed in Exhibit B, as well as all continuations, divisions, and continuations-in-part of said patent applications, and all reissues and extensions of the term of any patent issuing on said patent applications, the same to be held and enjoyed by Assignee for its own use and benefit, and for the use and benefit of its successors, assigns, or legal representatives, to the end of the term or terms for which such patents are or may be granted or reissued; and

3) all claims for damages by reason of past infringement of such patents, patent applications, trademarks and copyrights set forth on

Exhibits A and B with the right to sue for and collect the same for its own use and benefit, and for the use and benefit of its successors, assigns, or other legal representatives.

IN WITNESS WHEREOF, the Assignor and its duly authorized representative has caused this Assignment to be executed on the date and in the capacity shown below.
