NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor does hereby agree as follows:

I. GRANT OF LIEN AND SECURITY INTEREST

To secure payment and performance of all Obligations (as defined in the Loan Agreement) Grantor hereby grants to Grantee a security interest in, a continuing lien on, and a conditional assignment of all of Grantor's right, title and interest in, to and under the following (all of the following items or types of property being herein collectively referred to as the "Trademark Collateral"), whether presently existing or hereafter created or acquired:

This lien, conditional assignment and security interest is granted in conjunction with the liens and security interests granted to Grantee pursuant to the Loan Agreement. Grantor hereby acknowledges and affirms that the rights and remedies of Grantee with respect to the security interest in the Trademark Collateral made and granted hereby are more fully set forth in the Loan Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

II. REPRESENTATIONS AND WARRANTIES

(a) Grantor does not have any interest in, or title to, any material trademark, trademark registration or trademark application except as set forth in Schedule 1 annexed hereto (as may be amended pursuant to Section III(b) below.) This Trademark Security Agreement is effective to create a valid and continuing lien and security interest in and, upon filing of the UCC-1 Financing Statements with the Texas Secretary of State, perfected first priority liens and security interests (subject to liens permitted by the Loan Agreement) in favor of Grantee on the Trademark Collateral described in Schedule 1 and such perfected liens and security interests are enforceable as such as against any and all creditors of and purchasers from Grantor, subject to holders of liens permitted by the Loan Agreement. Upon filing the UCC-1 Financing Statements with the Texas Secretary of State, Grantee's liens and security interests in the Trademark Collateral set forth on Schedule 1 shall have been perfected. This Trademark Security Agreement, upon filing with the United States Patent and Trademark Office, is effective to create a valid conditional assignment of the rights in the Trademark Collateral.

(b) To Grantor's knowledge, each of the Trademark Collateral is valid, subsisting and enforceable. Grantor has no knowledge of any pending or threatened claim by any third party that any of the Trademark Collateral is invalid or unenforceable or that any third party has an ownership interest therein.

(c) To Grantor's knowledge, Grantor is not infringing upon any trademarks or other intellectual property of any third party.

(d) To Grantor's knowledge, no third party is infringing upon or otherwise violating any of the Trademark Collateral or any other intellectual property right of Grantor.

(e) Grantor has the power and authority to grant liens and security interests in the Trademark Collateral and to Grantor's knowledge such grant shall not (to the extent allowed by the applicable license agreements) cause a breach of any trademark license or other material agreement to which Grantor is a party.

III. COVENANTS

(a) Grantor shall notify Grantee immediately if it knows that any application or registration relating to any Trademark Collateral (now or hereafter existing) will likely become abandoned or dedicated, or of any adverse determination or development (including the institution of, or any such determination or development in, any proceeding in the United States Patent and Trademark Office or any court) regarding Grantor's ownership of any Trademark Collateral, its right to register the same, register the validity of same, or Grantor's right to keep and maintain the same. Grantor shall promptly notify Grantee in writing of any event that could reasonably be expected to materially and adversely affect the value of the Trademark Collateral, the ability of Grantor or Grantee to dispose of the same or any portion thereof or the rights and remedies of Grantee in relation thereto.

(b) From time to time, Grantor will promptly execute and deliver all further instruments and documents, and take all further action, that may be necessary or that the Grantee may reasonably request, in order to perfect and protect any lien or security interest assigned or purported to be assigned hereby or to enable Grantee to exercise and enforce its rights and remedies hereunder with respect to any Trademark Collateral or any other intellectual property of Grantor. Grantor shall inform Grantee in writing of any material right, title or interest in any issued registered trademarks or trademark applications not appearing on Schedule 1 hereto that are acquired, filed, or developed by Grantor after the date hereof or that were otherwise omitted from Schedule 1. Grantor shall execute and deliver any document that Grantee may reasonably request to evidence Grantee's liens and security interests in such trademarks. This Trademark Security Agreement shall automatically apply to such trademarks and such trademarks shall automatically become "Trademark Collateral".

(c) Grantor shall take all actions necessary or reasonably requested by Grantee to maintain and pursue each application, to obtain the relevant registration and to maintain the registration of each of the material Trademark Collateral (now or hereafter existing), including the filing of applications for renewal, affidavits of use, affidavits of noncontestability and opposition and interference and cancellation proceedings. Grantor shall use reasonable commercial efforts to prosecute any trademark application comprising a material portion of the Trademark Collateral.

(d) In the event that any material portion of the Trademark Collateral or other material intellectual property is infringed upon, or misappropriated or diluted by a third party, Grantor shall notify Grantee promptly after Grantor learns thereof. Grantor shall, unless it shall reasonably determine that such Trademark Collateral or other intellectual property is not material to the conduct of its business or operations, take commercially reasonable actions under the circumstances to protect such Trademark Collateral or other intellectual property.

(e) Grantor shall not sell, assign, license or otherwise dispose of any of the Trademark Collateral listed on Schedule 1 without first giving written notice thereof to Grantee.

(f) Grantor shall provide proper statutory notice in connection with its use or other exploitation of any of the material Trademark Collateral to the extent reasonably necessary for the protection thereof.

(g) Grantor shall keep commercially reasonable records concerning the Trademark Collateral.

IV. REMEDIES

(a) In addition to Grantee's rights and remedies set forth in the Loan Agreement and anything contained herein to the contrary notwithstanding, during the continuation of an Event of Default (as defined in the Loan Agreement), Grantee shall have the right (but not the obligation) to bring suit, in the name of the Grantor, Grantee, or otherwise, to enforce any of the Trademark Collateral, or any other intellectual property or license thereto, in which event Grantor shall, at the reasonable request of Grantee, do all lawful acts and execute any and all documents reasonably required by Grantee in aid of such enforcement and Grantor shall promptly, upon demand, reimburse and indemnify Grantee in connection with the exercise of its rights hereunder.

(b) For the purpose of enabling Grantee to exercise rights and remedies under the foregoing clause (a) (including, without limiting the terms of such clause (a), in order to take possession of, hold, preserve, process, assemble, prepare for sale, market for sale, sell or otherwise dispose of Trademark Collateral) at such time as Grantee shall be lawfully entitled to exercise such rights and remedies, Grantor hereby grants to Grantee an irrevocable, nonexclusive license (exercisable without payment of royalty or other compensation to Grantor) to use, license or sublicense any Trademark Collateral now owned or hereafter acquired by Grantor, and wherever the same may be located, and including in such license access to all media in which any of the licensed items may be recorded or stored and to all computer software and programs used for the compilation or printout thereof, subject to the terms and conditions of applicable license agreements.
