SECTION 3. Grantor Remains Liable. Anything herein to the contrary notwithstanding, (a) the Grantor shall remain liable under the contracts and agreements included in the Intellectual Property Collateral to which it is a party to the extent set forth therein to perform all of its duties and obligations thereunder to the same extent as if this Agreement had not been executed, (b) the exercise by the Grantee of any of the rights or remedies hereunder shall not release the Grantor from any of its duties or obligations under any of the contracts and agreements included in the Intellectual Property Collateral, and (c) the Grantee shall have no obligation or liability under any of the contracts and agreements included in the Intellectual Property Collateral by reason of this Agreement, nor shall the Grantee be obligated to perform any of the obligations or duties of the Grantor thereunder or to take any action to collect or enforce any claim for payment assigned hereunder.

SECTION 4. Representations and Warranties. The Grantor represents and warrants as follows:

(a) the Grantor is the legal and beneficial owner of the Intellectual Property Collateral pledged by such Grantor free and clear of any lien, claim, option or right of others, except for the liens and security interests created under this Agreement or permitted under the Loan Agreement. No effective financing statement or other instrument similar in effect covering all or any part of the Intellectual Property Collateral or listing the Grantor or any of its Subsidiaries or any trade name of the Grantor or any of its Subsidiaries as debtor is on file in any recording office (including, without limitation, the United States Patent and Trademark Office and the United States Copyright Office), except such as may have been filed in favor of the Grantee relating to this Agreement or as provided under the Loan Documents.

(b) Set forth in Schedule I is a complete and accurate list of all patents owned by the Grantor. Set forth in Schedule II is a complete and accurate list of all trademarks, service marks, trade names and trade dress, all trademark and service mark registrations and all trademark and service mark applications owned by the Grantor. Set forth in Schedule III is a complete and accurate list of all copyrights and copyrightable works of authorship owned by the Grantor. Set forth in Schedule IV is a complete and accurate list of all Licenses in which the Grantor is (i) a licensor with respect to any of the Patents, Trademarks, or Copyrights or (ii) a licensee of any other Person's patents, trade names, trademarks, service marks, copyrights or works of authorship. The Grantor has made all necessary filings and recordations to protect and maintain its interest in the patents, patent applications, trademark and service mark registrations, trademark and service mark applications, and Licenses set forth in Schedules I, II, and IV hereto. With respect to any material copyrights and works of authorship set forth in Schedule III, Grantor has registered said copyrights for same with the United States Copyright Office. With respect to the Trade Secrets, Grantor has taken all reasonable steps necessary to maintain the secrecy of such trade secrets.

(c) Each patent, patent application, trademark or service mark registration, trademark or service mark application, copyright of the Grantor set forth in Schedule I, II or III hereto is subsisting and has not been adjudged invalid, unregistrable or unenforceable, in whole or in part, and is valid, registrable and enforceable. Each License of the Grantor identified in Schedule IV is subsisting and has not been adjudged invalid or unenforceable, in whole or in part, and is valid and enforceable. The Grantor is not aware of any uses of any item of Intellectual Property Collateral which would be expected to lead to such item becoming invalid or unenforceable, including unauthorized uses by third parties and uses which were not supported by the goodwill of the business connected with such Intellectual Property Collateral.

(d) The Grantor has not made any previous assignment, transfer or agreement constituting a present or future assignment, transfer or encumbrance of any of the Intellectual Property Collateral except in connection with any Permitted Lien. The Grantor has not granted any License (other than those listed on Schedule IV hereto), release, covenant not to sue, or non-assertion assurance to any Person with respect to any part of the Intellectual Property Collateral.

(e) The Grantor has used proper statutory notice in connection with its use of each patent, registered trademark and service mark and copyright contained in Schedule I, II or III.

(f) This Agreement creates in favor of the Grantee a valid security interest in the Intellectual Property Collateral of the Grantor, securing the payment of the Secured Obligations except as provided under the Loan Agreement. Upon the filing of those necessary instruments pursuant to Section 8.4.4 of the Loan Agreement, this Agreement will create in favor of the Grantee a valid and perfected first priority security interest in Intellectual Property Collateral of the Grantor, securing the payment of the Secured Obligations except as provided under the Loan Agreement.

(g) No consent of any Person and no authorization, approval or other action by, and no notice to or filing with, any governmental authority or regulatory body or other Person is required (i) for the grant by the Grantor of the security interest granted hereby, for the pledge by the Grantor of the Intellectual Property Collateral pursuant hereto, or for the execution, delivery or performance of this Agreement by the Grantor, (ii) for the perfection or maintenance of the pledge and security interest created hereby (including the first priority nature of such pledge and security interest), except for execution and delivery of the Publishers Intercreditor Agreement and the filing of financing and continuation statements under the Uniform Commercial Code, which financing statements are in proper form and the filing and recording of this Agreement in the United States Patent and Trademark Office against each patent, patent application, trademark or service mark registration, trademark or service mark application, and in the U.S. Copyright Office against each registered copyright of the Grantor set forth in Schedule I, II or III hereto, or (iii) for the exercise by the Grantee of its rights provided for in this Agreement or the remedies in respect of the Intellectual Property Collateral pursuant to this Agreement.

(h) There are no claims by any third party relating to any item of Intellectual Property Collateral.

(i) No claim has been made and is continuing or threatened that any item of Intellectual Property Collateral is invalid or unenforceable or that the use by the Grantor of any Intellectual Property Collateral does or may violate the rights of any Person. To the best of the Grantor's knowledge, there is currently no infringement or unauthorized use of any item of Intellectual Property Collateral.

(j) The Grantor has taken all reasonably necessary steps to use consistent standards of quality in the manufacture, distribution and sale of all products sold and the provision of all services provided under or in connection with any of the Intellectual Property Collateral and has taken all necessary steps to ensure that all licensed users of any of the Intellectual Property Collateral use such consistent standards of quality.

SECTION 5. Further Assurances.

(a) The Grantor agrees that from time to time, at the expense of the Grantor, the Grantor shall promptly execute and deliver all further instruments and documents, and take all further action, that the Grantee believes may be reasonably necessary or reasonably desirable, or that the Grantee may reasonably request, in order to perfect and protect any pledge or security interest granted or purported to be granted hereby or to enable the Grantee to exercise and enforce its rights and remedies hereunder with respect to any part of the Intellectual Property Collateral. Without limiting the generality of the foregoing, the Grantor will, upon the reasonable request of the Grantee, with respect to the Intellectual Property Collateral owned by such Grantor, execute and file such financing or continuation statements, or amendments thereto, and such other instruments or notices, as may be reasonably necessary or desirable, or as the Grantee may reasonably request, in order to perfect and preserve the pledge and security interest granted or purported to be granted hereby.

(b) The Grantor hereby authorizes the Grantee to file one or more financing or continuation statements, and amendments thereto, relating to all or any part of the Intellectual Property Collateral without the signature of such Grantor where permitted by law. A photocopy or other reproduction of this Agreement or any financing statement covering the Intellectual Property Collateral or any part thereof will be sufficient as a financing statement where permitted by law.

(c) The Grantor will furnish to the Grantee from time to time statements and schedules further identifying and describing the Intellectual Property Collateral and such other reports in connection with the Intellectual Property Collateral as the Grantee may reasonably request, all in reasonable detail.

(d) The Grantor agrees that, should it obtain an ownership interest in any patent, patent application, patentable invention, trademark, service mark, trade name, trade dress, other indicia of trade origin, trademark or service mark registration, trademark or service mark application, copyright, work of authorship or License, which is not now a part of the Intellectual Property Collateral, (i) the provisions of Section 1 will automatically apply thereto, and (ii) any such patent, patent application, patentable invention, trademark, service mark, trade name, trade dress, indicia of trade origin, trademark or service mark registration, trademark or service mark application (together with the goodwill of the business connected with the use of same and

symbolized by same), copyright, work of authorship or License will automatically become part of the Intellectual Property Collateral. With respect to any material copyright or work of authorship which is not now owned by Grantor, but in which Grantor obtains an ownership interest, or is created by or for the Grantor, Grantor shall immediately register such copyright with the United States Copyright Office, along with such documentation necessary to evidence Grantee's security interest in such copyright. The Grantor authorizes the Grantee to modify this Agreement by amending Schedules I, II, III, and IV hereto (and shall cooperate with the Grantee in effecting any such amendment) to include any patent, patent application, trademark or service mark registration, trademark or service mark application, copyright, work of authorship or License which becomes part of the Intellectual Property Collateral.

(e) With respect to each patent, patent application, trademark or service mark registration, trademark or service mark application, copyright or work of authorship set forth in Schedule I, II or III hereto, the Grantor agrees to take all necessary or desirable steps including, without limitation, in the United States Patent and Trademark Office and the United States Copyright Office or in any court, to (i) maintain each such patent, trademark or service mark registration, and copyright registration, and (ii) pursue each such patent application, trademark or service mark application and copyright application now or hereafter included in the Intellectual Property Collateral, including, without limitation, the filing of responses to office actions issued by the United States Patent and Trademark Office, the filing of affidavits under Sections 8 and 15 of the United States Trademark Act, the filing of divisional, continuation, continuation-in-part and substitute applications, the filing of applications for re-issue, renewal or extensions, the payment of maintenance fees, and the participation in interference, reexamination, opposition, cancellation, infringement and misappropriation proceedings. The Grantor agrees to take corresponding steps with respect to each new or acquired patent, patent application, trademark or service mark registration, trademark or service mark application, copyright, or work of authorship to which it is now or later becomes entitled. Any and all expenses incurred in connection with such activities will be borne by the Grantor. The Grantor shall not discontinue use of or otherwise abandon any patent, patent application, trademark or service mark, trademark or service mark registration, trademark or service mark application, copyright or trade secret now or hereafter included in the Intellectual Property Collateral, unless the Grantor shall have first determined in its reasonable business judgment that such use or pursuit or maintenance of same is no longer desirable in the conduct of the Grantor's business.

(f) The Grantor agrees to notify the Grantee promptly and in writing if it learns (i) that any item of the Intellectual Property Collateral has been determined to have become abandoned, dedicated to the public, entered the public domain, or, in the case of a trade secret, has been publicly disclosed so that it would no longer be deemed to be a trade secret; (ii) of the institution of any proceeding (including, without limitation, the institution of any proceeding in the United States Patent and Trademark Office or any court) regarding any item of the Intellectual Property Collateral, or (iii) of any adverse determination.

(g) In the event that the Grantor makes a determination in its reasonable business judgment that any item of the Intellectual Property Collateral has been infringed or misappropriated by a third party, the Grantor shall promptly notify the Grantee and will take such actions as the Grantor or the Grantee deems appropriate under the circumstances to protect such Intellectual Property Collateral, including, without limitation, suing for infringement or

misappropriation and for an injunction against such infringement or misappropriation. Any expense in connection with such activities will be borne by the Grantor.

(h) The Grantor shall continue to use proper statutory notice in connection with its use of each of its patents, registered trademarks and service marks, and copyrights contained in Schedule I, II or III.

(i) The Grantor shall take all steps which it or the Grantee deems appropriate under the circumstances to preserve and protect its Intellectual Property Collateral, including, without limitation, maintaining the quality of any and all products or services used or provided in connection with any of the Intellectual Property Collateral, consistent with the quality of the products and services as of the date hereof, and taking all steps necessary to ensure that all licensed users of any of the Intellectual Property Collateral use such consistent standards of quality.

SECTION 6. Transfers and Other Liens. The Grantor agrees that it shall not (i) sell, assign (by operation of law or otherwise) or otherwise dispose of (except as provided in Section 5(e)) or grant any option with respect to, any of the Intellectual Property Collateral, or (ii) create or suffer to exist any lien upon or with respect to any of the Intellectual Property Collateral except for the pledge and security interest created by this Agreement and Permitted Liens.

SECTION 7. The Grantee Appointed Attorney-in-Fact. The Grantor hereby irrevocably appoints the Grantee attorney-in-fact, with full authority in the place and stead of such Grantor and in the name of such Grantor or otherwise, upon the occurrence and during the continuance of an Event of Default and upon notice to such Grantor to take any action and to execute any instrument that the Grantee may deem necessary or advisable to accomplish the purposes of this Agreement, including, without limitation:

(a) to ask for, demand, collect, sue for, recover, compromise, receive and give acquittance and receipts for moneys due and to become due under or in respect of any of the Intellectual Property Collateral;

(b) to receive, endorse and collect any drafts or other instruments, documents and chattel paper, in connection with clause (a) above; and

(c) to file any claims or take any action or institute any proceedings that the Grantee may deem necessary or desirable to enforce the rights of the Grantee with respect to any of the Intellectual Property Collateral.

SECTION 8. The Grantee May Perform. If the Grantor fails to perform any agreement contained herein, the Grantee may itself, upon fifteen (15) days' notice to said Grantor, perform, or cause performance of, such agreement, and the reasonable expenses of the Grantee incurred in connection therewith shall be borne by said Grantor.

SECTION 9. The Grantee's Duties. The powers conferred on the Grantee hereunder are solely to protect its interest in the Intellectual Property Collateral and shall not impose any duty upon it to exercise any such powers. Except for the safe custody of any Intellectual Property Collateral in its possession and the accounting for moneys actually received by it

hereunder, the Grantee shall have no duty as to any Intellectual Property Collateral, whether or not the Grantee has or is deemed to have knowledge of such matters. or as to the taking of any necessary steps to preserve rights against any parties or any other rights pertaining to any Intellectual Property Collateral. The Grantee shall exercise reasonable care in the custody and preservation of any Intellectual Property Collateral in its possession and shall accord such Intellectual Property Collateral treatment equal to that which the Grantee accords its own property.

SECTION 10. Remedies. If any Event of Default shall have occurred and be continuing:

(a) The Grantee may exercise in respect of the Intellectual Property Collateral, in addition to other rights and remedies provided for herein or in any other Loan Document or otherwise available to it, all the rights and remedies of a secured party upon default under the Uniform Commercial Code in effect in the Commonwealth of Massachusetts at such time (the "Massachusetts Uniform Commercial Code") (whether or not the Massachusetts Uniform Commercial Code applies to the affected Intellectual Property Collateral) and also may (i) require the Grantor to, and the Grantor hereby agrees that it will at its expense and upon request of the Grantee forthwith, assemble all or part of the documents and things embodying any part of the Intellectual Property Collateral as directed by the Grantee and make them available to the Grantee at a place and time to be designated by the Grantee; (ii) without notice except as specified below and as required by law, sell the Intellectual Property Collateral or any part thereof in one or more parcels at public or private sale, at any of the Grantee's offices or elsewhere, for cash, on credit or for future delivery, and upon such other terms as the Grantee may deem commercially reasonable; and (iii) occupy any premises owned or leased by the Grantor where documents and things embodying the Intellectual Property Collateral or any part thereof are assembled or located for a reasonable period in order to effectuate its rights and remedies hereunder or under law, without obligation to the Grantor in respect of such occupation. In the event of any sale, assignment, or other disposition of any of the Intellectual Property Collateral, the goodwill of the business connected with and symbolized by any of the Intellectual Property Collateral subject to such disposition will be included, and the Grantor will supply to the Grantee or its designee the Grantor's know-how and expertise, and documents and things embodying the same, relating to the manufacture, distribution, advertising and sale of products or the provision of services relating to any Intellectual Property Collateral subject to such disposition and, including, but not limited to, the Grantor's customer lists and other records and documents relating to such Intellectual Property Collateral and to the manufacture, distribution, advertising and sale of such products and services. The Grantor agrees that, to the extent notice of sale shall be required by law, at least ten (10) days' notice to the Grantor of the time and place of any public sale or the time after which any private sale is to be made will constitute reasonable notification. The Grantee shall not be obligated to make any sale of Intellectual Property Collateral regardless of notice of sale having been given. The Grantee may adjourn any public or private sale from time to time by announcement at the time and place fixed therefor, and such sale may, without further notice except as required by law, be made at the time and place to which it was so adjourned.

(b) All cash proceeds received by the Grantee in respect of any sale of, collection from, or other realization upon, all or any part of the Intellectual Property Collateral

may, in the discretion of the Grantee, be held by the Grantee as collateral for, and/or then or at any time thereafter applied (after payment of any amounts payable to the Grantee pursuant to Section 11(b)), in whole or in part, by the Grantee, for its benefit against all or any part of the Secured Obligations in such order as the Loan Agreement may require and otherwise as the Grantee may elect. Any surplus of such cash or cash proceeds held by the Grantee and remaining after payment in full of all of the Secured Obligations shall be paid over to the Grantor or to whomever may be lawfully entitled to receive such surplus.

(c) The Grantee may exercise any and all rights and remedies of the Grantor in respect of the Intellectual Property Collateral.

(d) All payments received by the Grantor in respect of the Intellectual Property Collateral shall be received in trust for the benefit of the Grantee, shall be segregated from other funds of the Grantor and shall be forthwith paid over to the Grantee in the same form as so received (with any necessary or desirable endorsement or assignment).

SECTION 11. Indemnity and Expenses.

(a) The Grantor hereby agrees to indemnify the Grantee from and against any and all claims, losses and liabilities arising out of or resulting from this Agreement (including, without limitation, enforcement of this Agreement), except claims, losses or liabilities resulting from the Grantee's gross negligence or willful misconduct as determined by a final non-appealable judgment of a court of competent jurisdiction.

(b) The Grantor will, upon demand, pay to the Grantee the amount of any and all reasonable expenses, including the reasonable fees and expenses of its counsel and of any experts and Grantee, that the Grantee may incur in connection with (i) the administration of this Agreement, (ii) the custody, preservation, use, or operation of, or the sale of, collection from or other realization upon, any of the Intellectual Property Collateral, (iii) the exercise or enforcement of any of the rights of the Grantee hereunder or (iv) the failure by the Grantor to perform or observe any of the provisions hereof.

SECTION 12. Security Interest Absolute. The obligations of the Grantor under this Agreement are independent of the Obligations, and a separate action or actions may be brought and prosecuted against the Grantor to enforce this Agreement, irrespective of whether any action is brought against the Grantor or whether the Grantor is joined in any such action or actions. All rights of the Grantee and the pledge and security interest created hereunder, and all obligations of the Grantor hereunder, shall be absolute and unconditional, irrespective of:

(a) any lack of validity or enforceability of any Document or any other agreement, instrument or document relating thereto;

(b) any change in the time, manner or place of payment of, or in any other term of, all or any of the Obligations or any other amendment, restatement or other modification or waiver of or any consent to any departure from any Document, including, without limitation, any increase in the Obligations resulting from the extension of additional credit to the Grantor or any Guarantor or any of their Subsidiaries or otherwise;

(c) any taking, exchange, release or non-perfection of any other collateral, or any taking, release or amendment, restatement, other modification or waiver of or consent to any departure from any guaranty, for all or any of the Obligations;

(d) any manner of application of collateral, or proceeds thereof, to all or any of the Obligations, or any manner of sale or other disposition of any collateral for all or any of the Obligations or any other assets of the Grantor, any Guarantor or any of their Subsidiaries;

(e) any change, restructuring or termination of the corporate structure or existence of the Grantor or any Guarantor or any of their Subsidiaries; or

(f) any other circumstance that might otherwise constitute a defense available to, or a discharge of, the Grantor or a third party grantor of a security interest.

SECTION 13. Amendments, Waivers, Supplements, Etc

(a) No amendment or waiver of any provision of this Agreement, and no consent to any departure by the Grantor herefrom, shall in any event be effective unless the same shall be in writing and signed by the Grantee and the Grantor, and then such waiver or consent shall be effective only in the specific instance and for the specific purpose for which given.

(b) No failure on the part of the Grantee to exercise, and no delay in exercising, any right hereunder shall operate as a waiver thereof; nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

(c) Upon the execution and delivery by any Person of an intellectual property security agreement supplement, in each case in substantially the form of Exhibit A hereto (each a "Trademark, Patent and Copyright Security Agreement Supplement"), (i) such Person shall be referred to as an "Additional Grantor" and shall be and become a Grantor, and each reference in this Agreement to "Grantor" shall also mean and be a reference to such Additional Grantor and each reference in any other Document to a "Grantor" shall also mean and be a reference to such Additional Grantor, and (ii) the annexes attached to each Trademark, Patent and Copyright Security Agreement Supplement shall be incorporated into and become a part of and supplement Schedules I, II, III and IV, as appropriate, hereto and the Grantee may attach such annexes as supplements to such Schedules, and each reference to such Schedules shall mean and be a reference to such Schedules, as so supplemented.
