## GRANT OF IP SECURITY INTEREST (PATENTS AND TRADEMARKS)

THIS GRANT OF IP SECURITY INTEREST (PATENTS AND TRADEMARKS) is dated as of February 20, 2002, by and between WOODSIDE BIOMEDICAL, INC., a Delaware corporation having its chief executive office at 1915 Aston Avenue, Carlsbad, CA 92008 (the "*Assignor*"), and SEQUEL LIMITED PARTNERSHIP II, having a representative office at 4430 Arapahoe, Suite 220, Boulder, CO 80303, in its capacity as the collateral agent on behalf and for the benefit of the Credit Parties (in such capacity, the "*Assignee*"), as each term is defined in the Security Agreement (as defined below).

WHEREAS, pursuant to that Secured Note Purchase Agreement, dated of even date herewith (the "*Purchase Agreement*"), by and among the Assignor and certain purchasers as defined therein (the "*Purchasers*"), the Purchasers have made and have agreed to make certain advances of money and to extend certain financial accommodations to Assignor as evidenced by those Secured Convertible Promissory Notes (the "*Notes*"), to be delivered by Assignor to the Purchasers (collectively, the "*Loans*");

WHEREAS, pursuant to the Intercreditor Agreement, dated of even date herewith (the "*Intercreditor Agreement*"), by and among the Assignee and the Credit Parties, the Assignee has agreed to act as collateral agent for the ratable benefit of the Credit Parties to, among other things, execute this Agreement;

WHEREAS, pursuant to the terms of a Security Agreement, of even date herewith (the "*Security Agreement*"), in favor of the Assignee, for the benefit of the Credit Parties, the Assignor has granted to the Assignee a security interest in all of the Assignor's right, title and interest, whether presently existing or hereafter arising or acquired, in, to and under all of the Collateral (as defined in the Security Agreement); and

WHEREAS, the Purchasers are willing to make and extend the Loans to and for the benefit of the Assignor, but only upon the condition, among others, that the Assignor shall grant a security interest in and assign for security purposes (and not as an absolute assignment) in favor of and to the Assignee, on behalf of and for the benefit of the Credit Parties, in and to, all of Assignor's right, title and interest in and to all Patents and Trademarks (as described below and in the Security Agreement) to secure its payment and performance of the Secured Obligations (as defined in the Security Agreement).

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, as collateral security for the prompt and complete payment and performance when due of the Secured Obligations, the Assignor hereby represents, warrants, covenants and agrees as follows:

1. Unless otherwise defined herein, the terms defined in the Security Agreement are used herein as therein defined.

2. As security for the full, complete and final payment and performance when due (whether at stated maturity, by acceleration or otherwise) of all the Secured Obligations and in order to induce the Assignee and the other Credit Parties to enter into the Purchase Agreement and the other Loan Documents and to make and extend the Loans to and for the benefit of the Assignor upon the terms and subject to the conditions thereof, Assignor hereby pledges and hypothecates to the Assignee, on behalf of and for the benefit of the Credit Parties, and hereby grants to the Assignee, on behalf of and for the benefit of the Credit Parties, a security interest in and to all of Assignor's respective right, title and interest in, to and under all Patents and Trademarks (as defined in the Security Agreement), including, without limitation, each registered Patent and Trademark and any Patent and Trademark applications listed on *Schedule A* hereto, including, without limitation, all proceeds thereof (such as, by way of example but not by way of limitation, license royalties and proceeds of infringement suits), the right to sue for past, present and future infringements, all rights corresponding thereto throughout the world and all reissues, divisions, continuations, continuations-in-part and renewals thereof.

The Assignor does hereby further acknowledge and affirm that the rights and remedies of the Assignee with respect to the assignment of and security interest in the Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are hereby incorporated herein by reference.

Following the termination of the Security Agreement in accordance with its terms, the Patents and Trademarks and any and all financing statements filed on behalf of the Assignee will be automatically terminated, released, and/or reassigned to the Assignor, and the Assignee will, at Assignor's sole cost and expense, execute such instruments as may be reasonably requested to evidence such termination, release, and/or reassignment.
