U.S. DEPARTMENT OF COMMERCE U.S. Patent and Trademark Office

To the Honorable Commissioner of Patents and Trademarks: Please record the attached original documents or copy thereof.

1. Name of conveying party(ies): Centura Software Corporation
3-27-02
Individual(s)
General Partnership
Corporation-State Delaware
Additional name(s) of conveying party(ies) attached? Yes No

2. Name and address of receiving party(ies) Name: Birdstep Technology, Inc. Internal Address: Street Address: 2101 4th Avenue, Suite 2000 City: Seattle State: WA Zip: 98121
Individual(s) citizenship
Association
General Partnership
Limited Partnership
Corporation-State Delaware
Other
If assignee is not domiciled in the United States, a domestic representative designation is attached: Yes No
(Designations must be a separate document from assignment)
Additional name(s) & address(es) attached? Yes No

3. Nature of conveyance:
Assignment Merger
Security Agreement Change of Name
Other
Effective date: September 17, 2001

4. Application number(s) or registration number(s):
A. Trademark Application No.(s)
B. Trademark Registration No.(s) 1948615, 1994372, 1943081
Additional number(s) attached Yes No

5. Name and address of party to whom correspondence concerning document should be mailed:
Name: Thomas A. Zimmer
Internal Address:
Street Address: Holland & Knight LLP 50 California Street, Suite 2800
City: San Francisco State: CA Zip: 94111

6. Total number of applications and registrations involved: 3
7. Total fee (37 CFR 3.41) \$ 90.00
Enclosed
Authorized to be charged to deposit account
8. Deposit account number:

## BILL OF SALE

KNOW ALL MEN BY THESE PRESENTS, that CENTURA SOFTWARE CORPORATION, dba MBRANE, a Delaware corporation having its principal place of business at 975 Island Drive, Redwood Shores, California 94065 ("Seller"), for good and valuable consideration received from BIRDSTEP TECHNOLOGY, INC., a Delaware corporation having its principal place of business at 2880 Zanker Road, Suite 203, San Jose, California 95134 ("Buyer"), the receipt and sufficiency of which are hereby acknowledged, has sold, assigned, granted, transferred and delivered, and by these presents does bargain, sell, assign, grant, transfer and deliver, unto Buyer, its successors and assigns forever, all of the right, title and interest of any nature whatsoever of Seller in each of the assets described on the attached Exhibits A and A-1 hereto (the "Assets"), free and clear of all Liens (including Liens for Taxes), to have and to hold the Assets unto the Buyer, its successors and assigns, to its own use and behalf forever.

This Bill of Sale is being executed and delivered by Seller to Buyer pursuant to that certain Asset Purchase and Sale Agreement dated as of August 20, 2001, as amended by that certain First Amendment to Asset Purchase and Sale Agreement dated as of September 14, 2001 (as amended, the "Purchase Agreement"), between Seller and Buyer. Terms with initial capital letters not otherwise defined herein shall have the meanings assigned to them in the Purchase Agreement. This Bill of Sale shall be subject in all respects to the terms of the Purchase Agreement.

Seller hereby warrants that there is hereby conveyed to Buyer good and marketable title, license or leasehold interest to the Assets, free and clear of any Liens (including Liens for Taxes) of any nature whatsoever.

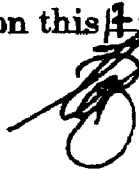

Nothing contained in this Bill of Sale shall be deemed to constitute an assumption by Buyer of any of the obligations, liabilities or duties of Seller.

This Bill of Sale and the representations, warranties and covenants herein contained shall inure to the benefit of Buyer and its successors and assigns, shall be binding upon Seller and its successors, assigns and transferees, and shall survive the execution and delivery hereof.

If any provision of this Bill of Sale, including any phrase, sentence, clause, section or subsection, is inoperative or unenforceable for any reason, such circumstances shall not have the effect of rendering the provision in question inoperative or unenforceable in any other case or circumstance, or of rendering any other provision or provisions herein contained invalid, inoperative or unenforceable to any extent whatsoever.

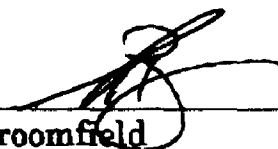

THIS BILL OF SALE SHALL BE GOVERNED IN ALL RESPECTS, INCLUDING AS TO VALIDITY, INTERPRETATION AND EFFECT, BY THE INTERNAL LAWS OF THE STATE OF CALIFORNIA, WITHOUT GIVING EFFECT TO THE CONFLICT OF LAWS RULES THEREOF (WHETHER OF THE STATE OF CALIFORNIA OR ANY OTHER JURISDICTION) THAT WOULD CAUSE THE APPLICATION OF THE LAWS OF ANY JURISDICTION OTHER THAN THE STATE OF CALIFORNIA.

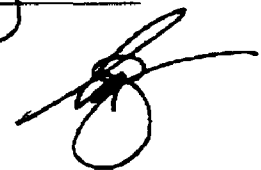

IN WITNESS WHEREOF, Seller has caused this Bill of Sale to be executed and delivered on this 4<sup>th</sup> day of September, 2001.

CENTURA SOFTWARE CORPORATION,  
a Delaware corporation

## Disclosure Schedule

### 4.5 Required Consents

PBF  
Bankruptcy Court

Seller has not determined whether the licenses for the software on the attached Schedule 4.5 are assignable to Buyer.

### 4.6. PBF Lien.

### 4.7 Intellectual Property

All copyrights, copyright registrations, proprietary processes, trade secrets, license rights, specifications, technical manuals and data, drawings, inventions, designs, patents, patent applications, trade names, trademarks, service marks, product information and data, know-how and development work-in-progress, customer lists, software in complete source and object code formats, business and marketing plans and other intellectual or intangible property, whether pending, applied for or issued, whether filed in the United States or in other countries, together with all associated goodwill, all things authored, discovered, developed, made, perfected, improved, designed, engineered, acquired, produced, conceived or first reduced to practice by Seller or any of its employees or agents, in any stage of development, including, without limitation, modifications, enhancements, designs, concepts, techniques, methods, ideas, flow charts, coding sheets, notes and all other information, and any and all design and code documentation, methodologies, processes, trade secrets, copyrights, design information, product information, technology, formulae, routines, engineering specifications, technical manuals and data, drawings, inventions, know-how, techniques, engineering work papers, and notes, development work-in-process, and other proprietary information and materials of any kind, including without limitation the items listed on Schedule 4.7(a) and (b).

List of Registrations and Applications attached as Schedule 4.7(b).

Veritas has made claims that Seller's sales staff made oral promises that the next version of Velocis would include ODBC 3.5 and Dynamic DDL and related claims.

Seller has many unpaid liabilities to professionals who have represented Seller in intellectual property matters.

Seller is licensee from Synchrologic for a synchronization and is in default in payments thereunder, and Synchrologic's consent may be required to assign this agreement.

### 4.9 The Seller has written employment agreements with the following:

Steven Graves

Randy Merilatt  
Steven Smith  
Wayne Warren

The list of employees and compensation attached hereto as Schedule 4.9 is incorporated herein.

4.15 List of outstanding litigation:

Financial Relations Board vs. Centura Software Corp.  
Requested arbitration for collection

Bionetrix

Balance Software

Frankfurt Balkind Partners v. Centura Software Corp.  
S.D.N.Y. 01 CIV 4508 (PKL)

4.19 List of Permits

See attached Schedule 4.19. It is important to note that all of these registrations are non-transferable, and will need to be established by Birdstep Technologies. They are simple to establish and will not pose any problems. The list attached is the registrations required when Birdstep Technologies begins business.

Currently Centura files sales tax reports in about 17 states where nexus has been established in the past. Also, in states where we have had employees we filed payroll tax withholdings. However, these are irrelevant to Birdstep since they have no employees or nexus in any states other than those listed in the attached.

4.23 Brokers, etc.

The Seller had retained First Albany Corporation ("FAC") as its Investment banker to assist the Seller in finding a buyer for the business. FAC's success fee, per their contract, was contingent on finding a buyer for the business and then to assist the Seller in closing a transaction. FAC did not find the Buyer and has not been involved with the Seller in any capacity to assist in consummating the Transaction herein. Accordingly, Seller believes it has no obligation to award a success fee as a result of this Transaction.

In May, 2001, the Seller, with Board approval as a retention plan, entered into a "special bonus plan" with its employees, with the following structure:

This following outlines the special bonus plan for Q2/Q3 2001 for your support and assistance in bringing in \$2.5 million or greater through strategic deals in the embedded space. It is probable that a transaction will be either an asset sale or

some form of strategic buyout. This special bonus does not apply to any sales that are currently forecast or that would normally pay sales commissions. There will be no double compensation so if there are standard sales commissions paid on an account they will be deducted from the total for this special bonus. An employee must remain through the closing of a transaction in order to be eligible for the special bonus.

The bonus will be paid at 5% of total income once the target of \$2.5 million has been met. Larry Stefonic shall receive 2%, 1% shared equally among the other sales people and 2% will be shared equally among other contributors in the Seattle office and those elsewhere in the Company that are heavily involved in the embedded business, excluding Company Officers. John and Scott will determine the allocation of the final 2% for other persons. This means that below \$2.5 million no special bonus would be paid but at \$2.5 million the special bonus of \$125,000 would be payable according to the splits defined above. The bonus amount is not capped, so a transaction valued at \$10 million would pay a \$500,000 special bonus. The special bonus would be paid once the cash is received.

In June 2001, the Board of Directors of the Seller resolved that:

Scott R. Broomfield and John W. Bowman (the "Officers") shall receive an "Incentive Bonus" of 5% of the gross value received related to the sale of the Business or its assets, whether all or in part, if: i) a transaction is completed on or before September 15, 2001, ii) the Officers are actively involved in the negotiation and closing of a transaction, and iii) as may be necessary, the Officers remain through a Bankruptcy Court hearing authorizing an asset sale transaction.

## Schedule 4.7(a): Product Descriptions

### 1) Mbrane Touchpoint 3.0 – Mobile Companion

Touchpoint Mobile Companion is targeted at mobile workers – tethered or untethered – and their needs to remain productive at any given moment. It is a secure, platform-independent software that protects current and future investments in IT technology from obsolescence. Mobile workers can securely and immediately participate in a company's workflow and gain access to required knowledge assets. Mobile Companion supports Pocket PC, Palm, and EPOC operating system environments and is network carrier independent.

### 2) Mbrane Touchpoint 3.0 – Embedded Companion

The Touchpoint Embedded Companion is designed to garner high performance in real-time database applications. Using either relational or network database models, the Embedded Companion is predictable, portable and reliable, providing all of the functionality needed to support real time critical applications. In addition, the Embedded Companion offers an ultra-small footprint, optimizing performance with minimal demands on computing resources without the typical DBMS overhead.

### 3) Mbrane Touchpoint 3.0 – Server Partner

The Mbrane Touchpoint Server Partner is an intelligent, secure connection between corporate resources and any Mobile or Embedded Companions. It is the server element of the software membrane that understands an application's requirements and tailors its communications to those requirements. Users get the information they need in the format that is most useful. Overcoming spotty connections, low bandwidths, and device constraints, the Touchpoint Server Partner securely extends the enterprise to any mobile or embedded device. Effectively extending the firewall, the Touchpoint Server Partner communicates needed information and functionalities to mobile platforms, bringing users back into processes.

### 4) Mbrane - Velocis

Velocis 3.0 is Mbrane's cross-platform database server for e-Business, Web applications, industrial servers, and other applications with demanding performance requirements. Velocis offers a solid foundation for application development with unique tools for performance enhancement and database customization and adheres to important industry standards such as SQL and ODBC. Velocis requires a minimum of administration and provides automatic recovery and full data integrity in a small-footprint, database server solution.

### 5) Mbrane - RDM

RDM (formerly Raima Database Manager) is a proven product with multiple success stories to its name. It was created by engineers at Raima Corporation and was acquired by Mbrane (previously Centura) in mid-1998. RDM Real Time Operating System (RTOS) platforms include:

- Microsoft Windows CE
- WindRiver
- LynxOS (From Lynuxworks)
- QNX (The leading Real-time OS for PCs)
- 

### 6) Mbrane - RDM/Vx

RDM for VxWorks (RDM/Vx) is a proven data record management solution, one designed specifically for Wind River's Tornado® development platform. RDM/Vx is a fast, lightweight database that is also scalable, extensible, optimized for performance. These advantages reduce an application's time to market, thereby complementing one of Tornado's strengths. The compact database engine is built around a comprehensive library of c functions for database manipulation and control. The records managed by RDM/Vx support all c data types, including arrays and structs. RDM/Vx provides high performance with low demands on computing resources.
