INTELLECTUAL PROPERTY ASSIGNMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT (this "Assignment") is entered into as of this 17th day of October 2001 by and between Bridge Information Systems, Inc., a Missouri corporation ("**Bridge**") and each entity listed in Schedule 1 hereto (collectively, together with Bridge, the "**Sellers**") TM SUB II, Inc. ("**Assignee**" and the Purchaser's Designee of MoneyLine Network, Inc. under the Asset Purchase Agreement (as described below))

WHEREAS, Sellers and MoneyLine Network, Inc. are parties to a certain Asset Purchase Agreement, dated August 24, 2001 (the "**Asset Purchase Agreement**");

WHEREAS, pursuant to the terms of the Asset Purchase Agreement, Sellers have agreed to assign to Assignee all their right, title and interest, if any, in and to: (1) the trademarks and service marks identified on the attached Schedule 2, the goodwill associated therewith, and all registrations of, and applications for registration of, such trademarks and service marks, worldwide (collectively, the "**Marks**"); and (2) the patents identified on the attached Schedule 3 and any and all continuation, continuation-in-part, divisional, reissue, parent, and other patents and patent applications, and reexamination certificates, that claim in whole or in part the benefit of the filing date of, or that are based in whole or in part on, any of such patents, and any and all counterpart foreign patents and patent applications of any of the foregoing (collectively, the "**Patent Properties**"); and

WHEREAS, Sellers wish to assign, and Assignee wishes to acquire, all right, title and interest, if any, in and to the Marks and the Patent Properties.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is acknowledged by the parties, Sellers hereby sell, assign and transfer to Assignee, effective as of the date hereof, all of their right, title and interest in and to the Marks and the Patent Properties, including, without limitation, all right, title and interest, if any, to sue and recover for past, present and future infringements by any third parties of any of the Marks or Patent Properties (subject only to Permitted Liens, as defined in the Asset Purchase Agreement).

Sellers hereby authorize and request the Commissioner of Patents and Trademark of the United States, and corresponding authorities in all other jurisdictions, worldwide, to issue and to record the title of Assignee as owner of all right, title, and interest in and to the Marks and the Patent Properties, all applications, registrations, and renewals therefor, the goodwill connected with the use thereof, symbolized thereby and associated therewith, and the business of Seller to which such Marks and Patent Properties pertain. Assignee shall bear the cost of all filing and similar fees relating to the filing or recordation of Assignee's ownership interest in, or issuance to Assignee of, the Marks and the Patent Properties.

Sellers shall use all commercially reasonable efforts to execute and deliver, or cause to be executed and delivered, such further instruments or documents, and take such other actions which may be reasonably requested to implement more effectively the conveyance and transfer of, or which may be necessary to protect or enforce, any of the Marks and Patent Properties. Sellers shall use reasonable best efforts to assist Assignee in obtaining all

authorizations and to assist in the preparation, execution and delivery of any and all lawful documents, notes, filings, forms or other documentation required by any domestic or foreign government or government agency to effect the transfer (subject only to Permitted Liens, as defined in the Asset Purchase Agreement) of the Marks and Patent Properties.
