THIS INTELLECTUAL PROPERTY SECURITY AGREEMENT, dated as of December 13, 2002, is made by each of the grantors set forth on the signature page hereto (such Persons being referred to collectively as "Grantors" and each individually as a "Grantor"), in favor of TRANSAMERICA BUSINESS CAPITAL CORPORATION, a Delaware corporation ("Lender").

WITNESSETH:

A. Flexitallic Investments, Inc., a Delaware corporation ("Investments"), and Flexitallic L.P., a Texas limited partnership ("Flexitallic US"; each of Investments and Flexitallic US being a "Borrower," and collectively, the "Borrowers"), Lender, and the other Loan Parties signatory thereto are parties to that certain Loan and Security Agreement of even date herewith (as the same may from time to time be amended, supplemented, or otherwise modified, the "Loan Agreement"), pursuant to which Lender has agreed, among other things, to make the Loans to Borrowers for the direct or indirect benefit of Borrowers and the other Loan Parties upon the terms and conditions set forth therein.

B. Each Grantor is either a Borrower or a Loan Party under the Loan Agreement and has Obligations to Lender under either the Loan Agreement or the Loan Party Guaranty, as well as under the other Loan Documents to which such Borrower or Loan Party is a party.

C. Each Grantor will derive substantial direct and indirect economic benefit if Lender enters into the Loan Agreement, and Lender is willing to do so, but only upon the condition, among others, that each Grantor shall have executed and delivered to Lender this Intellectual Property Security Agreement.

NOW, THEREFORE, in consideration of the premises and the covenants hereinafter contained, the receipt and adequacy of which are hereby acknowledged, and to induce Lender to enter into the Loan Agreement, it is agreed as follows:

1. DEFINED TERMS; CERTAIN MATTERS OF CONSTRUCTION. Unless otherwise set forth herein, (a) capitalized terms or matters of construction defined or established in the Loan Agreement shall be applied herein as defined or established therein, and (b) any reference to a "Section" shall refer to the relevant section of this Intellectual Property Security Agreement.

2. GRANT OF SECURITY INTEREST IN INTELLECTUAL PROPERTY COLLATERAL. To secure the complete and timely payment of all the Obligations of such Grantor now or hereafter existing from time to time, each Grantor hereby pledges and grants to Lender a continuing first priority security interest in all of such Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired (collectively, the "Intellectual Property Collateral"):

(a) all of its patents and patent licenses to which it is a party, including those referred to on Schedule I hereto;

(b) all of its trademarks and trademark licenses to which it is a party, including those referred to on Schedule I hereto;

(c) all of its copyrights and copyright licenses to which it is a party, including those referred to on Schedule I hereto;

(d) all reissues, continuations or extensions of the foregoing;

(e) all goodwill of the business connected with the use of, and symbolized by, each patent, each patent license, each trademark, each trademark license, each copyright and each copyright license; and

(f) all products and proceeds of the foregoing, including, without limitation, any claim by such Grantor against third parties for past, present or future (i) infringement or dilution of any patent or patent licensed under any patent license, (ii) injury to the goodwill associated with any patent or any patent licensed under any patent license, (iii) infringement or dilution of any trademark or trademark licensed under any trademark license, (iv) injury to the goodwill associated with any trademark or any trademark licensed under any trademark license, (v) infringement or dilution of any copyright or copyright licensed under any copyright license, and (vi) injury to the goodwill associated with any copyright or any copyright licensed under any copyright license.

3. REPRESENTATIONS AND WARRANTIES. Each Grantor represents and warrants that: (a) such Grantor does not have any interest in, or title to, any patent, trademark or copyright of any material value to the conduct of such Grantor's business except as set forth in Schedule I, hereto; and (b) this Intellectual Property Security Agreement is effective to create a valid and continuing Lien on all of such Grantor's patents, trademarks and copyrights and, upon the filing hereof with the United States Patent and Trademark Office and the United States Copyright Office and the filing of appropriate financing statements against such Grantor listed on Schedule 5.1(a) to the Loan Agreement, perfected security interests in favor of Lender in all of such Grantor's patents, trademarks and copyrights enforceable as such as against any and all creditors of, and purchasers from, such Grantor.

4. COVENANTS. Each Grantor covenants and agrees with Lender that from and after the date of this Intellectual Property Security Agreement and until the Termination Date:

(a) Such Grantor shall notify Lender immediately if it knows or has reason to know that any application or registration relating to any patent, trademark or copyright (now or hereafter existing) may become abandoned or dedicated, or of any adverse determination or development (including the institution of, or any such determination or development in, any proceeding in the United States Patent and Trademark Office, the United States Copyright Office or any court) regarding such Grantor's ownership of any patent, trademark or copyright, its right to register the same, or to keep and maintain the same, in each case, other than any such patent, trademark or patent that such Pledgor determines has no material value to the conduct of such Grantor's business.

(b) In no event shall such Grantor, either directly or through any agent, employee, licensee or designee, file an application for the registration of any patent, trademark or copyright with the United States Patent and Trademark Office, the United States Copyright Office or any similar office or agency without giving Lender written notice thereof within a reasonable time after such filing, and, upon request of Lender, such Grantor shall execute and deliver a supplement hereto (in form and substance satisfactory to Lender) to evidence Lender's Lien on such patent, trademark or copyright, and the general intangibles of such Grantor relating thereto or represented thereby.

(c) Such Grantor shall take all actions necessary or reasonably requested by Lender to maintain and pursue each application, to obtain the relevant registration and to maintain the registration of each of the patents or trademarks (now or hereafter existing), including the filing of applications for renewal, affidavits of use, affidavits of noncontestability and opposition and interference and cancellation proceedings.

(d) In the event that any of the Intellectual Property Collateral is infringed upon, or misappropriated or diluted by a third party, except for such infringement, misappropriation or dilution which could not reasonably be expected to have a Material Adverse Effect, such Grantor shall notify Lender promptly after such Grantor learns thereof. Such Grantor shall, unless it shall reasonably determine that such Intellectual Property Collateral is in no way material to the conduct of its business or operations or the cost of proceedings would likely outweigh the benefits, promptly sue for infringement, misappropriation or dilution and to recover any and all damages for such infringement, misappropriation or dilution, and shall take such other actions as Lender shall reasonably deem appropriate under the circumstances to protect such Intellectual Property Collateral.

5. SECURITY AGREEMENT. The security interests granted pursuant to this Intellectual Property Security Agreement are granted in conjunction with the security interests granted to Lender pursuant to the Loan Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of Lender with respect to the security interest in the Intellectual Property Collateral made and granted hereby are more fully set forth in the Loan Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

6. REINSTATEMENT. This Intellectual Property Security Agreement shall remain in full force and effect and continue to be effective should any petition be filed by or against any Grantor for liquidation or reorganization, should any Grantor become insolvent or make an assignment for the benefit of any creditor or creditors or should a receiver or trustee be appointed for all or any significant part of any Grantor's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

7. NOTICES. Whenever it is provided herein that any notice, demand, request, consent, approval, declaration or other communication shall or may be given to or served upon any of the parties by any other party, or whenever any of the parties desires to give and serve upon any other party any communication with respect to this Intellectual Property Security Agreement, each such notice, demand, request, consent, approval, declaration or other communication shall be delivered in accordance with the provisions of Section 11.1 of the Loan Agreement.

8. TERMINATION OF THIS SECURITY AGREEMENT. Subject to Section 6 hereof, this Intellectual Property Security Agreement shall terminate upon the Termination Date.

INTELLECTUAL PROPERTY SECURITY AGREEMENT

THIS INTELLECTUAL PROPERTY SECURITY AGREEMENT, dated as of December 13, 2002, is made by each of the grantors set forth on the signature page hereto (such Persons being referred to collectively as "Grantors" and each individually as a "Grantor"), in favor of TRANSAMERICA BUSINESS CAPITAL CORPORATION, a Delaware corporation ("Lender").

W I T N E S S E T H:

A. Flexitallic Investments, Inc., a Delaware corporation ("Investments"), and Flexitallic L.P., a Texas limited partnership ("Flexitallic US"; each of Investments and Flexitallic US being a "Borrower," and collectively, the "Borrowers"), Lender, and the other Loan Parties signatory thereto are parties to that certain Loan and Security Agreement of even date herewith (as the same may from time to time be amended, supplemented, or otherwise modified, the "Loan Agreement"), pursuant to which Lender has agreed, among other things, to make the Loans to Borrowers for the direct or indirect benefit of Borrowers and the other Loan Parties upon the terms and conditions set forth therein.

B. Each Grantor is either a Borrower or a Loan Party under the Loan Agreement and has Obligations to Lender under either the Loan Agreement or the Loan Party Guaranty, as well as under the other Loan Documents to which such Borrower or Loan Party is a party.

C. Each Grantor will derive substantial direct and indirect economic benefit if Lender enters into the Loan Agreement, and Lender is willing to do so, but only upon the condition, among others, that each Grantor shall have executed and delivered to Lender this Intellectual Property Security Agreement.

NOW, THEREFORE, in consideration of the premises and the covenants hereinafter contained, the receipt and adequacy of which are hereby acknowledged, and to induce Lender to enter into the Loan Agreement, it is agreed as follows:

1. DEFINED TERMS; CERTAIN MATTERS OF CONSTRUCTION. Unless otherwise set forth herein, (a) capitalized terms or matters of construction defined or established in the Loan Agreement shall be applied herein as defined or established therein, and (b) any reference to a "Section" shall refer to the relevant section of this Intellectual Property Security Agreement.

2. GRANT OF SECURITY INTEREST IN INTELLECTUAL PROPERTY COLLATERAL. To secure the complete and timely payment of all the Obligations of such Grantor now or hereafter existing from time to time, each Grantor hereby pledges and grants to Lender a continuing first priority security interest in all of such Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired (collectively, the "Intellectual Property Collateral"):

(a) all of its patents and patent licenses to which it is a party, including those referred to on Schedule I hereto;

(b) all of its trademarks and trademark licenses to which it is a party, including those referred to on Schedule I hereto;

(c) all of its copyrights and copyright licenses to which it is a party, including those referred to on Schedule I hereto;

(d) all reissues, continuations or extensions of the foregoing;

(e) all goodwill of the business connected with the use of, and symbolized by, each patent, each patent license, each trademark, each trademark license, each copyright and each copyright license; and

(f) all products and proceeds of the foregoing, including, without limitation, any claim by such Grantor against third parties for past, present or future (i) infringement or dilution of any patent or patent licensed under any patent license, (ii) injury to the goodwill associated with any patent or any patent licensed under any patent license, (iii) infringement or dilution of any trademark or trademark licensed under any trademark license, (iv) injury to the goodwill associated with any trademark or any trademark licensed under any trademark license, (v) infringement or dilution of any copyright or copyright licensed under any copyright license, and (vi) injury to the goodwill associated with any copyright or any copyright licensed under any copyright license.

3. **REPRESENTATIONS AND WARRANTIES.** Each Grantor represents and warrants that: (a) such Grantor does not have any interest in, or title to, any patent, trademark or copyright of any material value to the conduct of such Grantor's business except as set forth in Schedule I, hereto; and (b) this Intellectual Property Security Agreement is effective to create a valid and continuing Lien on all of such Grantor's patents, trademarks and copyrights and, upon the filing hereof with the United States Patent and Trademark Office and the United States Copyright Office and the filing of appropriate financing statements against such Grantor listed on Schedule 5.1(a) to the Loan Agreement, perfected security interests in favor of Lender in all of such Grantor's patents, trademarks and copyrights enforceable as such as against any and all creditors of, and purchasers from, such Grantor.

4. **COVENANTS.** Each Grantor covenants and agrees with Lender that from and after the date of this Intellectual Property Security Agreement and until the Termination Date:

(a) Such Grantor shall notify Lender immediately if it knows or has reason to know that any application or registration relating to any patent, trademark or copyright (now or hereafter existing) may become abandoned or dedicated, or of any adverse determination or development (including the institution of, or any such determination or development in, any proceeding in the United States Patent and Trademark Office, the United States Copyright Office or any court) regarding such Grantor's ownership of any patent, trademark or copyright, its right to register the same, or to keep and maintain the same, in each case, other than any such patent, trademark or patent that such Pledgor determines has no material value to the conduct of such Grantor's business.

(b) In no event shall such Grantor, either directly or through any agent, employee, licensee or designee, file an application for the registration of any patent, trademark or copyright with the United States Patent and Trademark Office, the United States Copyright Office or any similar office or agency without giving Lender written notice thereof within a reasonable time after such filing, and, upon request of Lender, such Grantor shall execute and deliver a supplement hereto (in form and substance satisfactory to Lender) to evidence Lender's Lien on such patent, trademark or copyright, and the general intangibles of such Grantor relating thereto or represented thereby.

(c) Such Grantor shall take all actions necessary or reasonably requested by Lender to maintain and pursue each application, to obtain the relevant registration and to maintain the registration of each of the patents or trademarks (now or hereafter existing), including the filing of applications for renewal, affidavits of use, affidavits of noncontestability and opposition and interference and cancellation proceedings.

(d) In the event that any of the Intellectual Property Collateral is infringed upon, or misappropriated or diluted by a third party, except for such infringement, misappropriation or dilution which could not reasonably be expected to have a Material Adverse Effect, such Grantor shall notify Lender promptly after such Grantor learns thereof. Such Grantor shall, unless it shall reasonably determine that such Intellectual Property Collateral is in no way material to the conduct of its business or operations or the cost of proceedings would likely outweigh the benefits, promptly sue for infringement, misappropriation or dilution and to recover any and all damages for such infringement, misappropriation or dilution, and shall take such other actions as Lender shall reasonably deem appropriate under the circumstances to protect such Intellectual Property Collateral.

5. SECURITY AGREEMENT. The security interests granted pursuant to this Intellectual Property Security Agreement are granted in conjunction with the security interests granted to Lender pursuant to the Loan Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of Lender with respect to the security interest in the Intellectual Property Collateral made and granted hereby are more fully set forth in the Loan Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

6. REINSTATEMENT. This Intellectual Property Security Agreement shall remain in full force and effect and continue to be effective should any petition be filed by or against any Grantor for liquidation or reorganization, should any Grantor become insolvent or make an assignment for the benefit of any creditor or creditors or should a receiver or trustee be appointed for all or any significant part of any Grantor's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

7. NOTICES. Whenever it is provided herein that any notice, demand, request, consent, approval, declaration or other communication shall or may be given to or served upon any of the parties by any other party, or whenever any of the parties desires to give and serve upon any other party any communication with respect to this Intellectual Property Security Agreement, each such notice, demand, request, consent, approval, declaration or other communication shall be delivered in accordance with the provisions of Section 11.1 of the Loan Agreement.

8. TERMINATION OF THIS SECURITY AGREEMENT. Subject to Section 6 hereof, this Intellectual Property Security Agreement shall terminate upon the Termination Date.
