At Fannie Mae, we embrace the use of technology as a means of meeting our mission to increase opportunities for homeownership and affordable rental housing. We want to be the online secondary market partner of choice of for-profit and not-for-profit lenders serving the populations targeted under our American Dream Commitment. We are achieving this goal by giving lenders access to automated mortgage origination and underwriting and providing innovative ebusiness technology solutions and mortgage products that help our lending partners make mortgage credit easier to access and more affordable for consumers.

Desktop Originator<sup>®</sup> is Fannie Mae's state-of-the-art technology tool tailored to wholesale lending that helps Fannie Mae lenders and their sponsored originators enhance their customer service and help more home-buying consumers achieve the dream of homeownership. Desktop Originator<sup>®</sup> on the Web, accessible on [www.afanniemae.com](http://www.afanniemae.com), enables operations 24 hours a day, 7 days a week, so lenders and their originators can meet borrowers' needs anywhere, anytime. It provides an even easier-to-use Web-based version of this proven application and is available through a number of sponsoring lenders. With Desktop Originator on the Web, sponsored originators can give borrowers a Desktop Underwriter loan recommendation in minutes at the point of sale, providing an enormously valuable service to borrowers who may be anxiously waiting to hear whether they qualify to proceed with their home purchase.

Desktop Underwriter<sup>®</sup> is a powerful automated underwriting system that greatly reduces the time, cost, and subjectivity associated with mortgage loan underwriting. Its powerful knowledge base and quantitative risk analysis capabilities assess the level of credit risk associated with a loan and quickly determine the flexibilities that can be leveraged—enabling lenders to qualify borrowers who previously might not have been approved. Fannie Mae lenders can use Desktop Underwriter to meet the needs of mass potential home buyers with a wide range of financing options that includes custom-tailored underwriting flexibilities and an expanded line of mortgage products. Desktop Underwriter<sup>®</sup> on the Web, accessible on [www.afanniemae.com](http://www.afanniemae.com), provides Fannie Mae lenders with an even easier-to-use Web-based version of the application that can help them offer borrowers improved customer service with less cumbersome documentation requirements, more streamlined property valuation features, and fast, objective loan recommendations.
