## TRADEMARK ASSIGNMENT

THIS TRADEMARK ASSIGNMENT (this "*Assignment*") dated as of May 6, 2003 (the "*Effective Date*"), is made by and between BETHLEHEM STEEL CORPORATION, a Delaware corporation ("*Assignor*"), and ISG TECHNOLOGIES INC., a Delaware corporation ("*Assignee*").

WHEREAS, Assignor and ISG Acquisition Inc., a Delaware corporation ("*Buyer*") are parties to that certain Asset Purchase Agreement, dated as of March 12, 2003 (the "*Purchase Agreement*"), pursuant to which Assignor has agreed to sell and Buyer has agreed to purchase the "Acquired Assets" as defined in the Purchase Agreement;

WHEREAS, Assignor is the owner of the entire right, title and interest in, to and under the United States and foreign trademark registrations and applications for registration of trademarks identified and set forth on Schedule A or that otherwise constitute "Acquired Assets" under the Purchase Agreement (all of the foregoing collectively, the "*Trademarks*") and the goodwill associated with all of the foregoing; and

WHEREAS, pursuant to the Purchase Agreement, the Trademarks and their associated goodwill are to be assigned to Assignee at Buyer's request and direction.

NOW, THEREFORE, for good and valuable consideration (including the premises and covenants set forth in the Purchase Agreement), the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

Assignor hereby sells, assigns, transfers and sets over to Assignee all of Assignor's right, title and interest in and to the Trademarks, together with the goodwill of the business in connection with which the Trademarks are used, and all registrations and applications therefor in the United States and for all foreign countries, including any renewals and extensions of the registrations that are or may be secured under the laws of the United States and all foreign countries, now or hereafter in effect, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made, together with all income, royalties or payments due or payable as of the Effective Date or thereafter, including, without limitation, all claims for damages by reason of past, present or future infringement or other unauthorized use of the Trademarks, with the right to sue for and collect the same for Assignee's own use and enjoyment and for the use and enjoyment of its successors, assigns or other legal representatives.

Assignor authorizes and requests the United States Commissioner of Patents and Trademarks and any other similar government authority to record Assignee as the assignee and owner of the Trademarks, and issue any and all registrations thereon to Assignee, as assignee of the entire right, title and interest in, to and under the same, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives.

Assignor shall provide to Assignee, its successors, assigns or other legal representatives, cooperation and assistance at Assignee's request and expense (including, without limitation, the

execution and delivery of any and all affidavits, declarations, oaths, samples, exhibits, specimens and other documentation as may be reasonably required) in connection with: (1) preparation and prosecution of any application for registration or renewal of a registration covering any of the Trademarks; (2) prosecution or defense of any interference, opposition, infringement or other proceedings that may arise in connection with any of the Trademarks, including, without limitation, testifying as to any facts relating to the Trademarks assigned herein and this Assignment; (3) obtaining any additional trademark protection for the Trademarks that Assignee reasonably may deem appropriate that may be secured under the laws now or hereafter in effect in the United States or for all foreign countries; and (4) implementation or perfection of this Assignment.

Assignor hereby specifically incorporates by reference all of the representations, warranties and indemnifications, subject to all of the conditions and limitations, applicable to the Trademarks in the Purchase Agreement.

This Assignment may be executed in counterparts, each of which shall be deemed to be an original, and all of which together shall constitute one and the same instrument.

**REQUEST FOR CORRECTED CERTIFICATE DUE TO REGISTRANT'S  
ERROR**

Bethlehem Steel Corporation, a Delaware corporation, whose principal place of business is at 1170 Eighth Avenue, Bethlehem, PA 18016-7699

Sir:

The above-identified Registrant hereby states that the certificate of registration for this mark contains an error which occurred in good faith and through the fault of Registrant, and therefore requests issuance of a Certificate of Correction pursuant to Section 7(h) of the Act of July 5, 1946.

Applicant/Registrant should be identified as "Bethlehem Steel Corporation, a Delaware corporation," rather than "Bethlehem Steel Subsidiary Railroad Companies, a Delaware corporation." To the best of applicant/registrant's knowledge, there is not now and never has been a Delaware corporation bearing the name of "Bethlehem Steel Subsidiary Railroad Companies" or any name similar thereto other than Bethlehem Steel Corporation.

The original certificate of registration is here enclosed for endorsement of correction.

The fee of \$100.00 should be charged to Deposit Account 02-2225.

I, Jay L. Lazar, hereby declare that I am General Attorney and Patent Counsel of registrant corporation and am authorized to make this declaration on its behalf. The error has come to light as a result of a thorough examination of Bethlehem Steel Corporation's business records and assets for purposes of asset sale. The registration is in fact one of several that were made at the same time for use in connection with subsidiary short line railroads owned and operated by

Bethlehem Steel Corporation. It appears that the Patent Agent then employed by Bethlehem Steel Corporation who submitted the application for the mark and who has since retired inadvertently used the term "Subsidiary Railroad Companies" instead of "Corporation" when submitting the application on account of the nature of the manner in which the mark is used. The file history shows that some of the documents submitted by the Patent Agent in the application used the term Bethlehem Steel Corporation in some places. The file history further shows that the address shown for the Applicant Registrant is the same as the address for Bethlehem Steel Corporation. Finally, the certificate of registration as corrected would continue to include in the registrant's name the words "Bethlehem Steel," which are the important substantive and identifying elements in the registrant's name. I declare further that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true and that these statements were made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and that such statements may jeopardize the validity of this document and the registration to which it relates.

Bethlehem Steel Corporation, a Delaware corporation, whose principal place of business is at 1170 Eighth Avenue, Bethlehem, PA 18016-7699

Sir:

The above-identified Registrant hereby states that the certificate of registration for this mark contains an error which occurred in good faith and through the fault of Registrant, and therefore requests issuance of a Certificate of Correction pursuant to Section 7(h) of the Act of July 5, 1946.

Applicant/Registrant should be identified as "Bethlehem Steel Corporation, a Delaware corporation," rather than "Bethlehem Steel Subsidiary Railroad Companies, a Delaware corporation." To the best of applicant/registrant's knowledge, there is not now and never has been a Delaware corporation bearing the name of "Bethlehem Steel Subsidiary Railroad Companies" or any name similar thereto other than Bethlehem Steel Corporation.

The original certificate of registration is here enclosed for endorsement of correction.

The fee of \$100.00 should be charged to Deposit Account 02-2225.

I, Jay L. Lazar, hereby declare that I am General Attorney and Patent Counsel of registrant corporation and am authorized to make this declaration on its behalf. The error has come to light as a result of a thorough examination of Bethlehem Steel Corporation's business records and assets for purposes of asset sale. The registration is in fact one of several that were made at the same time for

use in connection with subsidiary short line railroads owned and operated by Bethlehem Steel Corporation. It appears that the Patent Agent then employed by Bethlehem Steel Corporation who submitted the application for the mark and who has since retired inadvertently used the term "Subsidiary Railroad Companies" instead of "Corporation" when submitting the application on account of the nature of the manner in which the mark is used. The file history shows that some of the documents submitted by the Patent Agent in the application used the term Bethlehem Steel Corporation in some places. The file history further shows that the address shown for the Applicant Registrant is the same as the address for Bethlehem Steel Corporation. Finally, the certificate of registration as corrected would continue to include in the registrant's name the words "Bethlehem Steel," which are the important substantive and identifying elements in the registrant's name. I declare further that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true and that these statements were made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and that such statements may jeopardize the validity of this document and the registration to which it relates.
