(a) all of the Patents, Trademarks and Licenses are subsisting and have not been adjudged invalid or unenforceable, in whole or in part, and are not at this time the subject of any challenge to their validity or enforceability;

(b) to the best of Debtors' knowledge, each of the Patents, Trademarks and Licenses is valid and enforceable;

(c) no claim has been made that the use of any of the Patents, Trademarks or Licenses does or may violate the rights of any third Person;

(d) no claims for patent infringement have been commenced in connection with any of the Patents;

(e) no claims for trademark infringement have been commenced in connection with any of the Trademarks;

(f) each Debtor is the sole and exclusive owner of the entire and unencumbered right, title and interest in and to each of the applicable Patents, Trademarks and Licenses, free and clear of any and all Liens, charges and encumbrances, including, without limitation, any and all pledges, assignments, licenses, registered user agreements, shop rights and covenants by any Debtor not to sue third Persons, excluding (i) Liens permitted under the Credit Agreement, (ii) Patents, Trademarks and Licenses that are jointly owned or jointly developed with other Persons, and (iii) Patents, Trademarks and Licenses that are sold or licensed as permitted under Section 10.28 of the Credit Agreement;

(g) each Debtor has the unqualified right to enter into this Agreement and perform its terms;

(h) Debtors have used, and will continue to use for the duration of this Agreement, proper statutory notice in connection with its use of the registered Patents and Trademarks;

(i) each Debtor has the exclusive, royalty-free right and license to use the applicable Patents, Trademarks and Licenses except with respect to Patents, Trademarks and Licenses that are jointly owned or jointly developed with other Persons, and agrees not to transfer any rights or interest in any of the Patents, Trademarks and/or Licenses during the term of this Agreement, except as permitted under the terms of the Credit Agreement; and

(j) no Debtor has notice of any suits or actions commenced or threatened with reference to any of the Patents, Trademarks and/or Licenses.

3. Inspection Rights; Product Quality. Each Debtor will permit a reasonable inspection by Agent or its representatives of such Debtor's facilities which manufacture, inspect or store products sold under any of the Patents, Trademarks and/or Licenses and a reasonable inspection of the products and records relating thereto by the Agent and each Lender during normal business hours on three days' prior written notice thereof from Agent (or at any time without notice if an Event of Default exists). Debtors will jointly and severally reimburse the Agent and each Lender upon demand for all reasonable costs and expenses incurred by Agent or any Lender in connection with any such inspection conducted by the Agent or any Lender while any Event of Default under the Credit Agreement has occurred and is continuing. A representative of Debtors may be present during any such inspection, provided that a particular representative's availability or unavailability shall not inhibit or delay such inspection. Each Debtor agrees (a) to maintain or cause to be maintained the quality of any and all products in connection with which the Trademarks are used, consistent with commercially reasonable practices and (b) to provide the Agent, upon the Agent's reasonable request from time to time, with a certificate of any officer of such Debtor certifying such Debtor's compliance with the foregoing.

4. Further Assurances. Each Debtor hereby agrees that, unless and until (a) all of the Secured Obligations shall have been paid in full, (b) no Lender shall have any further commitment or obligation to make any loans or advances or other extensions of credit to Borrowers under the Credit Agreement or any of the other Loan Documents, and (c) the Credit Agreement has expired or been terminated in accordance with its terms, it will not, without the prior written consent of the Required Banks, enter into any agreement (for example, a license or sublicense agreement) which is inconsistent with such Debtor's obligations under this Agreement, the Credit Agreement or any of the other Loan Documents, and each Debtor agrees that it will not take any action or permit any action to be taken by others subject to its control, including licensees, or fail to take any action which would affect the validity or enforcement of the rights transferred to the Agent under this Agreement. Each Debtor further agrees that at any time and from time to time after the occurrence of an Event of Default, at the expense of such Debtor, such Debtor will promptly execute and deliver to the Agent any and all further instruments and documents and take any and all further action that the Agent or any Lender may reasonably request in good faith in order to perfect and protect the security interest granted hereby with respect to the Patents, Trademarks and Licenses or to enable the Agent to exercise its rights and remedies under this Agreement with respect to the same.

5. Additional Patents, Trademarks and Licenses. If any Debtor (a) becomes aware of any existing Patents, Trademarks or Licenses of which Debtor has not previously informed the Agent, (b) obtains rights to any new patentable inventions, Patents, Trademarks and/or Licenses or (c) becomes entitled to the benefit of any Patents, Trademarks and/or Licenses which benefit is not in existence on the date of this Agreement, the provisions of this Agreement shall automatically apply thereto and such Debtor shall, upon the request of Agent, give the Agent prompt written notice thereof.

6. Modification by Agent. Debtors hereby irrevocably authorize the Agent to modify this Agreement by amending Schedules A, B and/or C to include any future Patents, any future Trademarks, and any future Licenses, covered by Paragraphs 1 and 5 hereof, without the signature of Debtor if permitted by applicable law and provided Debtors are given a copy thereof.

7. Use of Patents, Trademarks and Licenses. So long as no Event of Default under the Credit Agreement has occurred and is continuing, each Debtor may use the Patents and Trademarks and exercise its rights under the Licenses in any lawful manner not inconsistent with this Agreement or the Credit Agreement.

8. Default. While any Event of Default shall have occurred and is continuing, the Agent shall have, in addition to all other rights and remedies given it by this Agreement, those allowed by law and the rights and remedies of a secured party under the Uniform Commercial Code and/or other applicable law as enacted in any jurisdiction in which any of the Patents, Trademarks and/or Licenses may be located and, without limiting the generality of the foregoing, the Agent may immediately, without demand of performance and without other notice (except as set forth next below) or demand whatsoever to Debtors, all of which are hereby expressly waived, and without advertisement, sell at public or private sale or otherwise realize upon, all or from time to time any of the Patents, Trademarks (together with the goodwill of Debtors associated therewith) and/or Licenses, or any interest which any Debtor may have therein, and after deducting from the proceeds of sale or other disposition of the Patents, Trademarks or Licenses all expenses (including, without limitation, all reasonable expenses for brokers' fees and Attorney Costs), shall apply the residue of such proceeds toward the payment of the Secured Obligations in such order and manner as provided in the Loan Parties' Security Agreement. Notice of any sale or other disposition of any of the Patents, Trademarks and/or Licenses shall be given to Debtors at least twenty (20) days before the time of any intended public or private sale or other disposition of such Patents, Trademarks and/or Licenses is to be made, which each Debtor hereby agrees shall be reasonable notice of such sale or other disposition. At any such sale or other disposition, the Agent or any holder of any of the Secured Obligations may, to the extent permissible under applicable law, purchase the whole or any part of the Patents, Trademarks and/or Licenses sold, free from any right of redemption on the part of any Debtor, which right is hereby waived and released. Each Debtor agrees that upon the occurrence and continuance of any Event of Default, the use by the Agent and/or any Lender of the Patents, Trademarks and Licenses shall be worldwide, and without any liability for royalties or other related charges from the Agent and/or any Lender to Debtor. If an Event of Default under the Credit Agreement shall occur and be continuing, the Agent shall have the right, but shall in no way be obligated, to bring suit in its own name (for the benefit of itself and the Lenders, as

applicable) to enforce any and all of the Patents, Trademarks and Licenses, and, if the Agent shall commence any such suit, each Debtor shall, at the request of the Agent, do any and all lawful acts and execute any and all proper documents reasonably required by the Agent in aid of such enforcement and such Debtor shall promptly, upon demand, reimburse and indemnify the Agent for all Attorney costs and other reasonable costs and expenses incurred by the Agent in the exercise of its rights under this Agreement. All of the Agent's rights and remedies with respect to the Patents, Trademarks and Licenses, whether established hereby, by the Security Agreement or by any other agreement or by law shall be cumulative and may be exercised singularly or concurrently.

9. Termination of Agreement. At such time as (a) SENCO shall have indefeasibly paid all of the Secured Obligations in full, and (b) the Credit Agreement shall have expired or been terminated in accordance with its terms, this Agreement shall terminate and the Agent shall execute and deliver to Debtors all instruments as may be necessary or proper to extinguish the Agent's security interest in and lien on the Patents, Trademarks and Licenses, subject to any disposition thereof which may have been made by the Agent pursuant to this Agreement. If claim is ever made on the Agent or any Lender for repayment or recovery of any amount or amounts received by the Agent or any Lender in payment or on account of any of the Secured Obligations (including payment under a guaranty or from application of collateral) and the Agent or any Lender repays all or part of said amount by reason of (a) any judgment, decree or order of any court or administrative body having jurisdiction over the Agent or any Lender or any property of the Agent or any Lender or (b) any settlement or compromise of any such claim effected in good faith by the Agent or any Lender with any such claimant (including, without limitation, any Debtor), then and in such event each Debtor agrees that any such judgment, decree, order, settlement or compromise shall be binding on such Debtor, notwithstanding any cancellation of any note or other instrument or agreement evidencing such Secured Obligations or of this Agreement, and this Agreement shall continue to be effective or be reinstated, as the case may be, and shall secure the payment of the amount so repaid or recovered to the same extent as if such amount had never originally been received by the Agent or any Lender. This Agreement shall continue to be effective or be reinstated, as the case may be, if (a) at any time any payment of any of the Secured Obligations is rescinded or must otherwise be returned by the Agent or any Lender upon the insolvency, bankruptcy or reorganization of any Debtor or otherwise, all as though such payment had not been made or (b) this Agreement is released in consideration of a payment of money or transfer of property or grant of a security interest by any Debtor or any other person or entity and such payment, transfer or grant is rescinded or must otherwise be returned by the Agent or any Lender upon the insolvency, bankruptcy or reorganization of such person or entity or otherwise, all as though such payment, transfer or grant had not been made.

10. Expenses. Any and all reasonable fees, costs and expenses of whatever kind or nature, including, without limitation, Attorney Costs incurred by the Agent in connection with the preparation of this Agreement and all other documents relating hereto and the consummation of this transaction, the filing or recording of any documents (including all taxes in connection therewith) in public offices, the payment or discharge of any taxes, counsel fees, maintenance fees, encumbrances or other amounts in connection with protecting, maintaining or preserving the Patents, Trademarks and/or Licenses in accordance with this Agreement, or in defending or

prosecuting any actions or proceedings arising out of or related to the Patents, Trademarks and/or Licenses, shall be borne and paid by Debtors on demand by the Agent and until so paid shall be added to the principal amount of the Secured Obligations and shall bear interest at a rate per annum equal to the lesser of the Default Rate or the highest rate of interest allowed by law from the date incurred until reimbursed by Debtors.

11. Preservation of Patents, Trademarks and Licenses. Debtors shall have the duty to preserve and maintain all rights in the Patents, Trademarks and Licenses, as commercially reasonable, subject to Debtors rights with respect thereto under the Credit Agreement, and, upon and during the continuance of an Event of Default at the request of Agent, to (a) file and prosecute diligently any patent, trademark or service mark applications pending as of the date hereof or hereafter, as is commercially reasonable, and (b) make application on unpatented but patentable inventions and on trademarks and service marks, as commercially reasonable. Any expenses incurred in connection with Debtors' obligations under this Section 11 shall be borne by Debtors.

12. Agent Appointed Attorney-In-Fact. If any Event of Default under the Credit Agreement shall have occurred and be continuing, Debtors hereby authorize and empower the Agent to make, constitute and appoint any officer or agent of the Agent as the Agent may select, in its reasonable discretion, as such Debtor's true and lawful agent and attorney-in-fact, with the power to endorse the applicable Debtor's name on all applications, documents, papers and instruments necessary for the Agent to use the Patents, Trademarks and Licenses, or to grant or issue any exclusive or non-exclusive license under the Patents, Trademarks and Licenses to anyone else, or necessary for the Agent to assign, pledge, convey or otherwise transfer title to or dispose of the Patents, Trademarks and Licenses to anyone else. Debtors hereby ratify all that such agent or attorney shall lawfully do or cause to be done by virtue hereof. This power of attorney is coupled with an interest and shall be irrevocable for the duration of this Agreement.

13. No Waiver. No course of dealing between Debtors and the Agent, nor any failure to exercise, nor any delay in exercising, on the part of the Agent, any right, power or privilege under this Agreement shall operate as a waiver thereof; nor shall any single or partial exercise of any right, power or privilege under this Agreement preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

14. Severability. The provisions of this Agreement are severable, and if any clause or provision shall be held invalid or unenforceable in whole or in part in any jurisdiction, then such invalidity or unenforceability shall affect only such clause or provision, or part thereof, in such jurisdiction, and shall not in any manner affect such clause or provision in any other jurisdiction, or any other clause or provision of this Agreement in any jurisdiction.

15. Amendments. This Agreement is subject to amendment or modification only by a writing signed by Debtors and the Agent and consented to by the Required Banks, except as provided in Paragraph 6 above. To the extent of any inconsistencies between this Agreement and the Credit Agreement, the terms of the Credit Agreement shall control. To the extent of any inconsistencies between the terms of this Agreement and the terms of the Security Agreement as they relate to Patents, Trademarks and Licenses, the terms of this Agreement shall control.

16. Successors and Assigns. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns, except that Debtors may not assign or delegate any of their rights or obligations under this Agreement.

17. Governing Law. The validity and interpretation of this Agreement and the rights and obligations of the parties hereto shall be governed by and construed in accordance with the substantive laws of the State of Ohio (without reference to conflict of law principles).

IN WITNESS WHEREOF, Debtors and the Agent have executed this Patent, Trademark and License Security Agreement as of the date first written above.
