WHEREAS, Assignors and Assignee are parties to that certain Asset Purchase Agreement dated as of January 23, 2004 (as amended, the "Asset Purchase Agreement"), pursuant to which Assignors have agreed to sell and Assignee has agreed to purchase the Acquired Assets in accordance with the Asset Purchase Agreement; and

WHEREAS, Assignee wishes to acquire and Assignors wish to assign all of their respective right, title and interest in and to the following intellectual property, with each such Assignor assigning the intellectual property with which it is identified as set forth on the attached Schedules: (i) those United States patents and patent applications identified and set forth on Schedule A and the non-United States patents and patent applications identified and set forth on Schedule B (collectively, the "Patents"); (ii) those United States trademark registrations and trademark applications identified and set forth on Schedule C, and the non-United States trademark registrations and trademark applications identified and set forth on Schedule D, in each case, together with all of the goodwill associated therewith (collectively, the "Trademarks"); (iii) those United States copyrights identified and set forth in Schedule E (the "Copyrights"), and (iv) those domain name registrations identified and set forth on Schedule F (the "Domain Names").

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

Each Assignor does hereby sell, assign, transfer, convey and set over to Assignee, all of such Assignor's right, title and interest in and to (i) the Patents, all inventions claimed or disclosed therein, all reissues, reexaminations, continuations, extensions, divisions, supplemental protections thereof and all U.S. and foreign applications and patents or registrations relating thereto; (ii) the Trademarks, together with all extensions and renewals thereof, and all common law rights thereto; (iii) the Copyrights, together with all extensions, reversions and renewals thereof; and (iv) the Domain Names, for Assignee's use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made; together, with respect to the foregoing, with all income, royalties, damages or payments due or payable as of the effective date of this Assignment and thereafter, including, without limitation, all claims for damages and other relief by reason of past, present or future infringement, dilution, violation, misuse or other unauthorized use of the Patents, Trademarks, Copyrights and Domain Names, with all rights to sue for, and collect the same for Assignee's use

and enjoyment, and for the use and enjoyment of Assignee's successors, assigns, or other legal representatives.

This Assignment shall not become effective unless and until the occurrence of the Final Escrow Closing (as such term is defined in the Closing Escrow Agreement). Should such Final Escrow Closing not occur, this Assignment shall not be, or ever become, valid or enforceable.

Assignors agree to perform such other acts and to execute, acknowledge and/or deliver subsequent to the Closing, such other instruments, documents and other materials which the Assignee, its successors or assigns, may deem proper for the collection or reduction to possession of any of the Patents, Trademarks, Copyrights and Domain Names assigned hereunder or for the collection and enforcement of any claim or right of any kind hereby intended to be sold, conveyed, transferred, assigned and delivered, or intended so to be.
