WHEREAS, pursuant to a certain Credit Agreement of even date herewith by and among Dynisco Enterprises, LLC, Dynisco LLC, Instruments, Extrusion and Polymer (each individually a "Borrower" and collectively, "Borrowers"), Agent, and the Lenders party thereto (as the same may hereafter be amended, supplemented or otherwise modified from time to time, the "Credit Agreement"), the Lenders have agreed to make certain loans and extend certain other financial accommodations to Borrowers;

WHEREAS, Beringer and DEI are Subsidiaries of Borrowers and have guaranteed the Obligations of Borrowers; and

WHEREAS, a certain Security Agreement of even date herewith among Agent, Debtors and certain affiliates of Debtors (the "Security Agreement") grants to Agent, for its own benefit and the benefit of the Lenders, a continuing security interest in, among other things, substantially all of each Debtor's assets, including, without limitation, its patents, patent rights and applications therefor, trademarks and applications therefore (other than "intent to use" applications until a verified statement of use or amendment to allege use is filed with respect to such applications), copyrights and all applications and registrations therefor, license rights and goodwill;

NOW, THEREFORE, in consideration of the premises set forth herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Debtor agrees as follows:

1. Incorporation of Security Agreement; Credit Agreement Definitions. The Security Agreement and the provisions thereof are hereby incorporated herein in their entirety by this reference thereto. Capitalized terms used but not defined herein shall have the respective meanings given thereto in the Credit Agreement.

2. Grant of Security Interest. To secure the complete and timely payment and satisfaction of the Obligations, each Debtor hereby grants to Agent, for its own benefit and on behalf of the Lenders, a continuing security interest in such Debtor's entire right, title and interest in and to all of its now owned or existing and hereafter acquired or arising:

(a) any patents and patent applications, including, without limitation, the inventions and improvements described and claimed therein, all patentable inventions, including, without limitation, the issued patents and patent applications listed on Schedule A attached hereto, and the reissues, divisions, continuations, renewals, extensions and continuations-in-part of any of the foregoing, and all income, royalties, damages and payments now or hereafter due and/or payable under or with respect to any of the foregoing, including, without limitation, damages and payments for past, present and future infringements of any of the foregoing and the right to sue for past, present and future infringements of any of the foregoing (collectively, the "Patents");

(c) any trademarks, trade names, corporate names, company names, business names, fictitious business names, trade styles, service marks, logos, other business identifiers, prints and labels on which any of the foregoing have appeared or appear, all registrations and recordings thereof, and all applications in connection therewith (other than "intent to use" applications until a verified statement of use or amendment to allege use is filed with respect to such applications), including, without limitation, the trademark registrations and applications listed in Schedule C attached hereto and renewals thereof, and all income, royalties, damages and payments now or hereafter due and/or payable under or with respect to any of the foregoing, including, without limitation, damages and payments for past, present and future infringements of any of the foregoing and the right to sue for past, present and future infringements of any of the foregoing (collectively, the "Trademarks"); and

In addition to, and not by way of limitation of, all other rights granted to Agent under this Agreement, each Debtor hereby assigns, transfers and conveys, effective upon notice from Agent to Debtor after the occurrence and during the continuance of any Event of Default, to Agent, for its own benefit and on behalf of the Lenders, all of the Patents, Copyrights and Trademarks, together with the rights and goodwill described in clause (d)
