## ASSIGNMENT OF TRADEMARK RIGHTS

This ASSIGNMENT OF TRADEMARK RIGHTS (the "Agreement") is entered into this 17 day of November, 2003 (the "Effective Date"), by and among SSH Communications Security Corp ("SSH Finland"), a corporation organized under the laws of the Republic of Finland, SSH Communications Security, Inc. ("SSH California"), a California corporation, and SFNT Finland Oy ("SFNT"), a corporation organized under the laws of the Republic of Finland. SSH Finland and SSH California are collectively and individually the "Assignor," and SFNT is the "Assignee." Each of Assignor and Assignee is a "party" to this Agreement and collectively, the "parties" to this Agreement.

WHEREAS, Assignor is the owner of the trademarks, service marks, and/or trade names and all applications therefore (collectively, "Trademarks") specified in Schedule A attached hereto and with respect to certain of the Trademarks has either (i) registered such Trademarks with the United States Patent and Trademark Office or (ii) filed registration applications with the United States Patent and Trademark Office or a corresponding foreign trademark office for such Trademarks (as identified in Schedule A);

WHEREAS, pursuant to that Asset Purchase Agreement dated as of October 14, 2003, Assignee is acquiring the entire business or portion thereof to which the Trademarks pertain;

WHEREAS; Assignee is desirous of acquiring the entire and exclusive right, title, and interest in and to the Trademarks; and

WHEREAS, Assignor is willing to assign to Assignee all rights, title, and interest in and to the Trademarks.

NOW, THEREFORE, for good and valuable consideration, the sufficiency of which is hereby acknowledged, each Assignor hereby assigns to Assignee all right, title, and interest anywhere in the world in and to the Trademarks, together with the goodwill of the business symbolized by the Trademarks, and the applications or registrations therefore as identified in Schedule A, and any and all intellectual property and design rights embodied therein whether statutory, at common law or otherwise. This assignment includes the right to sue and recover damages for past and future infringements of Assignor's rights in the Trademarks and to bring any proceeding in the United States Patent and Trademark Office or any equivalent agency in any other country for cancellation or opposition or other proceeding in connection with the Trademarks. The right, title, and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees that it will execute, verify, acknowledge, and deliver all such further papers, including any instruments of transfer and recordable assignments, and perform such other acts as Assignee lawfully may request from time to time, to perfect and vest title in the Trademarks in Assignee, or Assignee's successors and assigns.

This Agreement may be executed in one or more counterpart copies, and each of which so executed, irrespective of the date of execution and delivery, shall be deemed to

be an original, and all such counterparts, together shall constitute one and the same instrument.

This Agreement shall be binding on, and shall inure to the benefit of, the parties hereto and their respective successors and assigns.

Each party represents that it has taken all necessary action to authorize the execution and delivery of this Agreement.

The parties acknowledge and agree that this Agreement and the assignments provided for herein are made pursuant to the Asset Purchase Agreement referred to above, and are subject to the terms and conditions thereof. Nothing herein is intended to limit or expand the scope of the rights transferred to Assignee beyond those provided for in such Asset Purchase Agreement.

SSH COMMUNICATIONS SECURITY, INC.
