THIS PATENT AND TRADEMARK COLLATERAL ASSIGNMENT (this "Agreement"), dated as of September 29, 2004 is executed by **CPH INNOVATIONS CORP.**, a Delaware corporation (the "Grantor"), in favor of **LASALLE BANK NATIONAL ASSOCIATION** (the "Lender").

WITNESSETH:

WHEREAS, each of the CPH Borrowers and the Lender have entered into a separate Restated Credit Agreement dated as of the date hereof (as amended, modified, supplemented or restated from time to time collectively, the "Credit Agreements") pursuant to which the Lender has agreed to make certain Credit Extensions to or for the account of such CPH Borrowers;

WHEREAS, in connection with the Credit Agreements, the Grantor has executed and delivered a Security Agreement, dated as of the date hereof (together with all amendments and other modifications, if any, from time to time thereafter made thereto, the "Security Agreement"); and

SECTION 3. Credit Agreements. This Agreement has been executed and delivered by the Grantor for the purpose of registering the security interest of the Lender in the Trademark Property and Patent Property with the United States Patent and Trademark Office, or in any office or agency of the United States federal or state government, and corresponding offices in other countries of the world. The security interest granted hereby has been granted as a supplement to, and not in limitation of, the security interest granted to the Lender under the Security Agreement. The Credit Agreements, the Security Agreement and all other Collateral Documents (and all rights and remedies of the Lender thereunder) shall remain in full force and effect in accordance with their respective terms.

SECTION 4. No Further Trademark Registrations Without Security Interest on File. The Grantor hereby covenants that (a) it shall promptly, but no later than five days, after filing any additional Trademark or Patent applications with the United States Patent and Trademark Office, or in any office or agency of the United States federal or state government, it shall execute and file (at its expense) either a supplement substantially identical to this Agreement covering such application in the United States Patent and Trademark Office, or in any office or agency of the United States federal or state government, immediately after a serial number or other identifier has been assigned to such application or such other documents or instruments as the Lender shall have notified Grantor are necessary or appropriate, in each case, for the full perfection of a first priority security interest in favor of the Lender in such applications, such documents reflecting such security interests in favor of the Lender to be on file in any event in all requisite offices within three months after the filing by Grantor of any application.

SECTION 5. Release of Security Interest. Upon payment in full of all Liabilities and the termination of all Commitments of the Lender under the Credit Agreements, the Lender shall, at the Grantor's expense, execute and deliver to the Grantor all instruments and other documents as may be necessary or proper to release the lien on and security interest in the Trademark Property and Patent Property which has been granted hereunder.

SECTION 6. Acknowledgment. The Grantor does hereby further acknowledge and affirm that the rights and remedies of the Lender with respect to the security interest in the Trademark Property and Patent Property granted hereby are more fully set forth in the Security

Agreement, the terms and provisions of which (including the remedies provided for therein) are incorporated by reference herein as if fully set forth herein.

SECTION 7. Covenants. In addition to and not in limitation of the covenants and agreements contained in the Security Agreement, Grantor hereby covenants and agrees that it will not enter into any Trademark or Patent licenses or any other agreements that provide Grantor with the right to use Trademarks or patents after the date hereof which would restrict the ability of Grantor to grant a security interest in favor of the Lender therein unless it obtains the prior written consent of the Lender.

SECTION 8. Grant of License to Use Trademark and Patent Property. For the purpose of enabling the Lender to exercise rights and remedies under this Agreement, the Security Agreement, the Credit Agreements and all other Loan Documents, at such time as the Lender shall be lawfully entitled to exercise such rights and remedies, and as a supplement to and not in limitation of any and all rights and remedies available to the Lender, to the extent the Lender chooses to avail itself of the following, upon and subject to the occurrence and during the continuance of an Event of Default, the Grantor grants, to the extent not prohibited by applicable law or currently existing licenses granted in the ordinary course of business (unless and until appropriate consents have been obtained), to the Lender an irrevocable, non-exclusive license (exercisable without payment of royalty or other compensation to the Grantor) to use, license or sublicense any Trademark Property or Patent Property now owned or hereafter acquired by Grantor; provided, however, that to the extent such Trademark Property or Patent Property consists of Trademark or Patent licenses or other agreements that provide Grantor with the right to use Trademarks or patents the non-exclusive license granted hereby to the Lender shall be subject to the terms and conditions contained in such Trademark or Patent licenses or such other agreements.

SECTION 9. Loan Document. This Agreement is a Loan Document executed pursuant to the Credit Agreements and shall (unless otherwise expressly indicated herein) be construed, administered and applied in accordance with the terms and provisions thereof. The provisions of this Agreement are in addition to, and not intended to be a limitation of, the duties of Grantor and the rights of the Lender under the Credit Agreements or any of the other Loan Documents. To the extent there exists any conflict or ambiguity between the terms, covenants and conditions of this Agreement and any of the other Loan Documents, the terms, covenants and conditions which shall enlarge the rights and remedies of the Lender and the interest of the Lender in the Collateral, afford the Lender greater financial security in the Collateral and better assure payment of the Liabilities in full, shall control.

SECTION 10. Section Captions. Section captions used in this Agreement are for convenience of reference only, and shall not affect the construction of this Agreement.

SECTION 11. Severability. Wherever possible each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement shall be prohibited by or invalid under such law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Agreement.
