  - m. the execution, delivery and/or performance by Borrower of this Agreement shall not, by the lapse of time, the giving of notice or otherwise, constitute a violation of any applicable law or a breach of any provision contained in its Certificate of Incorporation or Bylaws, or contained in any agreement, instrument or document to which it is now a party or by which it is bound, and no consent, approval, license or authorization of any governmental bureau or agency or of any other person is required to be obtained in connection therewith.
4. COVENANTS. Borrower covenants and agrees with Lender that from and after the date of this Agreement:
- a. Borrower shall notify Lender immediately if it knows or has reason to know that any application or registration relating to any Patent or Trademark (now or hereafter existing) may become abandoned or dedicated, or of any adverse determination or development (including the institution of, or any such determination or development in, any proceeding in the PTO or any court) regarding Borrower's ownership of any Patent or Trademark, its right to register the same, or to keep and maintain the same, the effect of which will have a material adverse effect on Borrower's business operations or financial condition.
  - b. In no event shall Borrower, either directly or through any agent, employee, licensee or designee, file an application for the registration of any Patent or Trademark with the PTO or any similar office or agency without giving Lender prior written notice thereof, and, upon request of Lender, Borrower shall execute and deliver a supplement hereto (in form and substance satisfactory to Lender) to evidence Lender's lien on such Patent or Trademark, and the general intangibles of Borrower relating thereto or represented thereby.

15924.033/368588.2

- c. Borrower shall have the duty to prosecute diligently any patent or trademark applications pending as of the date of this Agreement, to preserve and maintain all rights in the trademarks, the registration of patents, trademarks and patent and trademark applications.
- d. In the event that any of the Collateral is infringed upon, or misappropriated or diluted by a third party, Borrower shall notify Lender promptly after Borrower learns thereof. Borrower shall, unless it shall reasonably determine that such Collateral is in no way material to the conduct of its business or operations, promptly sue for infringement misappropriation or dilution and to recover any and all damages for such infringement: misappropriation or dilution, and shall take such other actions as Lender shall deem appropriate under the circumstances to protect such Collateral.
5. SECURITY AGREEMENT. All of Lender's rights and remedies with respect to the Patents and Trademarks, whether established hereby or by the Loan Agreement or Security Agreement, or by any other agreement or by law shall be cumulative and may be exercised singularly or concurrently. Without limiting the foregoing, Borrower hereby acknowledges and affirms that this Agreement is executed in furtherance of, and supplementary to, the provisions in the Loan Agreement and Security Agreement, and that the rights and remedies of Lender with respect to the security interest in the Collateral made and granted hereby are more fully set forth in the Loan Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.
6. FURTHER ACTS. On a continuing basis, Borrower shall make, execute, acknowledge and deliver, and file and record in the proper filing and recording places, all such instruments and documents, and take all such action as may be necessary or advisable or may be requested by Lender to carry out the intent and purposes of this Agreement, or for assuring, confirming or protecting the grant or perfection of the security interest granted or purported to be granted hereby, to ensure Borrower's compliance with this Agreement or to enable Lender to exercise and enforce its rights and remedies hereunder with respect to the Collateral, including any documents for filing with the PTO or any applicable state office. The Lender may record this Agreement, an abstract thereof, or any other document describing the Lender's interest in the Collateral with the PTO, at the expense of Borrower. In addition, Borrower authorizes the Lender to file financing statements describing the Collateral in any UCC filing office deemed appropriate by the Lender. If the Borrower shall at any time hold or acquire a commercial tort claim arising with respect to the Collateral, the Borrower shall immediately notify the Lender in a writing signed by the Debtor of the brief details thereof and grant to the Lender in such writing a security interest therein and in the proceeds thereof, all upon the terms of this Agreement, with such writing to be in form and substance satisfactory to the Lender.
7. AUTHORIZATION TO SUPPLEMENT. If Borrower shall obtain rights to any new patents or trademarks, the provisions of this Agreement shall automatically apply thereto. Borrower shall give prompt notice in writing to the Lender with respect to any such new trademarks or renewal or extension of any trademark registration. Without limiting Borrower's obligations under this Section 7, Borrower authorizes the Lender unilaterally to modify this Agreement by amending the schedules hereto to include any such new trademark rights. Notwithstanding the foregoing, no failure to so modify this Agreement or amend such schedules shall in any

way affect, invalidate or detract from the Lender's continuing security interest in all Collateral, whether or not listed on such schedules.

8. SUPPLEMENT TO LOAN AGREEMENT AND SECURITY AGREEMENT. This Agreement has been entered into in conjunction with the security interests granted to Lender under the Security Agreement and the other Loan Documents. The rights and remedies of Lender with respect to the security interests granted herein are without prejudice to, and are in addition to those set forth in the Loan Agreement and the Security Agreement and the other Loan Documents, all of the terms and provisions of which are incorporated herein by reference.
9. REINSTATEMENT. This Agreement shall remain in full force and effect and continue to be effective should any petition be filed by or against Borrower for liquidation or reorganization, should Borrower become insolvent or make an assignment for the benefit of any creditor or creditors or should a receiver or trustee be appointed for all or any significant part of Borrower's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.
10. NOTICES. Any written notice required or permitted by this Agreement shall be delivered as provided in Section 80 of the Loan Agreement.
11. Counterparts. This Agreement may be executed in any number of separate counterparts by one or more of the parties hereto and all of the said counterparts taken together shall constitute one in the same instrument.
