NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor agrees as follows:

SECTION 1. Grant of Security. The Grantor hereby grants to the Collateral Agent, for the ratable benefit of the Agents and Lenders, a security interest in all of such Grantor's right, title and interest in and to the following (the "Additional Collateral"):

- (i) all patents and patent applications owned by the Grantor, including, without limitation, (i) all reissues, extensions, divisions, continuations, continuations-in-part, renewals and re-examinations thereof, (ii) utility models and statutory invention registrations, and (iii) all inventions and improvements claimed or disclosed therein, including the patents set forth in Schedule A hereto;
- (ii) all trademark and service mark registrations and applications owned by the Grantor (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together with all (i) renewals in connection therewith, (ii) goodwill associated therewith and (iii) common-law rights related thereto, including the trademark and service mark registrations and applications set forth in Schedule B hereto;
- (iii) all copyrights owned by the Grantor, whether registered or unregistered and whether for published or unpublished works, now owned or hereafter acquired by such Grantor, including, without limitation, (i) all registrations and applications therefor and (ii) all renewals thereof, including the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto;
- (iv) all rights, priorities and privileges relating to any of the foregoing, whether arising under United States, multinational or foreign laws or otherwise, and all rights (but not the obligation) to sue at law or in equity for any infringement or other impairment thereof; including the right to receive all proceeds and damages therefrom; and
- (v) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

SECTION 2. Supplement to Guarantee and Collateral Agreement. Schedule 6 to the Guarantee and Collateral Agreement is, effective as of the date hereof, hereby supplemented to add to such Schedule the Additional Collateral set forth in Schedules A, B, and C herein.

SECTION 3. Security for Obligations. The grant of a security interest in the Additional Collateral by the Grantor under this IP Security Agreement Supplement secures the payment of all Obligations of the Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or contingent, and whether for principal,

reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise.

SECTION 4. Recordation. The Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer to record this IP Security Agreement Supplement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement Supplement has been entered into in conjunction with the provisions of the Guarantee and Collateral Agreement. The Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Additional Collateral are more fully set forth in the Guarantee and Collateral Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.
