SECOND LIEN INTELLECTUAL PROPERTY SECURITY AGREEMENT

This SECOND LIEN INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, the "***Second Lien IP Security Agreement***") dated September 8, 2004, is made by the Persons listed on the signature pages hereof (collectively, the "***Grantors***") in favor of MORGAN STANLEY & CO. INCORPORATED ("***MSI***"), as second lien collateral agent (the "***Collateral Agent***") for the Holders of the Obligations (as defined in the Credit Agreement referred to below).

WHEREAS, HEADWATERS INCORPORATED, a Delaware corporation, has entered into a Second Lien Credit Agreement dated as of September 8, 2004 (as amended, amended and restated, supplemented or otherwise modified from time to time, the "***Credit Agreement***"), with among others, MORGAN STANLEY SENIOR FUNDING, INC., as Administrative Agent, MSI, as Collateral Agent, and the Lenders party thereto. Terms defined in the Credit Agreement and not otherwise defined herein are used herein as defined in the Credit Agreement.

WHEREAS, as a condition precedent to the making of Advances by the Lenders under the Credit Agreement, each Grantor has executed and delivered that certain Second Lien Pledge and Security Agreement dated September 8, 2004 made by the Grantors to the Collateral Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the "***Second Lien Security Agreement***").

WHEREAS, under the terms of the Second Lien Security Agreement, the Grantors have granted to the Collateral Agent, for the ratable benefit of the Holders of the Obligations, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed as a condition thereof to execute this Second Lien IP Security Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities.

WHEREAS, in order to secure the obligations under the First Lien Credit Agreement, each Grantor is concurrently granting to the First Lien Collateral Agent, for the benefit of the lenders party to the First Lien Credit Agreement, a first priority lien and security interest in the Collateral (as defined below), it being understood that the relative rights and priorities of the grantees under this Second Lien IP Security Agreement and under the First Lien Collateral Documents are governed by the Intercreditor Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Collateral Agent for the ratable benefit of the Holders of the Obligations a security interest in all of such Grantor's right, title and interest in and to the patents, trademarks (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that,

and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), copyrights and exclusive copyright licenses set forth in Schedule A hereto (the "**Collateral**").

Notwithstanding anything herein to the contrary, the lien and security interest granted to the Collateral Agent pursuant to this Second Lien IP Security Agreement and the exercise of any right or remedy by the Collateral Agent hereunder are subject to the provisions of the Intercreditor Agreement, dated as of September 8, 2004 (as amended, amended and restated, supplemented or otherwise modified from time to time, the "**Intercreditor Agreement**"), among Morgan Stanley & Co. Incorporated, as first lien collateral agent and as second lien collateral agent and Morgan Stanley Senior Funding, Inc. as first lien administrative agent and as second lien administrative agent, Headwaters Incorporated and certain other persons party or that may become party thereto from time to time. In the event of any conflict between the terms of the Intercreditor Agreement and this Second Lien IP Security Agreement, the terms of the Intercreditor Agreement shall govern and control.

SECTION 2. Security for Obligations. The grant of a security interest in, the Collateral by each Grantor under this Second Lien IP Security Agreement secures the payment of all Obligations of such Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Upon the termination of the pledge and security interest granted under the Second Lien Security Agreement in accordance with Section 7.4 of the Second Lien Security Agreement, the Collateral Agent shall execute, acknowledge, and deliver to the Grantor an instrument in writing releasing the security interests in Collateral acquired under this Second Lien IP Security Agreement.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this Second Lien IP Security Agreement.

SECTION 4. Execution in Counterparts. This Second Lien IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This Second Lien IP Security Agreement has been entered into in conjunction with the provisions of the Second Lien Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Collateral are more fully set forth in the Second Lien Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 6. Governing Law. This Second Lien IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

IN WITNESS WHEREOF, each Grantor has caused this Second Lien IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
