**INTELLECTUAL PROPERTY SECURITY AGREEMENT**

**THIS INTELLECTUAL PROPERTY SECURITY AGREEMENT**, dated as of March 30, 2005, by Iridian Technologies, Inc., a Delaware corporation (the "Grantor") to and in favor of Perseus 2000, L.L.C., a limited liability company (the "Agent"), as agent for the Purchasers identified in the Senior Secured Convertible Note Purchase Agreement (as from time to time amended, modified, restated, supplemented and in effect, the "Purchase Agreement") among the Grantor, the Guarantors, the Agent and the Purchasers party thereto and dated as of March 30, 2005 (in such capacity, the "Secured Party").

**WHEREAS**, pursuant to the Purchase Agreement, the Grantor has issued or will issue to the Purchasers in one or more Closings Senior Secured Convertible Promissory Notes (the "Notes");

**WHEREAS**, in order to induce the Purchasers to accept the Notes in accordance with the Purchase Agreement, and in consideration therefore, the Grantor has agreed to grant to the Secured Party, as agent for the Purchasers, a perfected Lien on and security interest in all of the Grantor's Intellectual Property Collateral, whether now or hereafter existing, owned or acquired, all pursuant to the terms of this Agreement and the Security Agreement, in order to secure the Obligations; and

**WHEREAS**, it is a condition precedent to the acceptance of the Notes by the Purchasers that the Grantor executes and delivers this Agreement.

**NOW, THEREFORE**, in consideration of the premises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor hereby agrees as follows:

1. **Defined Terms**. Capitalized terms used herein without definition shall be defined in the manner set forth in the Purchase Agreement or in the Security Agreement.
2. **Grant of Security Interest in Intellectual Property Collateral**. As security for the Obligations, the Grantor hereby assigns and pledges and grants to the Secured Party, and its successors and assigns, for the benefit of the Purchasers with respect to the Obligations, a continuing first priority security interest in all of the Grantor's right, title and interest in, to and under the Intellectual Property Collateral, whether presently existing or hereafter created or acquired. For purposes of this Agreement, the term "Intellectual Property Collateral" means collectively (a) all Copyrights, Copyright Licenses, Patents, Patent Licenses, Trademarks and Trademark Licenses, (b) all reissues, continuations, renewals or extensions of the foregoing (or the right to obtain all reissues, continuations, renewals or extensions of the foregoing), (c) all goodwill of the Grantor's business connected with the use of, and symbolized by, each Patent, each Patent License, each Trademark, each Trademark License, each Copyright and each Copyright License, (d) any and all trade secrets, shop rights, know-how or licenses to the same, and (e) all products and proceeds of the foregoing, including, without limitation, any claim by the Grantor against third parties for past, present or future (i) infringement or dilution of any Patent or Patent licensed under any Patent License, (ii) injury to the goodwill associated with any Patent or any Patent licensed under any Patent License, (iii) infringement or dilution of any Trademark or Trademark licensed under any Trademark License, (iv) injury to the goodwill associated with any Trademark or Trademark licensed under any Trademark License, (v)

infringement or dilution of any Copyright or any Copyright licensed under any Copyright License, (vi) any misappropriation of any trade secret and (vii) injury to the goodwill associated with any Copyright or any Copyright licensed under any Copyright License.

3. Representations and Warranties. The Grantor represents and warrants to the Secured Party on the date of the Initial Closing and on the date of any other Closing that the Grantor does not have any interest in, or title to, any Patent, Trademark or Copyright except as set forth in Schedule I, Schedule II and Schedule III, respectively, hereto. This Agreement is effective to create a valid and continuing Lien on and, upon the filing hereof with the United States Patent and Trademark Office together with payment of the appropriate filing fees, perfected security interests in favor of the Secured Party in all of the Grantor's Patents, Trademarks and Copyrights and such perfected security interests are enforceable as such as against any and all creditors of, and purchasers from, the Grantor. Upon filing of this Agreement with the United States Patent and Trademark Office and the filing of appropriate financing statements pursuant to the Security Agreement, together with payment of the appropriate filing fees, all action necessary or otherwise requested by the Secured Party to protect and perfect the Secured Party's Lien on the Grantors' Patents, Trademarks and Copyrights shall have been duly taken.

4. Covenants. The Grantor covenants and agrees with the Secured Party, on behalf of the Purchasers, that from and after the date of this Agreement and until payment and satisfaction in full of the Obligations, whether by conversion of the Notes or otherwise:

(a) The Grantor shall notify the Secured Party immediately if it knows or has reason to know that any application or registration relating to any Patent, Trademark or Copyright (now or hereafter existing) may become abandoned or dedicated to the public, of any misappropriation of any trade secret or of any adverse determination or development (including the institution of, or any such determination or development in, any proceeding in the United States Patent and Trademark Office, the United States Copyright Office or any court) regarding the Grantor's ownership of any Patent, Trademark or Copyright, its right to register the same, or to keep and maintain the same.

(b) In no event shall the Grantor, either directly or through any agent, employee, licensee or designee, file an application for the registration of any Patent, Trademark or Copyright with the United States Patent and Trademark Office, the United States Copyright Office or any similar office or agency without giving the Secured Party prior written notice thereof, and, upon request of the Secured Party, the Grantor shall execute and deliver a supplement hereto (in form and substance satisfactory to the Secured Party) to evidence the Secured Party's, on behalf of the Purchasers, Lien on such Patent, Trademark or Copyright, and the general intangibles of the Grantor relating thereto or represented thereby.

(c) The Grantor shall take all actions reasonably necessary or requested by the Secured Party to maintain and pursue each application, to obtain the relevant registration and to maintain the registration of each of the Patents, Trademarks or Copyrights (now or hereafter existing), including the filing of applications for renewal, affidavits of use, affidavits of noncontestability and opposition and interference and cancellation proceedings.

(d) In the event that any of the Intellectual Property Collateral is infringed upon, or misappropriated or diluted by a third party, the Grantor shall notify the Secured Party promptly after the Grantor learns thereof. The Grantor shall, unless it shall reasonably determine

that such Intellectual Property Collateral is in no way material to the conduct of its business or operations, promptly take such actions to enforce its rights and protect such Intellectual Property Collateral, whether by action, suit, proceeding or otherwise, as the Grantor shall deem necessary or appropriate under the circumstances in its reasonable business judgment or as the Secured Party may otherwise request.

5. Security Agreement. The security interests granted pursuant to this Agreement are granted in conjunction with the security interests granted to the Secured Party pursuant to the Security Agreement. The Grantor hereby acknowledges and affirms that the rights and remedies of the Secured Party with respect to the security interest in the Intellectual Property Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. Notwithstanding anything to the contrary contained herein, any demand, notice, instruction, request or other action to be taken hereunder by the Secured Party (including, without limitation, any waiver, modification, alteration or amendment of this Agreement) shall require the prior written consent of the Majority Purchasers. Each party hereto acknowledges that the provisions of Section 5.2 of the Security Agreement are incorporated by reference herein as if fully set forth herein.

6. Reinstatement. This Agreement shall remain in full force and effect and continue to be effective should any petition be filed by or against the Grantor for liquidation or reorganization, should the Grantor become insolvent or make an assignment for the benefit of any creditor or creditors or should a receiver or trustee be appointed for all or any significant part of the Grantor's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

7. Termination of this Agreement. Subject to Section 6 hereof, this Agreement shall terminate upon payment and satisfaction in full of the Obligations, whether by conversion of the Notes or otherwise.

8. Further Assurances. The Grantor agrees, at its expense, to do such further things, to execute, acknowledge, deliver and cause to be duly filed all such further instruments and documents and to take all such actions as the Secured Party may from time to time reasonably request for the preservation of the security interests and the rights and remedies created hereby, including but not limited to, the execution and delivery of such additional conveyances, assignments, agreements and instruments, the payment of any fees and taxes required in connection with the execution and delivery of this Agreement, the granting of the security interests created hereby and the execution, filing and recordation of any financing statements or other documents as the Secured Party may deem reasonably necessary or desirable for the perfection of the security interests granted hereunder. If any amount payable under or in connection with any of the Intellectual Property Collateral shall be or become evidenced by any

promissory note or other instrument, such note or instrument shall be immediately pledged and delivered to the Secured Party, duly endorsed in a manner satisfactory to the Secured Party. The Grantor agrees that, after the occurrence and during the continuance of an Event of Default, it shall upon request of the Secured Party, take any and all actions, to the extent permitted by applicable law, at its own expense, to obtain the approval of any governmental authority for any action or transaction contemplated by this Agreement that is then required by law, and specifically, without limitation, upon request of the Secured Party, to prepare, sign and file with any governmental authority any application or applications for consent to the assignment of licenses held by the Grantor, or for consent to the possession and sale of any of the Intellectual Property Collateral by or on behalf of the Secured Party.

9. Effectiveness. This Agreement shall take effect immediately upon execution by the Grantor.

10. Indemnity; Reimbursement of Secured Party; Deficiency. In connection with the Intellectual Property Collateral, this Agreement and the administration and enforcement or exercise of any right or remedy granted to the Secured Party hereunder, the Grantor agrees, subject to the limitations set forth hereafter (a) to indemnify, defend and hold harmless the Secured Party from and against any and all claims, demands, losses, judgments and liabilities (including, but not limited to, liabilities for penalties) of whatever nature, relating thereto or resulting therefrom, and (b) to reimburse the Secured Party for all reasonable costs and expenses, including, but not limited to, the reasonable fees and disbursements of attorneys, relating thereto or resulting therefrom. The foregoing indemnity agreement includes all reasonable costs incurred by the Secured Party in connection with any litigation relating to the Intellectual Property Collateral whether or not the Secured Party shall be a party to such litigation, including, but not limited to, the reasonable fees and disbursements of attorneys for the Secured Party, and any out-of-pocket costs incurred by the Secured Party in appearing as a witness or in otherwise complying with legal process served upon it. The obligations of the Grantor in this Section 10 are limited to the extent claims for indemnity, defense, or reimbursement do not arise from the willful misconduct of the Secured Party as proven in a final, non-appealable judgment by a court of competent jurisdiction. In no event shall the Secured Party be liable, in the absence of willful misconduct on its part (as proven in a final, non-appealable judgment by a court of competent jurisdiction), for any matter or thing in connection with this Agreement other than to account for moneys actually received by it in accordance with the terms of the Security Agreement, and the Grantor hereby releases the Secured Party from any and all claims, causes of action and demands at any time arising out of or with respect to this Agreement or the Intellectual Property Collateral. All indemnities contained in this Section 10 and elsewhere in this Agreement shall survive the expiration or earlier termination of this Agreement. After application of the proceeds by the Secured Party pursuant to Section 4.5 of the Security Agreement, the Grantor shall remain liable to the Secured Party for any deficiency.

11. Continuing Lien. It is the intent of the parties hereto that (a) this Agreement shall constitute a continuing agreement as to any and all future, as well as existing transactions, between or among the Grantor and the Secured Party under or in connection with

the Notes, and (b) the security interest provided for herein shall attach to after-acquired as well as existing Intellectual Property Collateral.

12. Termination. Upon payment and satisfaction in full of the Obligations, whether by conversion of the Notes or otherwise, the Secured Party shall reassign, redeliver and release (or cause to be so reassigned, redelivered and released), without recourse upon or warranty by the Secured Party, and at the sole expense of the Grantor, to the Grantor, against receipt therefore, such of the Intellectual Property Collateral (if any) as shall not have been sold or otherwise applied by the Secured Party pursuant to the terms hereof and not theretofore reassigned, redelivered and released to the Grantor, together with appropriate instruments of reassignment and release.

13. Notices. All notices required to be given hereunder shall be in writing and shall be given by personal delivery, facsimile transmission, nationally recognized overnight carrier (prepaid) or registered or certified mail, postage prepaid with return receipt requested. Notices shall be addressed, if to the Secured Party, to it at 2099 Pennsylvania Avenue, N.W., Washington, D.C. 20006, Facsimile No. (202) 429-0588, Attention: Kenneth M. Socha, and if to the Grantor, to it at 1245 N. Church Street, Suite 3, Moorestown, NJ 08057, Facsimile No. (856) 222-9020, Attention: President and CEO. Notices delivered personally shall be deemed given as of actual receipt, notices sent by facsimile transmission shall be deemed given as of one business day following receipt by the sender of written confirmation of transmission thereof, notices sent by overnight courier shall be deemed given as of one business day following sending and notices mailed shall be deemed given as of five business days after proper mailing. A party may change an address by written notice in accordance herewith.

14. Successors and Assigns. Whenever in this Agreement any of the parties hereto is referred to, such reference shall be deemed to include the successors and assigns of such party, and all covenants, promises and agreements by or on behalf of the Secured Party that are contained in this Agreement shall bind and inure to the benefit of its respective successors and assigns. The Grantor may not assign or transfer any of its rights or obligations hereunder without the prior written consent of the Secured Party.

15. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of New York, excluding, however, its choice of law rules.

16. Consent to Jurisdiction; Waiver of Jury Trial. The parties hereto irrevocably consent to the exclusive jurisdiction of the Federal and state courts, located in New York County, New York, in any suit or proceeding based on or arising under this Agreement and irrevocably agree that all claims in respect of such suit or proceeding shall be determined in such courts. The parties hereto irrevocably waive the defense of an inconvenient forum to the maintenance of such suit or proceeding. The parties hereby waive any and all rights to trial by jury in any action or proceeding to enforce or defend any rights under this Agreement.

17. Waivers. No failure or delay of the Secured Party in exercising any power or right hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any

such right or power, or any abandonment or discontinuance of steps to enforce such a right or power, preclude any other or future exercise thereof or the exercise of any other right or power. The rights and remedies of the Secured Party hereunder are cumulative and not exclusive of any rights or remedies which it would otherwise have. No waiver of any provision of this Agreement or consent to any departure by the Grantor therefrom shall in any event be effective unless the same shall be authorized as provided in Section 18, and then such waiver or consent shall be effective only in the specific instance and for the purpose for which given. No notice to or demand on the Grantor in any case shall entitle the Grantor to any other or further notice or demand in similar or other circumstances.

18. Amendments. Subject to Section 5.2 of the Security Agreement, neither this Agreement nor any provision hereof may be amended, modified, altered or waived except pursuant to an agreement or agreements in writing entered into by the Grantor and the Secured Party (which shall receive the prior written consent of the Majority Purchasers).

19. Severability. In the event any one or more of the provisions contained in this Agreement should be held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein shall not in any way be affected or impaired thereby.

20. Facsimile. This Agreement may be executed by, and the transactions contemplated hereby may be closed by, the delivery of facsimile copies of the signatures of the parties hereto.

21. Headings. Article and Section headings used herein are for convenience of reference only and are not to affect the construction of, or to be taken into consideration in interpreting, this Agreement.
