## EXECUTION COPY

**PATENT and TRADEMARK SECURITY AGREEMENT**  
(this "Agreement") dated as of May 11, 2005, among THE GOODYEAR TIRE & RUBBER COMPANY (the "Borrower"), the subsidiaries of the Borrower identified herein on Schedule I hereto (collectively and together with the Borrower, the "Grantors") and DEUTSCHE BANK TRUST COMPANY AMERICAS ("DBTCA"), as collateral agent (in such capacity, the "Collateral Agent").

Reference is made to (a) the Second Lien Credit Agreement dated as of April 8, 2005 (as amended, restated, supplemented or otherwise modified from time to time, the "Credit Agreement"), among the Borrower, the Lenders party thereto, DBTCA, as collateral agent and JPMorgan Chase Bank, N.A., as administrative agent, and (b) the Second Lien Guarantee and Collateral Agreement dated as of April 8, 2005 (as amended, restated, supplemented or otherwise modified from time to time, the "Collateral Agreement"), among the Borrower, the subsidiaries of the Borrower identified therein and the Collateral Agent. The Lenders have agreed to extend credit to the Borrower subject to the terms and conditions set forth in the Credit Agreement. The obligations of the Lenders to extend such credit are conditioned upon, among other things, the execution and delivery of the Collateral Agreement. The Grantors are affiliates of the Borrower, will derive substantial benefits from the extension of credit to the Borrower pursuant to the Credit Agreement and are willing to execute and deliver this Agreement in order to induce the Lenders to extend such credit. Accordingly, the parties hereto agree as follows:

**SECTION 1. Terms.** Capitalized terms used in this Agreement, including the preamble and introductory paragraph hereto, and not otherwise defined herein have the meanings specified in the Collateral Agreement. The rules of construction specified in Section 1.03 of the Credit Agreement also apply to this Agreement.

**SECTION 2. Grant of Security Interest.** As security for the payment or performance, as the case may be, in full of the Obligations, each Grantor, pursuant to the Collateral Agreement, did and hereby does grant to the Collateral Agent, its successors and assigns, for the benefit of the Secured Parties, a security interest in all right, title or interest in or to any and all of the following assets and properties now owned or at any time hereafter acquired by such Grantor or in which such Grantor now has or at any time in the future may acquire any right, title or interest (collectively, the "Patent and Trademark Collateral"):

(a) all letters patent of the United States or the equivalent thereof in any other country, all registrations and recordings thereof, and all applications for letters patent of the United States or the equivalent thereof in any other country, including registrations, recordings and pending applications in the United States Patent and Trademark Office or any similar offices in any other country, including those listed on Schedule II hereto, as updated from time to time pursuant to Section 5.04(c) of the Collateral Agreement (the "Patents");

(b) all reissues, continuations, divisions, continuations-in-part, renewals or extensions of the Patents, and the inventions disclosed or claimed in the Patents, including the right to make, use and/or sell the inventions disclosed or claimed in the Patents;

(c) all trademarks, service marks, trade names, corporate names, company names, business names, fictitious business names, trade styles, trade dress, logos, other source or business identifiers, designs and general intangibles of like nature, now existing or hereafter adopted or acquired, all registrations and recordings thereof, and all registration and recording applications filed in connection therewith, including registrations and registration applications in the United States Patent and Trademark Office or any similar offices in any State of the United States or any other country or any political subdivision thereof, and all extensions or renewals thereof, including those listed on Schedule III hereto, as updated from time to time pursuant to Section 5.04(c) of the Collateral Agreement (the "Trademarks");

(d) all goodwill associated with or symbolized by the Trademarks; and

(e) all other assets, rights and interests that uniquely reflect or embody the goodwill associated with or symbolized by the Trademarks;

provided, however, that, notwithstanding any of the foregoing provisions of this Section 2, the Patent and Trademark Collateral shall not include Consent Assets.

**SECTION 3. Collateral Agreement.** The security interest granted to the Collateral Agent herein is granted in furtherance, and not in limitation of, the security interests granted to the Collateral Agent pursuant to the Collateral Agreement. Each party hereby acknowledges and affirms that the rights and remedies of the Collateral Agent with respect to the Patent and Trademark Collateral are more fully set forth in the Collateral Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the Collateral Agreement, the terms of the Collateral Agreement shall govern. This Agreement shall terminate in accordance with the Collateral Agreement.
