SECOND LIEN INTELLECTUAL PROPERTY SECURITY

AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, the "IP Security Agreement"), dated as of September 27, 2005, is made by the Grantors listed on the signature pages hereof (collectively, the "Grantors") in favor of Wilmington Trust Company, a Delaware banking corporation, as collateral agent for the Secured Parties (as defined in the Security Agreement referred to below) (the "Collateral Agent"). WHEREAS, America West Airlines, Inc., a Delaware corporation (the "Borrower"), Citibank, N.A., as Agent (the "Agent"), Citibank, N.A. as the Initial Lender (the "Initial Lender"), KPMG Consulting, Inc. (now known as BearingPoint, Inc.), as Loan Administrator and the Air Transportation Stabilization Board (the "Board") are parties to that certain Loan Agreement dated as of January 18, 2002 (as amended, supplemented or otherwise modified through the date hereof, the "Original Loan Agreement") pursuant to which the Initial Lender made a single term loan to the Borrower in the original principal amount of \$429,000,000;

WHEREAS, the Original Loan Agreement has been amended and restated by that certain Amended and Restated Loan Agreement dated as of the date hereof (as the same may be amended, restated, supplemented or otherwise modified from time to time, the "Loan Agreement"), among the Borrower, US Airways Group, Inc., a Delaware corporation ("Group"), the Subsidiaries of Group party thereto, the Initial Lender, the Agent, the Collateral Agent and the Board; and

WHEREAS, to induce the Board and the Initial Lender to enter into the Loan Agreement, the Grantors have agreed to enter into this IP Security Agreement.

NOW, THEREFORE, in consideration of these premises and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto hereby agree as follows:

Section 1. Grant of Security. Each Grantor hereby grants to the Collateral Agent, for itself and for the ratable benefit of the Secured Parties, as security for the prompt payment in full and the performance and observance of, the Secured Obligations, and in consideration of the premises and of the covenants herein contained, and for other good and valuable consideration the receipt and adequacy whereof are hereby acknowledged, each Grantor has granted, bargained, sold, assigned, transferred, conveyed, mortgaged, pledged, confirmed, and does hereby grant, bargain, sell, assign, transfer, convey, mortgage, pledge and confirm unto the Collateral Agent, its successors and assigns, for the ratable security and benefit of the Secured Parties, a Lien on and security interest in all estate, right, title and interest of such Grantor in, to and under the following, whether now owned or hereafter acquired, and wherever located (the "Collateral"):

- (a) the patents and patent applications set forth in Schedule A hereto;

(b) the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together with the goodwill symbolized thereby;

(c) the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto;

(d) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world, and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;

(e) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(f) any and all Proceeds of any and all of the foregoing.

Anything herein to the contrary notwithstanding, in no event shall the security interest granted under this Section 1 attach to any (i) Excluded Assets or (ii) lease, license, contract, property rights or agreement to which any Grantor is a party or any of the rights or interests of any Grantor thereunder if and for so long as the grant of such security interest shall constitute or result in (x) the abandonment, invalidation, or unenforceability of any material right, title or interest of any Grantor therein or (y) in a breach or termination pursuant to the terms of, or a default under, any such lease, license, contract, property rights or agreement (other than to the extent that any such term would be rendered ineffective pursuant to Section 9-406, 9-407, 9-408 or 9-409 of the UCC (or any successor provision or provisions) of any relevant jurisdiction or any other applicable law (including the Bankruptcy Code) or principles of equity); provided, however, that such security interest shall attach immediately at such time as the condition causing such abandonment, invalidation or unenforceability shall be remedied and, to the extent severable, shall attach immediately to any portion of such lease, license, contract, property rights or agreement that does not result in any of the consequences specified in (x) or (y) above.

Section 2. Security for Secured Obligations. The grant of a security interest in the Collateral by each Grantor under this IP Security Agreement secures the payment and performance of all Secured Obligations of such Grantor under the Loan Documents.

Section 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

Section 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

Section 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Loan Agreement and the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Collateral are more fully set forth in the Loan Agreement and the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. Subject to Section 6, unless otherwise expressly provided in this IP Security Agreement, if any provision contained in this IP Security Agreement conflicts with any provision of any other Loan Document, the provision contained in this IP Security Agreement shall govern and control, except to the extent of a conflict with the Loan Agreement, in which case the Loan Agreement shall control; provided, that the inclusion of supplemental rights or remedies in favor of the Agent, the Collateral Agent, the Board or the Lenders in any other Loan Document shall not be deemed a conflict with this IP Security Agreement.

Section 6. Intercreditor Agreement. Notwithstanding anything herein to the contrary, the lien and security interest granted to the Collateral Agent pursuant to this IP Security Agreement and the exercise of any right or remedy by the Collateral Agent hereunder are subject to the provisions of the Intercreditor Agreement, dated as of September 27, 2005 (as amended, restated, supplemented or otherwise modified from time to time, the "Intercreditor Agreement") among the Borrowers, the guarantors party thereto from time to time, the First Lien Collateral Agent and the Second Lien Collateral Agent (each as defined therein). In the event of any conflict between the terms of the Intercreditor Agreement and this IP Security Agreement, the terms of the Intercreditor Agreement shall govern and control.

Section 7. Governing Law. This IP Security Agreement and the rights and obligations of the parties hereto shall be governed by, and construed in accordance with, the law of the State of New York (and, to the extent applicable, the Bankruptcy Code); provided that the rights and obligations of the Board hereunder (whether as guarantor or lender) shall be governed by, and construed in accordance with, the federal law of the United States of America, if and to the extent such federal law is applicable, and otherwise in accordance with the law of the State of New York.
