THIS INTELLECTUAL PROPERTY SECURITY AGREEMENT (the "Agreement"), dated as of December 6, 2005, is made by PROXYMED, INC. ("ProxyMed"), PROXYMED TRANSACTION SERVICES, INC. ("PTS") PROXYMED LAB SERVICES, LLC ("PLS"), PLANVISTA CORPORATION ("PVC"), PLANVISTA SOLUTIONS, INC. ("PVS") and NATIONAL NETWORK SERVICES, LLC ("NNS" together with ProxyMed, PTS, PLS, PVC, PVC and PVS, each a "Grantor" and collectively, the "Grantors"), in favor of LAURUS MASTER FUND, LTD. ("Laurus").

WHEREAS, pursuant to that certain Security and Purchase Agreement dated as of the date hereof by and among Grantors and Laurus (as from time to time amended, restated, supplemented or otherwise modified, the "Security Agreement"), Laurus has agreed to make the Loans for the benefit of Grantors; and

WHEREAS, Laurus is willing to make the Loans as provided for in the Security Agreement, but only upon the condition, among others, that Grantors shall have executed and delivered to Laurus this Agreement;

NOW, THEREFORE, in consideration of the premises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor hereby agrees as follows:

Section 1. DEFINED TERMS. All capitalized terms used but not otherwise defined herein have the meanings given to them in the Security Agreement.

Section 2. GRANT OF SECURITY INTEREST IN INTELLECTUAL PROPERTY COLLATERAL. To secure the complete and timely payment of all the Obligations of the Borrowers now or hereafter existing from time to time, each Grantor hereby grants to Laurus a continuing first priority security interest in all of such Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired (collectively, the "Collateral"):

(a) all (i) letters patent of the United States or any country, all registrations and recordings thereof, and all applications for letters patent of the United States or any other country, including registrations, recordings and applications in the United States Patent and Trademark Office or in any similar office or agency of the United States, any state or territory thereof, or any other country, including those referred to on Schedule I attached hereto and made a part hereof; and (ii) all reissues, continuations, continuations-in-part or extensions thereof (collectively, the "Patents");

(b) all rights under any written agreement now owned or hereafter acquired by such Grantor granting any right with respect to any invention on which a Patent is in existence, including those referred to on Schedule I attached hereto and made a part hereof (collectively, the "Patent Licenses");

(c) (i) all trademarks, trade names, corporate names, business names, trade styles, service marks, logos, other source of or business identifiers, prints and labels on which any of the foregoing have appeared or appear, designs and general intangibles of like nature (whether registered or unregistered), all registrations and records thereof, and all applications in connection therewith, including all registrations, records and applications in the United States Patent and Trademark Office or in any similar office or agency of the United States, any state or territory thereof; or any other country or any political subdivision thereof, (ii) all reissues, extensions or renewals thereof and (iii) all goodwill associated with or symbolized by any of the foregoing (collectively, the “Trademarks”);

(d) all rights under any written agreement now owned or hereafter acquired by any Grantor granting any right to use any Trademark registration, including those referred to on Schedule II attached hereto and made a part hereof (collectively, the “Trademark Licenses”);

(e) all copyrights and rights and interests in copyrights and works protectable by copyright and all renewals and extensions thereof, all copyright registrations and applications for registration of any such copyrights in the United States of America or any other country, including, without limitation, (i) all copyrights, distribution rights, licenses, and any and all other rights or interests in copyrights in the works listed on Schedule III attached hereto and made a part hereof, (ii) all works based upon, incorporated in, derived from, incorporating or relating to all works covered by copyright and (iii) all tangible property embodying the copyrights or such copyrights materials (collectively, the “Copyrights”);

(f) all license agreements with any other Person entered into in connection with any Copyrights or such other Person’s copyrights or copyright registrations or applications, whether a Grantor is a licensor or licensee under any such license agreement including, without limitation, the license agreements listed on Schedule III attached hereto and made a part hereof, and all tangible property covered by any of the licenses (collectively, the “Copyright Licenses”); and

(g) all goodwill of the business connected with the use of, and symbolized by, each Patent, each Patent License, each Trademark, each Trademark License, each Copyright and each Copyright License; and

(h) all products and proceeds of the foregoing, including, without limitation, any claim by such Grantor against third parties for past, present or future (i) infringement or dilution of any Patent or Patent licensed under any Patent License, (ii) injury to the goodwill associated with any Patent or any Patent licensed under any Patent License, (iii) infringement or dilution of any Trademark or Trademark licensed under any Trademark License, (iv) injury to the goodwill associated with any Trademark or any Trademark licensed under any Trademark License, (v) infringement or dilution of any Copyright or Copyright licensed

under any Copyright License, and (vi) injury to the goodwill associated with any Copyright or any Copyright licensed under any Copyright License.

Section 3. REPRESENTATIONS AND WARRANTIES. Each Grantor represents and warrants that such Grantor does not have any interest in, or title to, any Patent, Trademark or Copyright except as set forth in Schedule I, Schedule II and Schedule III, respectively, hereto. Each Grantor's Patents, Trademarks and Copyrights are valid and enforceable, are solely owned by a Grantor and there is no claim that the use of any of them violates the rights of any third person. This Agreement is effective to create a valid and continuing Lien on and perfected security interests in favor of Laurus in all of each Grantor's Patents, Trademarks and Copyrights and such perfected security interests are enforceable as such as against any and all creditors of, and purchasers from, each Grantor. Upon filing of this Intellectual Property Security Agreement with the United States Patent and Trademark Office and the United States Copyright Office and the filing of appropriate financing statements, all action necessary to protect and perfect Laurus' Lien on each Grantor's Patents, Trademarks and Copyrights shall have been duly taken.

Section 4. COVENANTS. Each Grantor covenants and agrees with Laurus that from and after the date of this Agreement and until the expiration of the Term:

(a) Such Grantor shall notify Laurus immediately if it knows or has reason to know that any application or registration relating to any Patent, Trademark or Copyright (now or hereafter existing) may become abandoned or dedicated, or of any adverse determination or development (including the institution of, or any such determination or development in, any proceeding in the United States Patent and Trademark Office, the United States Copyright Office or any court) regarding such Grantor's ownership of any Patent, Trademark or Copyright, its right to register the same, or to keep and maintain the same.

(b) In no event shall such Grantor, either directly or through any agent, employee, licensee or designee, file an application for the registration of any Patent, Trademark or Copyright with the United States Patent and Trademark Office, the United States Copyright Office or any similar office or agency without giving Laurus prior written notice thereof, and, upon request of Laurus, such Grantor shall execute and deliver a supplement hereto (in form and substance satisfactory to Laurus) to evidence Laurus' Lien on such Patent, Trademark or Copyright, and the general intangibles of such Grantor relating thereto or represented thereby.

(c) Such Grantor shall take all actions necessary or requested by Laurus to maintain and pursue each application, to obtain the relevant registration and to maintain the registration of each of the Patents or Trademarks (now or hereafter existing), including the filing of applications for renewal, affidavits of use, affidavits of noncontestability and opposition and interference and cancellation proceedings.

(d) In the event that any of the Collateral is infringed upon, or misappropriated or diluted by a third party, such Grantor shall notify Laurus

promptly after such Grantor learns thereof. Such Grantor shall, unless it shall reasonably determine that such Collateral is in no way material to the conduct of its business or operations, promptly sue for infringement, misappropriation or dilution and to recover any and all damages for such infringement, misappropriation or dilution, and shall take such other actions as Laurus shall deem reasonably appropriate under the circumstances to protect such Collateral.

Section 5. SECURITY AGREEMENT. The security interests granted pursuant to this Agreement are granted in conjunction with the security interests granted to Laurus pursuant to the Security Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of Laurus with respect to the security interest in the Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

Section 6. REINSTATEMENT. This Agreement shall remain in full force and effect and continue to be effective should any petition be filed by or against any Grantor for liquidation or reorganization, should any Grantor become insolvent or make an assignment for the benefit of any creditor or creditors or should a receiver or trustee be appointed for all or any significant part of any Grantor's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

Section 7. INDEMNIFICATION. (A) Each Grantor assumes all responsibility and liability arising from the use of the Patents, Trademarks and/or Copyrights and each Grantor hereby indemnifies and holds Laurus harmless from and against any claim, suit, loss, damage or expense (including reasonable attorneys' fees) arising out of such Grantor's operations of its business from the use of the Patents, Trademarks and/or Copyrights. (B) In any suit, proceeding or action validly brought by Laurus under this Agreement, the Security Agreement or any other Ancillary Agreement with respect to any Patent License, Trademark License or Copyright License for any sum owing thereunder, or to enforce any provisions of such license (an "IP Litigation"), Grantors will indemnify and keep Laurus harmless from and against all expense, loss or damage suffered by reason of any defense, set off, counterclaim, recoupment or reduction or liability whatsoever of the obligee thereunder, arising out of a breach of the applicable Grantor of any obligation thereunder or arising out of any other agreement, indebtedness or liability at any time owing to or in favor of such obligee or its successors from such Grantor, and all such obligations of such Grantor shall be and remain enforceable against and only against such Grantor and shall not be enforceable against Laurus. Laurus shall provide the Company Agent written notice of any IP Litigation prior to the commencement of such IP Litigation; provided, however, (i) the failure of Laurus to provide such notice shall not limit any Grantor's indemnity obligations under this Section and (ii) Laurus may deliver such notice following the commencement of such IP Litigation if Laurus believes in its good faith judgment that any delay

in commencing the IP Litigation may, in any way, have a deleterious effect on its rights and remedies in such IP Litigation or the value of the Collateral.

Section 8. NOTICES. Whenever it is provided herein that any notice, demand, request, consent, approval, declaration or other communication shall or may be given to or served upon any of the parties by any other party, or whenever any of the parties desires to give and serve upon any other party any communication with respect to this Agreement, each such notice, demand, request, consent, approval, declaration or other communication shall be in writing and shall be given in the manner, and deemed received, as provided for in the Security Agreement.

Section 9. TERMINATION OF THIS AGREEMENT. Subject to Section 6 hereof, this Agreement shall terminate upon payment in full in cash of all Obligations and irrevocable termination of the Security Agreement. Following such termination, Laurus shall deliver to Grantor such instruments as Grantor may reasonably request to evidence the termination by Laurus of its security interest in the Collateral.
