3. REPRESENTATIONS AND WARRANTIES.

Each Grantor represents and warrants that such Grantor does not have any interest in, or title to, any Patent, Trademark or Copyright except as set forth in Schedule I, Schedule II and Schedule III, respectively, hereto. This Agreement is effective to create a valid and continuing Lien on and, upon the filing hereof with the United States Patent and Trademark Office and the United States Copyright Office, perfected security interests in favor of Global Security Trustee for itself and the other Secured Finance Parties in all of Grantors' Patents, Trademarks and Copyrights and such perfected security interests are enforceable as such against any and all creditors of, and purchasers from, Grantors. Upon filing of this Agreement with the United States Patent and Trademark Office and the United States Copyright Office and the filing of appropriate financing statements with the Secretaries of State of the [States of Minnesota and

Delaware] all action necessary or desirable to protect and perfect Global Security Trustee's Lien on Grantors' Patents, Trademarks and Copyrights shall have been duly taken.

4. COVENANTS. Each Grantor covenants and agrees with

Global Security Trustee, for itself and the other Secured Finance Parties, that from and after the date of this Agreement and until the indefeasible payment of the Secured Obligations:

- (a) Each Grantor shall notify Global Security Trustee immediately with respect to any Patent, Trademark or Copyright that is material to the conduct of the business, operations, assets or otherwise of such Grantor if it knows or has reason to know that any application or registration relating to any Patent, Trademark or Copyright (now or hereafter existing) may become abandoned or dedicated, or of any adverse determination or development (including the institution of, or any such determination or development in, any proceeding in the United States Patent and Trademark Office, the United States Copyright Office or any court) regarding such Grantor's ownership of any Patent, Trademark or Copyright, its right to register the same, or to keep and maintain the same.
- (b) In no event shall any Grantor, either directly or through any agent, employee, licensee or designee, file an application for the registration of any Patent, Trademark or Copyright with the United States Patent and Trademark Office, the United States Copyright Office or any similar office or agency without giving Global Security Trustee prior written notice thereof, and, upon request of Global Security Trustee, such Grantor shall execute and deliver a supplement hereto (in form and substance satisfactory to Global Security Trustee) to evidence Global Security Trustee's Lien on such Patent, Trademark or Copyright, and the General Intangibles of such Grantor relating thereto or represented thereby.
- (c) Each Grantor shall take all actions necessary or requested by Global Security Trustee to maintain and pursue each application, to obtain the relevant registration and to maintain the registration of each of the Patents or Trademarks (now or hereafter existing) that is material to the conduct of the business, operations, assets or otherwise of such Grantor, including the filing of applications for renewal, affidavits of use, affidavits of noncontestability and opposition and interference and cancellation proceedings.

- (d) In the event that any of the Intellectual Property Collateral is infringed upon, or misappropriated or diluted by a third party, each Grantor shall notify Global Security Trustee promptly after such Grantor learns thereof. Each Grantor shall, unless it shall reasonably determine that such Intellectual Property Collateral is in no way material to the conduct of its business or operations, promptly sue for infringement, misappropriation or dilution and to recover any and all damages for such infringement, misappropriation or dilution, and shall take such other actions as Global Security Trustee shall deem appropriate under the circumstances to protect such Intellectual Property Collateral.

5. SECURITY AGREEMENT. The security interests granted pursuant to this Agreement are granted in conjunction with the security interests granted to Global Security Trustee pursuant to the Ridley Inc. Group Master Security Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of Global Security Trustee with respect to the security interest in the Intellectual Property Collateral made and granted hereby are more fully set forth in the Ridley Inc. Group Master Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

6. REINSTATEMENT. This Agreement shall remain in full force and effect and continue to be effective should any petition be filed by or against any Grantor for liquidation or reorganization, should any Grantor become insolvent or make an assignment for the benefit of any creditor or creditors or should a receiver or trustee be appointed for all or any significant part of any Grantor's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Secured Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Secured Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Secured Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

7. NOTICES. Whenever it is provided herein that any notice, demand, request, consent, approval, declaration or other communication shall or may be given to or served upon any of the parties by any other party, or whenever any of the parties desires to give and serve upon any other party any communication with respect to this Agreement, each such notice, demand, request, consent, approval, declaration or other communication shall be in writing and shall be given in the manner, and deemed received, as provided for in the Common Terms Decd.

8. ADDITIONAL GRANTORS. The initial Grantors hereunder shall be the Borrower and those affiliates of Borrower as are signatories hereto on the date hereof. From time to time subsequent to the date hereof, additional direct and indirect subsidiaries of Borrowers may become parties hereto, as additional Grantors (each, an "Additional Grantor"), by executing a counterpart of this Agreement substantially in the form of Exhibit A attached hereto. Upon delivery of any such counterpart to Global Security Trustee, notice of which is hereby waived by the Grantors, each Additional Grantor shall be a Grantor and shall be as fully a party hereto as if such Additional Grantor were an original signatory hereto. Each Grantor expressly agrees that its obligations arising hereunder shall not be affected or diminished by the addition or release of any other Grantor hereunder not by any election of Global Security Trustee not to cause any subsidiary of Borrowers to become an Additional Grantor hereunder. This Agreement shall be fully effective as to any Grantor that is or becomes a party hereto regardless of whether any other Person becomes or fails to become or ceases to be a Grantor hereunder.

IN WITNESS WHEREOF, each Grantor has caused this Intellectual Property Security Agreement to be executed and delivered by its duly authorized officer as of the date first set forth above.
