On February 15, 2006 a Recordation of Assignment was filed with the U.S. Patent and Trademark Office (USPTO) mistakenly assigning all right, interest and title to the above referenced marks from Assignee to Assignor. Said Assignment is filed at Reel/Frame 003248/0121. The Recordation of Assignment should have reflected a security interest only in Assignor.

On March 6, 2006 a Corrective Assignment was filed with the USPTO correcting said assignment to reflect a security interest in the above referenced marks from Assignee to Assignor. Said Corrective Assignment is filed at Reel/Frame 003270/0854.

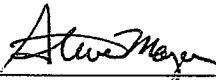

While the Corrective Assignment corrected the classification of the assignment in the assignment records of the USPTO as reflected on the website from an assignment of all right title and interest in the trademarks to an assignment of security interest in the trademarks only, the ownership of the trademarks as reflected on the USPTO website was not corrected and presently reflects Assignor as owner of the trademarks. To correct the USPTO ownership database to reflect Assignee as owner of the trademarks and Assignor as a holder of a security interest, the parties have agreed to execute and file this Assignment with the USPTO vesting Assignee with full ownership of the trademarks. Assignee

L0689737.1

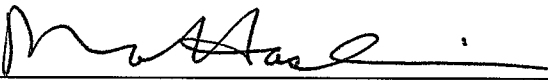

then agrees that Assignor may immediately file a recordation of Assignor's security interest in the trademarks.

This Agreement may be executed in several counterparts, each of which shall be deemed to be an original copy and all of which together shall constitute one agreement binding on all parties hereto, notwithstanding that all the parties shall not have signed the same counterpart.
