## TRADEMARK AND PATENT ASSIGNMENT

THIS ASSIGNMENT (the "Assignment") made and entered into this 15th day of June 2006, by ALLIANCE LAUNDRY SYSTEMS LLC, a Delaware limited liability company ("Assignor") and SANKOSHA ENGINEERING CO., LTD., a Japanese corporation ("Assignee").

### WITNESSETH:

WHEREAS, Assignor and Assignee have entered into an Asset Purchase Agreement dated as of June 15, 2006 (the "Purchase Agreement"), providing for the sale by Assignor of certain assets relating to a portion of the business of Assignor; and

WHEREAS, Assignor agreed to grant certain rights in intangible assets, including intellectual property, to Assignee pursuant to the Purchase Agreement; and

WHEREAS, Assignor desires to transfer, and Assignee wishes to acquire, certain trademarks and service marks identified on the attached Schedule A ("Trademarks"), pursuant to the Purchase Agreement; and

WHEREAS, Assignor desires to transfer, and Assignee wishes to acquire, certain patents and patent applications identified on the attached Schedule B ("Patents"), pursuant to the Purchase Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound, Assignor hereby agrees as follows:

### TRADEMARKS

1. Assignor hereby sells, assigns and transfers to Assignee all of Assignor's right, title and interest in and to the Trademarks, together with the goodwill of the business which is symbolized by the Trademarks and the right to sue and recover any damages and profits and all other remedies for past and future infringements thereof.

2. Assignor agrees to execute and deliver at the reasonable request of Assignee, any and all instruments, assignments and papers and to perform any other reasonable acts Assignee may require in order to consolidate, vest and record in Assignee, all of Assignor's rights, title and interest in and to the Trademarks.

### PATENTS

3. Assignor hereby sells, assigns and transfers to Assignee all of Assignor's right, title and interest in and to the Patents, the inventions disclosed therein and all divisionals, continuations, continuations-in-part, reissues, reexaminations, and extensions thereof, all said rights to be held and enjoyed by Assignee for its own use and for the use of its successors, assigns, or other legal representatives, to the full end of the term for which the Patents have been

or will be granted, reexamined, extended or reissued, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment and sale had not been made, and Assignor hereby assigns any and all claims and causes of action for infringement of such Patent which have accrued up to and including the date of this Assignment, including all rights to recover damages, profits, and injunctive relief for past and future infringements thereof.

4. Assignor authorizes Assignee, its successors, assigns, or nominees, to make additional applications for patent or other form of protection for the Patents in Assignee's own name, in any and all countries and to invoke and claim for any application for patent or other form of protection for the Patents filed by Assignor or Assignee, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from Assignor.

5. Assignor agrees that Assignor will, without demanding any further consideration therefor, at the request but at the expense of Assignee, perform any reasonable acts, including the execution and acknowledgment of instruments, that may be or become reasonably necessary for obtaining, sustaining, reexamining or reissuing the Patents, and for maintaining and perfecting Assignee's rights to the Patents.

6. Assignor hereby agrees that, subject to the requirements of any country at issue, a copy of this Assignment may be utilized as a full legal and formal equivalent of any assignment, consent to file, or like document which may be required in said country in proof of the right of Assignee or its successors, assigns, or nominees to apply for patent or other proper protection for the Patents, and to claim the aforesaid benefits of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it.
