GRANT OF FIRST PRIORITY SECURITY  
INTEREST IN UNITED STATES TRADEMARKS

This GRANT OF FIRST PRIORITY SECURITY INTEREST IN UNITED STATES TRADEMARKS, dated June 30, 2006, is granted by The Gleason Works, a New York corporation, with principal offices at 1000 University Avenue, Rochester, New York 14692, Gleason Cutting Tools Corporation, a Delaware corporation, with principal offices at 1000 University Avenue, Rochester, New York 14692 , and Gleason-M&M Precision Systems Corporation, an Ohio corporation, with principal offices at 300 Progress Road, Dayton, Ohio 45449 (together, the "Assignors") in favor of UBS AG, Stamford Branch, as Collateral Agent, with principal offices at 677 Washington Boulevard Stamford, Connecticut 06901 (the "Assignee"), for good and valuable consideration, the sufficiency and receipt of which are hereby acknowledged. Each Assignor does hereby assign and transfer unto the Assignee for the equal and ratable benefit of all of the Secured Creditors, and does hereby separately pledge and grant to the Assignee for the equal and ratable benefit of all of the Secured Creditors, in each case as security for the prompt payment and performance when due of all Obligations, a Lien on and continuing security interest in all of the right, title and interest of such Assignor in, to and under all of Assignor's right, title and interest in and to (i) the trademarks, service marks and/or trade names which any Assignor now owns or hereafter acquires ownership of, including any registration, renewal or application for registration of any trademarks and service marks now held or hereafter acquired by any Assignor, which are registered or filed in the United States Patent and Trademark Office or the equivalent thereof in any state of the United States or any equivalent foreign office or agency, as well as any unregistered trademarks and service marks used by an Assignor and any trade dress including logos, designs, fictitious business names and other business identifiers used by any Assignor including, without limitation, those set forth on Schedule A attached hereto (the "Marks"), (ii) the goodwill of the business(es) symbolized by the Marks, (iii) all causes of action arising prior to or after the date hereof for infringement of any of the Marks or unfair

competition regarding the same and (iv) all Proceeds (as such term is defined in the Security Agreement referred to below) of the foregoing.

In addition, notwithstanding anything to the contrary herein, the foregoing grant of Lien shall not attach to applications filed in the U.S. Patent and Trademark Office to Marks filed on the basis of "intent to use" such Marks if and solely to the extent that any such Lien (and solely during the period in which the Lien) would impair the validity or enforceability of such intent-to-use application under federal law, provided that such Lien shall attach, in any event upon the filing of a "Statement of Use" or "Amendment to Allege Use" has been filed, whereupon such applications shall automatically be subject to the Lien granted herein and deemed included in the Collateral.

This GRANT OF FIRST PRIORITY SECURITY INTEREST IN UNITED STATES TRADEMARKS is made to secure the prompt payment and performance when due of all the Obligations of the Assignor, as such term is defined in the Security Agreement among the Assignor, the other assignors from time to time party thereto and the Assignee, dated as of June 30, 2006 (as amended from time to time, the "Security Agreement") and shall be effective as of the date of the Security Agreement. Upon the termination of the Security Agreement pursuant to Section 10.9(a) thereof, the Assignee shall, upon satisfaction of such Obligations, execute, acknowledge, and deliver to the Assignor an instrument in writing releasing the security interest in the Marks acquired under this Grant of Security Interest in the United States Trademarks.

This GRANT OF FIRST PRIORITY SECURITY INTEREST IN UNITED STATES TRADEMARKS has been made in conjunction with the continuing Lien on and first priority (subject to Permitted Liens) security interest granted to Assignee under the Security Agreement. The rights and remedies of the Assignee with respect to the Lien on and first priority (subject to Permitted Liens) security interest granted herein are without prejudice to, and are in addition to those set forth in the Security Agreement, all terms and provisions of which are incorporated herein by reference. In the

event that any provisions of this GRANT OF FIRST PRIORITY SECURITY INTEREST IN UNITED STATES TRADEMARKS are deemed to conflict with the Security Agreement, the provisions of the Security Agreement shall govern.
