Except as otherwise provided herein, capitalized terms used herein without definition shall have the meanings given to them in the Credit Agreement referred to below.

WHEREAS, reference is made to the Credit Agreement, dated as of May 2, 2006 (as amended, modified or supplemented from time to time, the "Credit Agreement"), among UFX Holding II Corporation, Unifrax Holding Co., Unifrax Corporation and their subsidiaries and affiliates parties thereto, the Lenders and Agents from time to time parties thereto, and the Administrative Agent, which provides for the availability of certain credit facilities to the Borrowers upon the terms and subject to the conditions set forth therein.

WHEREAS, as a condition to the extension of credit to the Borrowers under the Credit Agreement, each Pledgor has executed and delivered that certain Domestic Pledge and Security Agreement dated May 2, 2006 made by the Pledgors to the Administrative Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the "Domestic Pledge and Security Agreement").

WHEREAS, under the terms of the Domestic Pledge and Security Agreement, the Pledgors have granted to the Administrative Agent, for the ratable benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Pledgors, and have agreed as a condition thereof to execute this IP Security Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Pledgor agrees as follows:

SECTION 1. Grant of Security. Each Pledgor hereby grants to the Administrative Agent for the ratable benefit of the Secured Parties a security interest in all of such Pledgor's right, title and interest in and to the following (the "Collateral"):

the patents and patent applications set forth in Schedule A hereto (the "Patents");

the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in

which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable law), together with the goodwill symbolized thereby (the "Trademarks");

all copyrights, whether registered or unregistered, now owned or hereafter acquired by such Pledgor, including, without limitation, the copyright registrations and applications set forth in Schedule C hereto (the "Copyrights");

all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, and all rights corresponding thereto throughout the world;

all claims and rights to recover for past, present and future infringement or dilution of or injury with respect to any of the foregoing; and

any and all Proceeds (as defined in the Domestic Pledge and Security Agreement) of or arising from any of the foregoing.

SECTION 2. Security for Obligations. The grant of a security interest in the Collateral by each Pledgor under this IP Security Agreement secures the full and prompt payment, at any time and from time to time as and when due (whether at the stated maturity, by acceleration or otherwise), of all liabilities and obligations of each Pledgor, whether now existing or hereafter incurred, created or arising and whether direct or indirect, absolute or contingent, due or to become due, under, arising out of or in connection with the Credit Agreement, the Domestic Pledge and Security Agreement, the Domestic Subsidiary Guaranty, the Parent Guaranty or any of the other Credit Documents to which it is or hereafter becomes a party, or any Hedge Agreement required or permitted under the Credit Agreement and to which Unifrax Holdco or any Subsidiary and any Lender or Affiliate of any Lender are parties.

SECTION 3. Recordation. Each Pledgor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Domestic Pledge and Security Agreement. Each Pledgor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Administrative Agent with respect to the Collateral are more fully set forth in the Domestic Pledge and Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 6. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

IN WITNESS WHEREOF, each Pledgor has caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
