**NUNC PRO TUNC INTELLECTUAL PROPERTY RIGHTS ASSIGNMENT**

**THIS NUNC PRO TUNC INTELLECTUAL PROPERTY RIGHTS ASSIGNMENT** ("Assignment") is made effective as of the 24th day of November, 2003, ("Effective Date"), by and between Micro Focus International Limited, a company incorporated under the laws of the Cayman Islands ("Assignor") and Micro Focus IP Ltd., a company incorporated under the laws of the Cayman Islands ("Assignee").

**WHEREAS**, Assignor is owner of certain patents, copyrights including, without limitation, copyrights in software, trade secrets including, without limitation, unpatented inventions and know-how, confidential information, and trademarks, service marks, trade names and similar marks, together with all goodwill associated therewith, and all other intellectual property rights and technologies that are used in connection with the design, development, manufacture, support, licensing, marketing and distribution of software products, including, without limitation, COBOL software products, for the computer industry, including, without limitation, the United States patent identified and set forth on Schedule A, the trademark registrations and applications identified and set forth on Schedule B, together with the goodwill of the business associated therewith, and the United States copyright registrations identified and set forth in Schedule C (all of the foregoing collectively referred to as the "Intellectual Property Rights");

**WHEREAS**, Assignee wishes to acquire and Assignor wishes to assign all of Assignor's right, title and interest in and to the Intellectual Property Rights.

**NOW, THEREFORE**, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby sell, assign, transfer and set over to Assignee Assignor's entire right, title and interest in and to the Intellectual Property Rights, for the United States and for all foreign countries, including, without limitation, any continuations, divisions, continuations-in-part, reissues, reexaminations, extensions or foreign equivalents thereof, including the subject matter of all claims, and any registrations and applications therefor, any renewals and extensions of the registrations, and all other corresponding rights which may be obtained therefrom for Assignee's own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment and sale had not been made, together with all income, royalties, damages or payments due or payable as of the Effective Date or thereafter, including, without limitation, all claims for damages by reason of past, present or future infringement or other unauthorized use of the Intellectual Property Rights, with the right to sue for, and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives.

Assignor authorizes and requests the Commissioner of Patents and Trademarks and any foreign equivalents to record Assignee as owner of the Intellectual Property Rights, including any continuations, divisions, continuations-in-part, reissues, reexaminations or extensions thereof, and to issue any and all registrations or letters patent of the United States or any foreign countries thereon to Assignee, as assignee of the entire right, title and interest in, to and under the same, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives.

Assignor shall provide Assignee, its successors, assigns or other legal representatives, cooperation and assistance at Assignee's request and expense (including the execution and delivery of any and all affidavits, declarations, oaths, exhibits, assignments, powers of attorney or other documentation as may be reasonably required): (1) in the preparation and prosecution of any applications covering the inventions assigned herein; (2) in the prosecution or defense of any interference, opposition, reexamination, reissue, infringement or other proceedings that may arise in connection with any of the Intellectual Property Rights assigned herein, including, but not limited to, testifying as to any facts

relating to the Intellectual Property Rights assigned herein and this Assignment; (3) in obtaining any additional intellectual property rights protection that Assignee may deem appropriate which may be secured under the laws now or hereafter in effect in the United States or any other country; and (4) in the implementation or perfection of this Assignment.

If Assignee is unable for any reason, after reasonable effort, to secure Assignor's signature on any document needed in connection with the actions specified herein, Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents as the Assignor's agent and attorney in fact, which appointment is coupled with an interest, to act for and on the Assignor's behalf to execute, verify and file any such documents and to do all other lawfully permitted acts to further the purposes of this Assignment with the same legal force and effect as if executed by the Assignor.

This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
