fixing 18th September 2004 as the deadline by which the insolvent businessman, the creditors and any other interested party could file with the Court any documents and written pleadings containing their comments on the list of creditors, the sums specified and the relative grounds for preference among creditors.

In a ruling dated 6th August 2004, subsequently completed on 18th September 2004, the Court granted the Extraordinary Administrator a time-limit of ten days for replies and the

party a time-limit of five days for counter-replies, reserving the right to grant a longer time-limit given the particular complexity of the issued raised in drawing up the lists of creditors.

Within the time-limits fixed in the ruling dated 3rd August 2004, 660 replies were filed by the creditors taking part in drawing up the lists.

On 16th December 2004, the Court Judges filed the final lists of creditors admitted or admitted with reservation and those excluded, specifying the relative sums owed and the grounds for preference according to art. 4 *bis*, clause 6, Decree-Law no.347/03 and subsequent amendments, declaring its enforceability at the same time. On 20th December 2004, the Extraordinary Administrator made known that the lists had been filed according to the terms and conditions provided in the ruling of the Court Judges, publishing the final lists as reported below in order of par values in the Official Gazzette of the Italian Republic, general Series, no. 303, dated 28th December 2004:

Court of Parma - judgement approving the composition with creditors ex art. 4 bis, Decree-Law no.347/03 and subsequent amendments

On drawing up the lists of creditors, by petition dated 23rd November 2004 the Extraordinary Administrator requested a postponement of voting in order to draft an information notice and obtain clearance for publication from the Securities Supervisor: the Court Judges, having considered the legislation governing financial brokerage provided by Legislative Decree no.58 dated 24th February 1998, (*hereinafter T.U.F.*), reserved the right to set the terms and conditions of voting after the ruling by the Securities Supervisor on matters of its sole jurisdiction, granting the Extraordinary Administrator the time-limit of 30 days for the specified activities.

According to law, 374 oppositions to the liabilities were filed for a total sum of around € 4.384.000.000,00.

By petition dated 14th January 2005, the Extraordinary Administrator asked the Court Judges to extend the time-limit granted for drafting the information notice: in a ruling dated 31st January 2005, the Court Judges allowed the petition, granting the Extraordinary Administrator the deadline of 14th February 2005 for the above-cited activities.

Subsequently, given the complexity of the completing the specified activities and uncertainty concerning the date of clearance from the Securities Supervisor, the Italian Stock Exchange Commission (CONSOB), to publish the information notice, on 11th February the Extraordinary Administrator requested a further extension until 30th April 2005 of the time-limit originally granted to obtain clearance from the Securities Supervisor for publication of the drafted information notice: in a ruling dated 9th March 2005, the Court Judges granted the requested extension, inviting the Extraordinary Administrator to write his report on the activities affected by the extension with the utmost urgency.

On 18th February 2005, the Extraordinary Administrator presented to the Minister of Productive Activities a petition ex art. 60 of Legislative Decree no.270/99 amending the restructuring plan, including the composition proposal. By decree issued on 1st March 2005,

Court of Parma -- judgement approving the composition with creditors ex art. 4 bis, Decree-Law no.347/03 and subsequent amendments

the Minister of Productive Activities, in agreement with the Minister of Agricultural and Forestry Policies, on the advice of the Surveillance Committee given on 23rd February 2005, authorized the amendments according to the petition, as completed by the indications proposed by the Committee.

Subsequently, on 4th March 2005 the Extraordinary Administrator filed the authorized amendments to the restructuring plan and the composition proposal with the Court hereto, ordering their publication in the Official Gazzette of the Italian Republic, Legal Notices, no. 74, dated 31st March 2005: in a ruling dated 9th March 2005, the Court of Parma, ex arts. 4, clause 2 *bis* and 4 *bis*, clause 5, Decree-Law no. 347/03 and subsequent amendments, issued the terms and conditions deemed appropriate for publication of the restructuring plan and the relative composition proposal, granting the Extraordinary Administrator the right to comment on any additional forms and terms and conditions of publication deemed necessary.

The last formulation of the composition proposal devised by the Extraordinary Administrator and approved by the Minister of Productive Activities, in agreement with the Minister of Agricultural and Forestry Policies, contains the following steps:

- i. the establishment of a foundation - the Parmalat Creditors' Foundation - whose sole institutional aim shall be to allow distribution of the shares of a new company called upon to act as Assumptor (*Assuntore*) of the composition with creditors, with transfer to the same of all assets belonging to the enterprises involved in the composition proposal and assumption of the liabilities encumbering the same as reduced according to the percentage provided in the composition;
- ii. assignment of authority by the unsecured creditors to the Parmalat Creditors' Foundation to subscribe to an increase in capital resolved by the Assumptor of the composition, setting-off their respective credits, reduced according to the

 Court of Parma - judgement approving the composition with creditors ex art. 4 bis, Decree-Law no. 347/03 and subsequent amendments

percentage provided in the composition, with the debt deriving from the subscription of shares;

iii. distribution by the Parmalat Creditors' Foundation to entitled unsecured creditors of shares in the Assumptor company deriving from the increase in capital on implementation of the composition, and in respect of the percentages provided by the composition proposal, and the transfer of warrants according to the terms and proportions specified. The percentages ensured to unsecured creditors for each of the companies subject to the composition – awaiting full settlement provided for all preferential creditors' claims and all those creditors' claims accepted on a pre-deduction basis – were published in the Official Gazette of the Italian Republic, Legal Notices, no.97, dated 28th April 2005, as specified merely for descriptive purposes in the following table with figures rounded to the first decimal place:

In a ruling dated 14th March 2005, following a petition by the Extraordinary Administrator, according to Decree-Law no. 347/03 and subsequent amendments, the Court Judges issued the terms and conditions of voting for the creditors admitted and/or admitted with reservation, and for the holders of financial instruments, reserving the start of voting to the outcome of the

activities involved in drafting the information notice, to be approved by the Securities Supervisor; they also issues the terms and conditions for publication of the same decree in extenso.

In a petition dated 27th April 2005, the Extraordinary Administrator requested a further extension to 31st May 2005 of the time-limit granted to draft the information notice together with clearance to publish from the Securities Supervisor, already fixed for 30th April 2005: the Court Judges approved the petition granting the extension requested, inviting the Extraordinary Administrator to write his report on the activities affected by the extension with the utmost urgency.

On 9th May 2005, by order no.3983 Borsa Italiana s.p.a. admitted the ordinary shares and warrants of Parmalat s.p.a. to be listed on the Italian stock exchange for trading by the Electronic Stock Market (Mercato Telematico Azionario), blue chips segment, making the validity of the order contingent upon filing of the information notice with the Securities Commission; also providing for the start of trading after publication of the judgement approving the composition with creditors by the Court hereto.

On 26th May 2005, by protocol no.5038655, proceeding no.20051842/1, the Securities Supervisor granted clearance according to the terms provided by art. 8, clause 1, and art. 56, clause 1, CONSOB Regulation no.11971 dated 14th May 1999 and subsequent amendments, for publication of the information notice, in the text transmitted by the extraordinary administration procedure with notification dated 29th April 2004, as subsequently amended by note dated 19th May 2005. On 27th May 2005, the information notice together with the clearance was filed with the Securities Supervisor and on 28th May 2005 was published according to law.

Given the need to await the outcome of the mutual recognition procedures of the information notice bearing clearance from the competent Securities Supervisors of the foreign states

involved, in a petition dated 31st May 2005 the Extraordinary Administrator requested extension to 30th June 2005 of the time-limit for completion of the above-cited mutual recognition procedure. In a ruling dated 10th June 2005, the Court Judges granted the requested extension, inviting the Extraordinary Administrator to write his report on the activities affected by the extension with the utmost urgency.

In a ruling dated 16th June 2005, having taken note of clearance by the Securities Supervisor for publication of the information notice, as per resolution issued on 26th May 2005 with note no.5038655 and mutual recognition by the Securities Supervisors of the foreign states of Denmark, Germany, Luxembourg, Netherlands, United Kingdom and Sweden, the Court Judges authorized voting setting 28th June 2005 as the starting date for voting and 26th August 2005 as the final date for receipt of votes.

On 5th September 2005, vote counting started pursuant to a decree issued on the same date by the Court of Parma, and ended on 27th September 2005: on this day the Director of Public Prosecutions at Parma Court transmitted his conclusions.

GROUNDS OF THE DECISION

The composition proposal formulated on 21st June 2004 by the Extraordinary Administrator together with the restructuring plan provided by art. 53 of Legislative Decree no.270/99, drafted according to the policy of economic and financial reorganization provided by art.27, clause 2, letter b) of Legislative Decree no.270/99, as authorized by ministerial decrees dated 23rd July 2004 and 1st March 2005 by the Minister of Productive Activities in agreement with the Minister of Agricultural and Forestry Policies, on the advice of the Watchdog Committee, obtained the legal majorities and is therefore approved.

1. Subject-matter and limitations of the judgement

The provision stated in the matter of the judgement pursuant to art. 4 *bis*, Decree-Law no. 347/03 and subsequent amendments, explicitly constrain the scope of the judgement hereto to

Court of Parma - judgement approving the composition with creditors ex art. 4 bis, Decree-Law no.347/03 and subsequent amendments

ascertainment of the lawfulness of the composition proposal and of the proceeding followed to file the restructuring plan with the attached proposal, as conclusively summarised in the outcome of the votes cast between 28th June 2005 and 26th August 2005, according to the decree issued on 16th June 2005 by the Court Judges, excluding any examination of the merits usually assigned to the Court on issuing its approval of a composition with creditors ex art 130, clause 1, Royal Decree n.267 dated 16th March 1942 (*hereinafter R.D. no.267/42*) and the composition ex art. 214, R.D. no.267/42: argue in favour of the proposed interpretation in line with the literal meaning of the law and the interpretations unanimously given to date, also because a power "*substituting*" the Court can be exercised, ex art. 4 *bis*, clause 9, Decree-Law no. 347/03 and subsequent amendments, solely if the legal authority deems "*that the creditors belonging to those dissenting can be satisfied by the composition in an amount not inferior to the other concretely practicable alternatives*".

With reference to the conditions of legality of the composition proposal, according to art. 4 *bis*, Decree-Law no. 347/03 and subsequent amendments, the same shall constitute an integral part of the restructuring plan devised by the Extraordinary Administrator, authorized on 23rd July 2004 by the Minister of Productive Activities, in agreement with the Minister of Agricultural and Forestry Policies, and filed with the Court on 29th July 2004, with subsequent amendments authorized on 1st March 2005 by the Minister of Productive Activities, in agreement with the Minister of Agricultural and Forestry Policies, and filed with the Court on 4th March 2005. The above-cited restructuring plan, as subsequently amended and completed, was approved by the Surveillance Committee on 20th July 2004 and on 23rd February it was published as ordered by the Court in decrees issued on 3rd-6th August 2004: by virtue of the additions and amendments made by the Extraordinary Administrator, the plan was published again in accordance with the ruling of the Court Judges in a decree dated 9th March 2005.

Court of Parma - judgement approving the composition with creditors ex art. 4 *bis*, Decree-Law no. 347/03 and subsequent amendments

Having considered the dilatory value of the proposal for preferential credits and credits on a pre-deduction basis, this being the condition of due legality for a composition with creditors, the panel of Judges observes that the extension of scope of transferability provided by Decree-Law no. 347/03 and subsequent amendments in relation to the composition proposal, does not allow prompt acritical reference to different outcomes given by legal theory and case law (cfr. *ex multis*, due to its broad grounds, Court of Cassation Civil Division, no.3936, 13th December 1969, in Giust. civ., 1970, I, 412 et seq.) with reference to the nature of prompt settlement of the composition with creditors since:

- a. the composition proposal, by explicit legal provision, constitutes an integral part of the restructuring plan devised by the Extraordinary Administrator, specified in the document under chapter VI, par. 1 et seq.: sole transfer of power of initiative to the Extraordinary Administrator is justified by the need to integrate the composition proposal and the restructuring plan, thereby aiming to mediate the targets of recovering the long-term equilibrium of the enterprises under extraordinary administration with the settlement arrangements of the composition proposal. Performance of the composition hence constitutes an integral part of the restructuring plan to which it is aimed, thereby becoming a new *tool* for the arrangement, in so far as termination of the insolvency procedure with full settlement of creditors' claims shall lose any connotation of a single evaluation generally present in various types of composition with creditors, combining the terms and conditions, interests involved and deadlines for payment with the needs of restructuring processes: in other words, the restructuring plan defines the area of settlement compatibility ensured by the composition by introducing a degree of flexibility and/or mobility of insolvency procedure never registered before, yet

Court of Parma - judgement approving the composition with creditors ex art. 4 bis, Decree-Law no.347/03 and subsequent amendments

attenuating its unlawful absoluteness by conversion into a composition proposal meeting with consensus. The proposed interpretation is largely supported by Decree-Law no. 347/03 and subsequent amendments, where art 4 bis, clause 1, letter c) explicitly states that the composition proposal can foresee, amongst others "*the restructuring of debts and the satisfaction of creditors by any technical or legal means*": in the same legal provision, reference to terminology pertaining to company turnarounds, albeit for descriptive purposes, discloses a specific area assigned by the legislator to the composition, as it regards the settlement as the final act of an overall process of strategic reorganization of the enterprise involving, with equal industrial size and organizational facilities, all the creditors as fully entitled to take part in the restructuring plan;

- b. the possibility of dividing the creditors into groupings according to "*legal position and uniform economic interests*", ex art. 4 bis, clause 1, letter a) Decree-Law no. 347/03 and subsequent amendments, overcomes for the first time any criteria provided by legal codes distinguishing creditors in favour of a composition scheme taking as its sole evaluation parameter consistency with the restructuring plan, and the uniformity of interests defined by the Extraordinary Administrator into groupings of creditors.

Also from this standpoint, fulfilment of the composition ex art. 4, Decree-Law no. 347/03 and subsequent amendments does not focus on the law governing the grading of credits as an unchangeable regulation, the same being subject to highly innovative remodelling assuming as a criterion of admissibility a consistent definition underlying the uniform groupings of creditors. The reasons for prompt settlement of the claims of preferential creditors usually acknowledged in a

composition with creditors thus lose any systematic reference, being overcome by the assessments made by the Extraordinary Administrator in the composition proposal and by the mediation of the opposing interests achieved on finalizing the restructuring plan: it is thus plain how such mediation necessarily makes reference to areas of legal transaction such as those introduced for the first time by the cited law, with the possibility of dividing the creditors into groupings, i.e. areas still consistent with the system of grading credits, albeit inspired by setting different terms and conditions of fulfilment for "legal code groupings" of credit.

The information notice, in the text transmitted by notification dated 29th April 2005 and amended by note dated 19th May 2005, was cleared by the Securities Supervisor by ruling no.5038655 dated 26 maggio 2005 and published on 28 May 2005 according to law. Likewise, the information notice obtained the mutual recognition of the Securities Supervisors of the foreign states of Denmark, Germany, Luxembourg, Netherlands, United Kingdom and Sweden, thereby enshrining the legality of the composition procedure under examination with reference to the provisions of the T.U.F., part IV, arts. 91 et seq. and CONSOB Regulation no. 11971 dated 14 May 1999 and subsequent amendments.

In this connection, the panel of Judges notes that, albeit lacking any direct legal reference in the Decree-Law no. 347/03 and subsequent amendments, given its univocal content, the composition proposal under examination can be traced to the provisions of Parte IV, Title II of the T.U.F. (*appeal to public savings*) in so far as it envisages a debt equity swap for the purposes of settlement on completion of the composition procedure. Nor can it be alleged in the opposite sense that the intervention of the Legal Authority in the proceeding concluding the composition agreement overcomes or in some way absorbs all specific regulations provided for financial brokerage for transactions of movable assets, since:

Court of Parma - judgement approving the composition with creditors ex art. 4 bis, Decree-Law no. 347/03 and subsequent amendments

- a. the composition procedure ex art. 4 *bis*, Decree-Law no. 347/03 and subsequent amendments moves from the area of negotiation pertaining to the mechanisms governing the formation of an agreement, in the case at issue further enhanced by the principle of implicit approval and the working of the majority: the intrinsic intentional aspects of the decision-making process involving the creditors taking part in the voting remains unchanged, thereby giving rise to the need for monitoring specified by the T.U.F. on the grounds of sector legislation governing the exchange of movable assets (cfr. in this sense, notifications no.3021235 of 3rd April 2003 and no.3033091 dated 10th May 2003 by the Securities Supervisor);
- b. from the standpoint under examination, the comments expressed on the instrumental nature of the composition proposal with respect to the restructuring plan meet with additional significant confirmation: transfer of the settlement effect to an exchange of shares in the Assumptor company raises the need to ensure the creditors en masse of the information required to formulate a "*reasoned judgement on the assets and economic and financial situation and on the evolution of the issuer's business*" (thus art. 94, clause 2, T.U.F.), in so far as the adequacy of the *datio in solutum* proposed should be assessed by the creditors by joint reference to the recovery ratio and to the business of the issuer company, as defined following the restructuring plan;
- c. lacking an explicit legal provision, any other interpretative reconstruction would end up transferring to the Judicial Authorities a function pertaining to the markets Securities Supervisor (cfr. art. 5, clause 3, T.U.F.); a conclusion even more erroneous considering the subject-matter of the judgement hereto, constrained to ascertainment of the lawfulness of the proceeding and the voting

procedures, excluding any consideration of any merits involved by the composition procedure, including the value of the information contained in the same.

2. Counting of votes and outcome of voting

In accordance with art 4 *bis*, clause 8, Decree-Law no. 347/03 and subsequent amendments, “*the composition with creditors is approved if it is carried with the favourable vote of the creditors representing the majority of the claims admitted to voting*”: hence it must be ascertained that the prescribed majority was reached, with reference to the expiry of the time limit assigned to creditors for voting, in linear application of the provisions of the said law and those of art. 128, clause 3, Royal Decree no. 267/42.

Identification of the above-mentioned time limit allows us to consider for the purposes of the legal majority:

- a. late claims formulated by creditors entitled to vote, as defined in the pending time limit for a sum of € 1.708.344,53;
- b. waivers of preferential and privileged debts received within the specified time limit for a sum of € 48.447.286,69;
- c. waivers and set-offs of claims admitted in the lists received within the time limit provided for a sum of € 212.205.399,99;
- d. registrations in the list of creditors made within the specified time limit for a sum of € 10.865.053,19.

The admission of creditors en masse provided by art. 4 *bis*, clause 6, Decree-Law no.347/03 and subsequent amendments, with reference to financial instruments not allowing identification of the names of qualified subjects, together with identification by the Court Judges of the criteria governing the right to vote on the part of the holders of such financial

instruments, account for the ordinary participation of the creditors in voting according to the rules pertaining to ordinary creditors.

For the purposes of calculating the legal majority, having considered the outcome of drawing up the lists of creditors, the total value of creditors admitted and/or admitted with reservation to voting is determined in the sum of € 19.953.072.010,46, to which sum should be added, for the reasons specified above, the preferential and/or privileged credits for which prompt waiver was received, the sum of final late provable debts, and registrations in the lists of creditors, and from which should be deducted waivers and set-offs of credits admitted: the total amount is hence determined by this panel of judges in the sum of €19.801.887.294,88.

Counting of votes disclosed 52,279 votes expressed by bondholders through clearing systems and brokers involved, and 1,793 voting slips received by the Court according to ordinary procedures: 218 voting slips received late were not counted, given the peremptory time limit fixed for voting. Counting of votes yielded the following outcomes:

- a. votes in favour for a sum equal to € 6.288.869.488,94;
- b. votes against for a sum equal to € 437.158.179,59;
- c. votes implicitly in favour for a sum equal to € 7.845.953.779,58: according to art. 4 *bis*, clause 8, Decree-Law no.347/03 and subsequent amendments, creditors not expressing their vote (or not entitled to vote within the time limit fixed by the Court Judges) must be deemed in favour of the composition.

The total sum of votes in favour is equal to € 14.134.823.268,52 corresponding to 71.38% of the creditors admitted to voting: therefore the legal majority can be deemed to be reached and amply exceeded, resulting in an interruption of any further vote counting in so far as irrelevant for the purposes of the proceeding hereto and in conflict with the grounds of dispatch inherent in the law hereto, also having considered the difficulties expressed by

Court of Parma - judgement approving the composition with creditors ex art. 4 bis, Decree-Law no.347/03 and subsequent amendments

Servizio Titoli s.p.a. in its report dated 27th September 2005 in the accurate reconstruction of the remaining votes sent electronically.

The Court must therefore approve the composition with creditors with takeover by the new company (*Assuntore*) of the position of the Extraordinary Administrator (cfr. in express terms, Court of Cassation no. 4535 dated 30th July 1984; Court of Cassation no. 5728 dated 5th November 1979; Court of Cassation no. 1180 dated 9th March 1978) and connected production of the compulsory and transferring effects thereby analytically deduced.

3. Compulsory and transferring effects of the composition proposal

In particular, as regards the compulsory effects, by express terms of the composition (cfr. chapter III, par. 5.3, of the composition proposal), the takeover shall be made as an exclusive assumption of debt, with consequent release of the companies participating in the composition proposal from both the obligation to pay privileged and preferential creditors and the obligation to pay unsecured creditors greatly reduced by the composition, all debts to be transferred to the new company (*Assuntore*) which by legal effect shall take over the following obligations:

- a. within 180 days after publication of the judgement approving the composition with creditors, to pay the preferential and privileged creditors in so far as admitted and not contested, except for the provisions of the following point b);
- b. the assumption of debt relating to the severance pay (T.F.R.) and any other entitlement due to the employees of the companies involved in the composition whose employment contracts shall be transferred to the new company (*Assuntore*) according to the terms and conditions specified in the restructuring plan;
- c. the obligation to pay the unsecured creditors according to the terms and conditions outlined in the composition proposal.

By express provision of the composition made by the Extraordinary Administrator in formulating the proposal, the creditors shall retain their action as a whole against joint and several debtors, guarantors and recourse debtors participating in the composition proposal, in accordance with the general rule provided by arts. 135 and 184 Royal decree no.267/42 (cfr. chapter III, par. 5.3, letter c) of the composition proposal).

For the purposes of full determination of the assignment criteria governing performance of the obligation towards the unsecured creditors by the new company (*Assuntore*), in line with the composition, it is noted that the judgement approving the composition with creditors shall immediately reduce any debt for a cause, title or reason prior to opening the composition procedure, by virtue of the partial release of credit made by the creditors on expressing their consent: in the case at issue, it appears innate to the very proposal that the release effects of consent shall – with independent reference to each of the claims made by reason of the provisions of arts. 135 and 184 Royal decree no.267/42 – primarily touch on the accessories and only secondarily and possibly on the capital, consequently saving the residual credit claimed, to which all resolving activity by the new company (*Assuntore*) should therefore be allocated.

In relation to the transferring effects, as the subject-matter of unification in the composition proposal, with express reference to the list of rights, assets, company groupings, contracts, participating interests and lawsuits in progress filed by the Extraordinary Administrator on 20th September 2005, subsequently amended and completed on 28th September 2005, the same have been specified as follows:

- I. transfer to the new company (*Assuntore*), Parmalat s.p.a., with head offices in via Oreste Grassi no. 26, Collecchio (Parma), registered in the Companies Register of the Parma Chamber of Commerce, Industry, Agriculture and Crafts (C.C.I.A.A.) under no.04030970968, Tax code and VAT no. 04030970968, of
