## INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Intellectual Property Security Agreement dated September 11, 2006 is between SILICON VALLEY BANK ("Bank") and TALYST INC. ("Grantor").

### RECITALS

A. Bank will make advances to Grantor ("Loans") as described in the Loan and Security Agreement of approximate date herewith (the "Loan Agreement"), subject to, among other things, Grantor granting to Bank a security interest in its Copyrights, Trademarks, Patents, and Mask Works (as each of such terms is defined on Schedule I attached hereto).

B. Grantor has granted Bank a security interest in all of its right, title and interest, presently existing or later acquired to all the Collateral.

### AGREEMENT

1. Grantor grants Bank a security interest in all of its right, title and interest in its Intellectual Property Collateral (such as the Copyrights, Patents, Trademarks and Mask Works listed on Schedules A, B, C, and D), and all proceeds (such as license royalties and proceeds of infringement suits), the right to sue for past, present and future infringements rights throughout the world and all re-issues, divisions continuations, renewals, extensions and continuations-in-part.

2. This security interest is granted in conjunction with the security interest granted under the Loan Agreement. Bank's rights and remedies in the security interest are in addition to those in the Loan Agreement and the other Loan Documents, and those available in law or equity. Bank's rights, powers and interests are cumulative with every right, power or remedy provided here. Bank's exercise of its rights, powers or remedies in this Agreement, the Loan Agreement or any other Loan Document, does not preclude the simultaneous or later exercise of any or all other right, power or remedy.

Schedule I

**"Copyrights"** are all copyright rights, applications or registrations and like protections in each work or authorship or derivative work, whether published or not (whether or not it is a trade secret) now or later existing, created, acquired or held.

**"Patents"** are patents, patent applications and like protections, including improvements, divisions, continuations, renewals, reissues, extensions and continuations-in-part of the same.

**"Trademarks"** are trademark and service mark rights, registered or not, applications to register and registrations and like protections, and the entire goodwill of the business of Assignor connected with the trademarks.

**"Mask Works"** are all mask works or similar rights available for the protection of semiconductor chips, now owned or later acquired.
