FIRST AMENDED AND RESTATED
INTELLECTUAL PROPERTY ASSIGNMENT

This FIRST AMENDED AND RESTATED ASSIGNMENT OF INTELLECTUAL PROPERTY dated as of this 29th day of November, 2006 ("IP Assignment"), is entered into by and among StyroChem Delaware, Inc., a Delaware corporation ("Assignor") and New StyroChem U.S., Ltd., a Delaware corporation ("Assignee"). Capitalized terms used, but not defined herein, shall have the meanings ascribed to such terms in the Asset Purchase Agreement (as defined below).

WHEREAS, Assignor and Assignee entered into that certain Assignment of Intellectual Property Assignment, dated November 29, 2006 (the "Prior Agreement") whereby Assignor assigned certain intellectual property to Assignee;

WHEREAS, Assignor and Assignee wish to amend and restate the Prior Agreement to clarify the intellectual property assigned by Assignor to Assignee; and

WHEREAS, pursuant to the terms more fully set forth below, Assignee desires to purchase, acquire and accept from Assignor, and Assignor desires to sell, transfer, convey and deliver at Assignee's direction, to the broadest extent permitted by Law, all of Assignor's right, title and interest in and to all (a) trademarks, service marks, trade names, service names, brand names, trade dress rights, logos, Internet domain names and corporate names and general intangibles of like nature, together with the good will associated with any of the foregoing and including all of those that are the subject of registrations, applications for registration and renewals that are listed on Appendix 1 attached hereto and incorporated herein by reference (collectively, the "Trademarks"); (b) patents and applications therefor, including continuations, divisionals, continuations-in-part, or reissues of patent applications and patents issuing thereon, including those patents and patent applications that are listed on Appendix 1 attached hereto and incorporated herein by reference (the "Patents"); (c) copyrights and registrations and applications therefor and works of authorship, and mask work rights, including those which are the subject of registrations, applications for registration and renewals that are listed on Appendix 1 attached hereto and incorporated herein by reference (the "Copyrights"); and (d) trade secrets and other confidential non-patented information (the "Confidential Information").

NOW THEREFORE, subject to the terms and conditions of the Asset Purchase Agreement and the Sale Order, Assignor and Assignee hereby amend and restate the Prior Agreement as follows:

Assignor hereby sells, transfers, conveys, and delivers to Assignee, its successors and assigns, and Assignee has agreed to purchase, acquire and accept from Assignor, all of Assignor's rights, title and interest in and to: (i) the Trademarks throughout the universe, including the registrations and applications thereof, and all goodwill of the business symbolized by and connected with the Trademarks and with respect to intent to use applications, Assignor is assigning the Trademarks as part of the entire business to which the Trademarks pertain as required by Section 15 U.S.C. 1060, the right to conduct business under the Trademarks, including the right to license others the right to conduct business under the Trademarks, (ii) Patents throughout the universe, including all inventions disclosed and claimed therein, and including, without limitation, the subject matter of all claims which may be obtained therefrom, rights of priority under the International Convention for the Protection of Industrial Property, the

Inter-American Convention Relating to Patents, Designs and Industrial Models, and any other international agreements to which the United States adheres, (iii) the Copyrights throughout the universe, including, without limitation, the right to exercise such rights in perpetuity in all media and by any manner and means now known or hereafter devised, and (iv) all rights to sue, counterclaim, and collect damages and payments for claims of past, present, and future infringements, unfair competition or misappropriations thereof, and all income, royalties, damages, and payments now or hereafter due or payable with respect to the Intellectual Property, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives.

Assignor agrees to execute and deliver at the request of Assignee, without further consideration, all papers, instruments of sale, transfer, conveyance, confirmation and assignment, and to perform any other reasonable acts Assignee reasonably deems necessary in order to vest or more effectively transfer, convey, assign or confirm all of Assignor's rights, title and interest in and to the Intellectual Property in or to Assignee, including all documents necessary to record in the name of Assignee the assignment of the Trademarks and Patents with the United States Patent and Trademark Office and the Copyrights with the United States Copyright Office and, with respect to any equivalent foreign rights, with any other appropriate foreign or international office or registrar.

Assignor hereby constitutes and appoints Assignee the true and lawful attorney of Assignor, with full power of substitution, in the name of Assignor or Assignee, but on behalf of and for the benefit of Assignee: (i) to demand and receive from time to time any and all of the Intellectual Property or rights thereunder and to make endorsements and give receipts and releases for and in respect of the same and any part thereof; (ii) to institute, prosecute, compromise and settle any and all Legal Proceedings that Assignee may deem proper in order to collect, assert or enforce any claim, right or title of any kind in or to the Intellectual Property; (iii) to defend or compromise any or all Legal Proceedings in respect of any of the Intellectual Property; and (iv) to do all such acts and things in relation to the matters set forth in the preceding clauses (i) through (iii) in relation to the Intellectual Property as Assignee shall deem desirable. Assignor hereby acknowledges that the appointment hereby made and the powers hereby granted are coupled with an interest and are not and shall not be revocable by it in any manner or for any reason. To the extent any of the Intellectual Property may not be transferred to Assignee, Assignor is hereby deemed to have granted to Assignee an exclusive, royalty free right and license to use the Intellectual Property from and after the Closing Date, to the broadest extent permitted by Law.

This IP Assignment and the covenants and agreements contained herein shall survive the Closing.

This Agreement is subject to, and shall be construed in accordance with, the Asset Purchase Agreement and the Sale Order, and in the event of a conflict between the provisions of this Agreement and the provisions of the Asset Purchase Agreement (insofar as such provisions relate to the rights and obligations of Assignor, on the one hand, and the Assignee, on the other hand) or the Sale Order, the provisions of the Asset Purchase Agreement or the Sale Order, as applicable, shall prevail.

This IP Assignment shall be governed by and construed in accordance with the laws of the State of Delaware applicable to contracts made and to be performed in such State without giving effect to any of the conflict of laws rules thereof.

This IP Assignment may be executed in any number of counterparts, each of which shall be deemed an original and all of which together shall constitute one and the same instrument.
