**QUALITYLOGIC TRADEMARKS**

For all declarations of use we need the following:

1. Confirmation that the mark is still being used in connection with the recited goods or services. Otherwise the unused goods/services need to be deleted from the registration.
2. Specimen demonstrating use of the mark in connection with the recited goods/services (just one representative sample is fine, we don't need a specimen for each recited good/service). For goods (Class 9), we need a photograph of the product, tag, label, sticker or other packaging material displaying the mark. For services (Class 42), we need advertising, flyers, brochures, website printouts or other promotional material displaying the mark and describing the services.

For all of the marks, we can also file a declaration of incontestability if the following is true:

- the mark has been in continuous use in commerce for a period of five years after the date of registration;
- there has been no final decision adverse to your claim of ownership of the mark for the goods or services, or to your right to register the mark or to keep the mark on the federal register;
- there is no proceeding involving these rights pending in the U.S. Patent and Trademark Office or in a court and not finally disposed of.
