TRADEMARK SECURITY AGREEMENT

This TRADEMARK SECURITY AGREEMENT, dated as of July 16, 2007, by RADIATOR SPECIALTY COMPANY, a North Carolina corporation ("Grantor"), in favor of BANK OF AMERICA, N.A., a national banking association, in its capacity as lender ("Lender").

WITNESSETH:

WHEREAS, pursuant to that certain Loan and Security Agreement dated as of the date hereof between Grantor and Lender (including all annexes, exhibits or schedules thereto, and as from time to time amended, restated, supplemented or otherwise modified, the "Agreement"), Lender has agreed to make the Loans and to incur LC Obligations for the benefit of Grantor;

WHEREAS, Lender is willing to make the Loans and to incur LC Obligations as provided for in the Agreement, but only upon the condition, among others, that Grantor execute and deliver to Lender, for itself, this Trademark Security Agreement;

NOW, THEREFORE, in consideration of the premises and mutual covenants herein contained and for other valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby agrees as follows:

1. DEFINED TERMS.

(a) As used herein, the following terms shall have the meaning set forth below:

"Trademark License" means any written agreement, in which the Grantor now holds or hereafter acquires any right, title or interest, which agreement grants any license right in and to any Trademark (whether the Grantor is the licensee or the licensor thereunder) including, without limitation, licenses pursuant to which the Grantor has obtained the exclusive right to use a trademark owned by a third party, a sublicense to use a trademark, a distribution agreement relating to goods or services covered by one or more trademarks and the right to prepare for sale, sell or advertise for sale, all of the inventory now or hereafter owned by the Grantor and now or hereafter covered by such license agreements.

"Trademarks" means any of the following in which the Grantor now holds or hereafter acquires any right, title or interest: (a) any United States or foreign trademarks, trade names, corporate names, company names, business names, trade styles, trade dress, service marks, logos, other source or business identifiers, designs and general intangibles of like nature, now existing or hereafter adopted or acquired, all registrations and recordings thereof and any applications in connection therewith, including, without limitation, registrations, recordings and applications in the United States Patent and Trademark Office or in any similar office or agency of the United States, any State thereof or any other country, but not including any intent-to-use United States trademark applications for which an amendment to allege use or statement of use has not been filed

under 15 U.S.C. § 1051(c) or 15 U.S.C. § 1051(d), respectively, or if filed, has not been deemed in conformance with 15 U.S.C. § 1051(a) or examined and accepted, respectively, by the United States Patent and Trademark Office included; *provided* that upon such filing and acceptance, such intent-to-use applications shall be included (collectively, the "Marks"); (b) any reissues, extensions or renewals of any Marks, (c) the goodwill of the business symbolized by or associated with the Marks, (d) all domain names, (e) all means of manufacturing goods or offering services covered by the Marks, including, without limitation, trade secrets, formulas, recipes, customer lists, manufacturing processes, molds, designs, plans and prototypes, (f) any income, royalties, damages, claims and payments now and hereafter due and/or payable with respect to the Marks, including, without limitation, payments under all licenses entered into in connection with the Marks and damages, claims, payments and recoveries for past, present or future infringement and (g) any rights to sue for past, present and future infringements of the Marks.

(b) All capitalized terms used but not otherwise defined herein have the meanings given to them in the Agreement.

2. GRANT OF SECURITY INTEREST IN TRADEMARK COLLATERAL.

Grantor hereby grants to Lender a continuing first priority security interest in all of such Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired (collectively, the "Trademark Collateral"):

(a) all of its Trademarks and Trademark Licenses to which it is a party including those referred to on **Schedule I** hereto; and

(b) all products and proceeds of the foregoing, including, without limitation, any claim by such Grantor against third parties for past, present or future (i) infringement or dilution of any Trademark or Trademark licensed under any Trademark License or (ii) injury to the goodwill associated with any Trademark or any Trademark licensed under any Trademark License.

3. LOAN AND SECURITY AGREEMENT. The security interests granted pursuant to this Trademark Security Agreement are granted in conjunction with the security interests granted to Lender pursuant to the Agreement. Grantor hereby acknowledges and affirms that the rights, remedies and obligations of Lender with respect to the security interest in the Trademark Collateral made and granted hereby are more fully set forth in the Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

4. COVENANTS.

(a) Except as would not have an adverse effect on the value or enforceability of, or any rights of the Grantor or Lender in, any Trademark Collateral, Grantor shall (i) use commercially reasonable efforts to prosecute any Trademark pending as of the date hereof or thereafter, and (ii) promptly make applications for, register or cause to be registered (to the extent not already registered and consistent with good faith business judgment) any Trademark or Trademark License, (A) set forth in

Schedule I or (B) that individually or in the aggregate is, in the reasonable good faith judgment of Grantor, material to the conduct of the Grantor's business, with the United States Patent and Trademark Office, including, without limitation, in all such cases, the filing and payment of maintenance, registration and/or renewal fees, the filing of applications for renewal, affidavits of use, affidavits of noncontestability, the filing and diligent prosecution of opposition, interference and cancellation proceedings, and promptly responding to all United States Patent and Trademark Office requests and inquiries. Except as, in the reasonable good faith judgment of Grantor, could not reasonably be expected to have a materially adverse effect on the value or enforceability of, or any rights of the Grantor or Lender in, any Trademark Collateral, Grantor also agrees to preserve and maintain all rights in the Trademark Collateral. Any expenses incurred in connection with prosecution, registration and maintenance shall be borne by the Grantor. Grantor further agrees to retain experienced trademark attorneys for the filing and prosecution of all such applications and other proceedings when and if applicable. Except as, in the reasonable good faith judgment of Grantor, could not reasonably be expected to have a materially adverse effect on the value or enforceability of, or any rights of the Grantor or Lender in, any Trademark Collateral, Grantor shall not, without Lender's prior written consent, abandon any rights in or fail to pay any maintenance or renewal fee for any Trademark listed in **Schedule I** or breach, terminate, fail to renew or extend, or fail to perform any duties or obligations for any Trademark License listed in **Schedule I**. Grantor further agrees that it will not take any action, or permit any action to be taken by any Person to the extent that such Person is subject to its control, including licensees, or fail to take any action, which could, in the reasonable good faith judgment of the Grantor, materially and adversely affect the validity, priority, perfection or enforcement of the rights granted to Lender under this Trademark Security Agreement, and any such action if it shall take place shall be null and void and of no effect whatsoever. If the Grantor fails to comply with any of the foregoing provisions of this **Section 4**, Lender shall have the right (but shall not be obligated) to do so on behalf of the Grantor to the extent permitted by law, but at Grantor's expense, and Grantor hereby agrees, jointly and severally, to reimburse Lender in full for all expenses, including the fees and disbursements of counsel incurred by Lender in procuring, protecting, defending and maintaining the Collateral. In the event that the Grantor shall fail to pay when due any fees required to be paid by it hereunder, or shall fail to comply with any other duty under this Trademark Security Agreement, Lender may, but shall not be required to, pay, satisfy, discharge or bond the same for the account of the Grantor, and all monies so paid out shall be Obligations of Grantor repayable on demand, together with interest at the rate applicable to the Base Rate Loans under the Agreement.

(b) Grantor shall promptly advise Lender of any right, title or interest of the Grantor obtained after the date hereof in or to any Trademark or Trademark License not specified on **Schedule I** hereto to the extent such Trademark or Trademark License could reasonably be expected to be material to the business of the Grantor, in its reasonable good faith judgment, and Grantor hereby authorizes and appoints Lender as the Grantor's attorney-in-fact solely to the extent necessary to make any additional filings with respect to such newly obtained Trademarks and Trademark License as are necessary to protect and perfect the Liens granted to the Agent hereby. Grantor hereby authorizes

Lender to modify this Trademark Security Agreement by amending **Schedule I** to include any future Trademarks or Trademark Licenses that are Trademark Collateral under **Section 2** above. Lender will endeavor to provide copies of such amended **Schedule I** to Grantor, provided that, Lender's failure to provide such copies shall not constitute a breach of this Trademark Security Agreement nor render such amendments ineffective. In addition to any requirements in this Trademark Security Agreement for notification, Grantor shall also provide Lender with written notice of (i) any newly filed Trademark applications to the extent such Trademarks could, in the Grantor's good faith judgment, reasonably be expected to be material to the Grantor's business and (ii) any information or event that could, in the Grantor's good faith judgment, reasonably be expected to have a material adverse affect on the validity or enforceability of the Liens on any material portion of the Collateral.

(c) With respect to all Trademarks that in the good faith judgment of the Grantor are material to the Grantor's business or have a fair market value in excess of \$250,000, Grantor shall (i) protect, defend and maintain the validity and enforceability of all such current and future Trademarks, (ii) use its commercially reasonable efforts to detect material infringements of such Trademarks and promptly advise Lender in writing of material infringements detected and (iii) not allow any such Trademarks to be abandoned, forfeited or dedicated to the public. Grantor shall not commence, or cause to be commenced, any action, proceeding, lawsuit, mediation or arbitration relating to any material portion of the Trademark Collateral without the prior written consent of Lender, such consent not to be unreasonably withheld or delayed.

5. SECTION TITLES. The Section titles contained in this Agreement are and shall be without substantive meaning or content of any kind whatsoever and are not a part of the agreement between the parties hereto.

6. COUNTERPARTS. This Agreement may be executed in any number of counterparts, each of which shall collectively and separately constitute one and the same agreement.
