INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*IP Security Agreement*") dated as of August 16, 2007, is made by the Persons listed on the signature pages hereof (collectively, the "*Grantors*") in favor of CITIBANK, N.A., as collateral agent (the "*Collateral Agent*") for the Secured Parties (as defined in the Credit Agreement referred to below).

WHEREAS, Carrix, Inc., a Washington corporation, and the guarantors named therein have entered into a Credit Agreement dated as of August 16, 2007 (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*Credit Agreement*"), with Citibank, N.A. as Administrative Agent, Citibank, N.A., as Collateral Agent, and the Lender Parties party thereto. Terms defined in the Credit Agreement and not otherwise defined herein are used herein as defined in the Credit Agreement.

WHEREAS, as a condition precedent to the making of Advances and the issuance of Letters of Credit by the Lender Parties under the Credit Agreement and the entry into Secured Hedge Agreements by the Secured Hedge Banks from time to time, each Grantor and the other grantors party thereto have executed and delivered that certain Security Agreement dated August 16, 2007 among the Grantors, the other grantors party thereto and the Collateral Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*Security Agreement*").

WHEREAS, under the terms of the Security Agreement, the Grantors have granted to the Collateral Agent, for the ratable benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed as a condition thereof to execute this IP Security Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Collateral Agent for the ratable benefit of the Secured Parties a security interest in all of such Grantor's right, title and interest in and to the following (the "*Collateral*"):

- (a) the patents and patent applications set forth in Schedule A hereto (the "*Patents*");
- (b) the trademark and service mark registrations and applications set forth in Schedule B hereto, together with the goodwill symbolized thereby (the "*Trademarks*");
- (c) the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the "*Copyrights*");

(d) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;

provided that, notwithstanding anything to the contrary in this IP Security Agreement, this IP Security Agreement shall not constitute a grant of a security interest in any Collateral that would result in the forfeiture or impairment of any Grantor's rights in such property including, without limitation, (i) any Trademark applications filed in the United States Patent and Trademark Office on the basis of such Grantor's "intent-to-use" such Trademark, unless and until acceptable evidence of use of such Trademark has been filed with the United States Patent and Trademark Office pursuant to Section 1(c) or Section 1(d) of the Lanham Act (15 U.S.C. 1051, et seq.), to the extent that granting a lien in such Trademark application prior to such filing would adversely affect the enforceability or validity of such Trademark application, and (ii) any contract or agreement that by its terms would be violated, breached or terminated by an assignment as Collateral hereunder (other than to the extent that such terms prohibiting such assignment in any contract or agreement would be rendered ineffective pursuant to Sections 9-406 or 9-408 of the UCC or any successor provision or provisions, and provided that each Grantor shall use commercially reasonable efforts to ensure that each material contract or agreement entered into after the date hereof permits an assignment as Collateral hereunder).

SECTION 2. Security for Obligations. The grant of a security interest in, the Collateral by each Grantor under this IP Security Agreement secures the payment of all Obligations of such Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, this IP Security Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations and that would be owed by such Grantor to any Secured Party under the Loan Documents but for the fact that such Secured Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Loan Party.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Collateral are more fully set forth

in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 6. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

IN WITNESS WHEREOF, each Grantor has caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.

Signed for and on behalf of CARRIX, INC., SSA CONTAINERS, INC., SSA MARINE, INC. and TIDEWORKS TECHNOLOGY, INC.
