SECOND LIEN INTELLECTUAL PROPERTY SECURITY AGREEMENT

THIS SECOND LIEN INTELLECTUAL PROPERTY SECURITY AGREEMENT, dated as of June 26, 2007, is made by each of the entities listed on the signature pages hereof (each a "Grantor" and, collectively, the "Grantors"), in favor of General Electric Capital Corporation ("GE Capital"), as administrative agent and collateral agent (in such capacity, together with its successors and permitted assigns, the "Administrative Agent") for the Lenders and the L/C Issuers (as defined in the Second Lien Credit Agreement referred to below).

WITNESSETH:

WHEREAS, pursuant to the Second Lien Credit Agreement, dated as of June 26, 2007 (as amended, restated, supplemented or otherwise modified from time to time, the "Second Lien Credit Agreement"), among the Borrower, Holdings and the Lenders from time to time party thereto and Administrative Agent and the Lenders have severally agreed to make extensions of credit to the Borrower upon the terms and subject to the conditions set forth therein;

WHEREAS, each Grantor has agreed, pursuant to a Second Lien Guaranty and Security Agreement of dated as of June 26, 2007 herewith in favor of the Administrative Agent (the "Guaranty and Security Agreement"), to guarantee the Obligations (as defined in the Second Lien Credit Agreement) of the other Loan Parties; and

WHEREAS, all of the Grantors are party to the Guaranty and Security Agreement pursuant to which the Grantors are required to execute and deliver this Intellectual Property Security Agreement.

NOW, THEREFORE, in consideration of the premises and to induce the Lenders and the Administrative Agent to enter into the Second Lien Credit Agreement and to induce the Lenders to make or continue to make their respective extensions of credit to the Borrower thereunder, each Grantor hereby agrees with the Administrative Agent as follows:

Section 1. Defined Terms. Capitalized terms used herein without definition are used as defined in the Guaranty and Security Agreement.

Section 2. Grant of Security Interest in Intellectual Property Collateral. Each Grantor, as collateral security for the prompt and complete payment and performance when due (whether at stated maturity, by acceleration or otherwise) of the Secured Obligations on the terms set forth in the Loan Documents, hereby mortgages, pledges and hypothecates to the Administrative Agent, for the benefit of the Secured Parties, and grants to the Administrative Agent, for the benefit of the Secured Parties, a Lien on and security interest in, all of its right, title and interest in, to and under the following Collateral of such Grantor (the "Intellectual Property Collateral"):

(a) Copyrights.

(i) all of its Copyrights and registrations and applications for registration thereof and all registered IP Licenses and applications therefor providing for the grant to such Grantor of any right under any Copyright, including, without limitation, those referred to on Schedule 1A hereto;

(ii) all renewals, reversions and extensions of the foregoing;

(iii) all income, royalties, proceeds and Liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof, other than, in the case of clauses (i) through (iii), with respect to Excluded Property.

(b) Patents.

(i) all of its registered Patents and applications for registration therefor and all registered IP Licenses and applications thereof providing for the grant to such Grantor of any right under any Patent, including, without limitation, those referred to on Schedule 1B hereto;

(ii) all reissues, reexaminations, continuations, continuations-in-part, divisionals, renewals and extensions of the foregoing;

(iii) all income, royalties, proceeds and Liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof, other than, in the case of clauses (i) through (iii), with respect to Excluded Property.

(c) Trademarks.

(i) all of its Trademarks and applications for registration thereof and all registered IP Licenses and applications thereof providing for the grant to such Grantor of any right under any Trademark, including, without limitation, those referred to on Schedule 1C hereto;

(ii) all renewals and extensions of the foregoing;

(iii) all goodwill of the business connected with the use of, and symbolized by, each such Trademark; and

(iv) all income, royalties, proceeds and Liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof, other than, in the case of clauses (i) through (iii), with respect to Excluded Property.

Section 3. Guaranty and Security Agreement. The security interest granted pursuant to this Intellectual Property Security Agreement is granted in conjunction with the security interest granted to the Administrative Agent pursuant to the Guaranty and Security Agreement and each Grantor hereby acknowledges and agrees that the rights and remedies of the Administrative Agent with respect to the security interest in the Intellectual Property Collateral made and granted hereby are more fully set forth in the Guaranty and Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

Section 4. Grantor Remains Liable. Each Grantor hereby agrees that, anything herein to the contrary notwithstanding, such Grantor shall assume full and complete responsibility for the prosecution, defense, enforcement or any other necessary or desirable actions in connection with such Grantor's Intellectual Property Collateral and IP Licenses subject to a security interest hereunder.

Section 5. Counterparts. This Intellectual Property Security Agreement may be executed in any number of counterparts and by different parties in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Signature pages may be detached from multiple separate counterparts and attached to a single counterpart.
