This AMENDED AND RESTATED INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*IP Security Agreement*"), dated as of March 29, 2005, is made by the Persons listed on the signature pages hereof (collectively, the "*Grantors*") in favor of General Electric Capital Corporation, as collateral agent (the "*Collateral Agent*") for the Secured Parties (as defined in the Credit Agreement referred to below). Any capitalized term used herein and not otherwise defined has the meaning set forth in the Credit Agreement.

WHEREAS, the Grantors, the Collateral Agent and the other parties named therein have entered into the Amended and Restated Credit Agreement, dated as of March 29, 2005 (as may be amended from time to time, the "*Credit Agreement*");

WHEREAS, as a condition precedent to the Amendment Effective Date, each Grantor has executed and delivered that certain Amended and Restated Security Agreement, dated as of March 29, 2005, made by the Grantors to the Collateral Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*Security Agreement*"); and

WHEREAS, under the terms of the Security Agreement, the Grantors have granted and ratify, acknowledge, confirm and continue their grant of a security interest in, among other property, certain intellectual property of the Grantors to the Collateral Agent for the ratable benefit of the Secured Parties, and have agreed as a condition thereof to execute this IP Security Agreement covering such intellectual property for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

**SECTION 1. Grant of Security.** Subject to the terms and conditions of the Intercreditor and Subordination Agreements, each Grantor hereby ratifies, acknowledges, confirms and continues its grants to the Collateral Agent for the ratable benefit of the Secured Parties (subject to the terms of this IP Security Agreement) of a security interest in and to all of such Grantor's right, title and interest in and to the following (the "*Collateral*");

- (a) the United States international, and foreign patents and patent applications set forth in Schedule A hereto (as such Schedule A may be supplemented from time to time by supplements to the Security Agreement and this IP Security Agreement, each such supplement being in substantially the form of Exhibit D to the Security Agreement (an "*IP Security Agreement Supplement*"), executed and delivered by such Grantor to the Collateral Agent from time to time), together with all reissues, divisions, continuations, continuations-in-part, extensions and reexaminations thereof, and all rights therein provided by international treaties or conventions (the "*Patents*");

(b) the United States and foreign trademark and service mark registrations and applications set forth in Schedule B hereto (as such Schedule B may be supplemented from time to time by IP Security Agreement Supplements executed and delivered by such Grantor to the Collateral Agent from time to time) (the "*Trademarks*");

(c) the United States and foreign copyright registrations and applications set forth in Schedule C hereto (as such Schedule C may be supplemented from time to time by IP Security Agreement Supplements executed and delivered by such Grantor to the Collateral Agent from time to time) (the "*Copyrights*");

(d) any and all claims for damages for past, present and future infringement, misappropriation or breach with respect to the Patents, Trademarks and Copyrights, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(e) any and all proceeds of the foregoing.

Notwithstanding anything in this Section 1 or any other provision of this Agreement to the contrary, the Collateral shall not include: any general intangibles or other rights or property arising under or subject to any contracts, instruments, licenses, permits or other documents (including, without limitation, the Assigned Agreements referred to in the third sentence of Section 8(g) of the Security Agreement) as to which the grant of a security interest would constitute a violation of a valid and enforceable restriction (whether arising by contract or under law or governmental regulation) in favor of a third party (including a governmental authority) on such grant or a violation of law or governmental regulation, unless and until any required consents shall have been obtained.

SECTION 2. Security for Obligations. The pledge and the grant of a security interest in, and the continuance of the pledge and the grant of a security interest in, the Collateral by each Grantor under this IP Security Agreement secures the payment of all Obligations of such Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise.

The parties hereto intend to maintain the validity, effectiveness, enforceability, perfection and priority of the Collateral Documents delivered under the Original Second Lien Credit Agreement (the "*Original Security Documents*") and this IP Security Agreement is intended, inter alia, to extend the obligations and indebtedness secured by the security interests and pledges created and affected by the Original Security Documents, in each case, except as specifically provided herein, including, without limitation, in the last paragraph of Section 1, without terminating, limiting, modifying or otherwise affecting the validity, effectiveness, enforceability, perfection and priority of the security interests or the pledges created and affected in respect thereof. To the extent that any security interest or pledge granted pursuant to the Original Security Documents relates to collateral in which the Grantors have previously granted a security interest to the Collateral Agent, this IP Security Agreement shall, except as specifically provided herein, including, without limitation, in the last paragraph of Section 1, confirm the validity, effectiveness, enforceability and continuation of such security interest or pledge as

against the Grantors. All of the terms and provisions of the Original Security Documents are hereby confirmed and ratified in all respects, except as specifically modified herein.

Without limiting the generality of the foregoing, this IP Security Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations and would be owed by such Grantor to any Secured Party under the Loan Documents but for the fact that they are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Loan Party.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner of Patents and Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 6. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

SECTION 7. Intercreditor and Subordination Agreements. Notwithstanding anything contained herein to the contrary, this Agreement and the rights and obligations of the parties hereunder are subject to the terms and conditions of the Intercreditor and Subordination Agreements.

IN WITNESS WHEREOF, each Grantor has caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
