TRADEMARK

REEL: 003668 FRAME: 0027

RECORDED: 11/28/2007

Called USPTO 10/10/07 and TICRS means "Trademark Image Capture & Retrieval System" and all it means is that USPTO is capturing any images of documents and samples that go with the file...basically they are behind in their work and they are just catching up on making the files complete.
 Update on "Matorka"...Ritter and his team started to trademark "ibattery" in 1999 and then abandoned it...and IBattery.com IB (the logo) was originally registered under Matorka's name but we changed it and the current owner is IBattery.com/Teterboro address).
