WHEREAS, Grantor holds all right, title and interest in and to, the letter patents, design patents and utility patents listed on the annexed Schedule 1-B, which patents are issued or applied for in the United States Patent and Trademark Office (the "Patents"); and

WHEREAS, Grantor, together with its parent Holden Industries, Inc., a Delaware corporation ("Parent") and certain other subsidiaries of Parent, has entered into a Loan and Security Agreement, dated as of December 28, 2007 (as amended, restated, supplemented or otherwise modified from time to time, the "Loan Agreement"), with various lending institutions (such lending institutions, together with their respective successors and assigns, are collectively referred to as the "Banks" and individually as a "Bank"), and JPMorgan Chase Bank, N.A., a national banking association, with offices at 10 South Dearborn Street, Floor 34, Chicago IL 60603-2003, individual as a Bank and as administrative agent and as collateral agent for the Banks (in such capacity, together with any successors and assigns, the "Grantee"); and

WHEREAS, pursuant to the Loan Agreement, the Grantor has granted to the Grantee for the benefit of the Agent and the Banks a continuing security interest in all right, title and interest of the Grantor in, to and under the (a) Trademarks, and the applications and registrations thereof, and (b) under the Patents and the applications and registrations thereof, and all proceeds thereof and all proceeds thereof, including, without limitation, any and all causes of action which may exist by reason of infringement thereof and any and all damages arising from past, present and future violations thereof (the "IP Collateral"), to secure the payment, performance and observance of the Liabilities (as defined in the Loan Agreement);

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor hereby grants to Grantee, for the benefit of the Agent and the Banks (as such terms are defined in the Loan Agreement), a continuing security interest in the IP Collateral to secure the prompt payment, performance and observance of the Liabilities.

Whenever possible, each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement shall be prohibited by or invalid under applicable law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Agreement.
