EXECUTION VERSION

TRADEMARK ASSIGNMENT

THIS TRADEMARK ASSIGNMENT ("Assignment"), effective as of this 31st day of August 2007 ("Effective Date"), is from GENERAL ELECTRIC COMPANY, a corporation organized and existing under the laws of the State of New York ("Assignor"), to SABIC INNOVATIVE PLASTICS IP B.V., a corporation organized and existing under the laws of The Netherlands ("Assignee").

WHEREAS, Assignor, SABIC Innovative Plastics Holding B.V. (formerly known as SABIC Engineering Plastic Holding B.V. i.o.) and SABIC Holding Europe B.V. previously entered into the Stock and Asset Purchase Agreement (as amended, restated or otherwise modified, the "SAPA"), dated May 21, 2007;

WHEREAS, Assignor is the owner of the trademarks, trademark applications and/or trademark registrations listed in the attached Schedule A (the "Assigned Trademarks"); and

WHEREAS, Assignee desires to acquire the Assigned Trademarks, and the goodwill of the business with which the Assigned Trademarks are used and which is symbolized by the Assigned Trademarks, and Assignor desires to assign the Assigned Trademarks and such goodwill to Assignee.

NOW, THEREFORE, for good and valuable consideration, the sufficiency and receipt of which is hereby acknowledged:

1. Assignor does hereby sell, assign, transfer, convey and deliver unto the Assignee, its successors and assigns, its entire worldwide right, title and interest, whether statutory or common law rights, in and to the Assigned Trademarks and the registrations thereof including, without limitation, the right to any renewals and extensions that may be granted thereon, the right to prosecute any applications therefor, together with the goodwill of the business with which the Assigned Trademarks are used and which is symbolized by the Assigned Trademarks, the same to be held and enjoyed by Assignee for its own use and enjoyment and the use and enjoyment of its successors, assigns or other legal representatives, as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made, as assignee of its entire right, title and interest therein and in and to all income, royalties, damages and payments now or hereafter due or payable with respect thereto in and to all causes of action (either in law or in equity); together with the right to sue, counterclaim, and recover for past, present and future infringement of the rights assigned or to be assigned under this Assignment, in all cases under this Paragraph 1 subject to the terms and conditions of the SAPA.
2. This Assignment is binding upon, and inures to the benefit of, the parties and their respective legal representatives, successors and assigns.

3. Assignor hereby requests the U.S. Commissioner of Patents and Trademarks and/or the applicable foreign authorities to record this Assignment.
4. All questions concerning the construction, validity and interpretation of this Assignment and the performance of the obligations imposed by this Assignment shall be governed by, and construed in accordance with, the laws of the State of New York without regard to the choice of law principles thereof other than Sections 5-1401 and 5-1402 of the General Obligations Law of the State of New York
5. Upon reasonable request by Assignee, and at a reasonable cost to be shared equally by Assignee and Assignor, Assignor will execute additional documents and take other action as may be necessary or desirable to record or memorialize the assignments of the Assigned Trademarks set forth herein, and to vest in Assignee such right, title, and interest in and to the Assigned Trademarks as granted to Assignee.
6. No waiver, modification or change of any of the provisions of this Assignment shall be valid unless in writing and signed by the party against whom such claimed waiver, modification or change is sought to be enforced.
