**INTELLECTUAL PROPERTY  
REVOLVING FACILITY SECURITY AGREEMENT**

This INTELLECTUAL PROPERTY REVOLVING FACILITY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*Revolving Facility IP Security Agreement*") dated January 31, 2008, is made by the Persons listed on the signature pages hereof (collectively, the "*Grantors*") in favor of CITICORP USA, INC., as collateral agent (the "*Collateral Agent*") for the Secured Parties (as defined in the Credit Agreement referred to below).

WHEREAS, Dana Holding Corporation, a Delaware corporation, and the Guarantors (as defined in the Credit Agreement referred to below) have entered into a Revolving Credit and Guaranty Agreement, dated as of January 31, 2008 (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*Credit Agreement*"), with Citicorp USA Inc., as Administrative Agent and as Collateral Agent, and the Lenders party thereto. Terms defined in the Credit Agreement and not otherwise defined herein are used herein as defined in the Credit Agreement and capitalized terms used herein and not defined herein or in the Credit Agreement have the meanings ascribed to such terms in the Revolving Facility Security Agreement (as defined below).

WHEREAS, as a condition precedent to the making of Advances by the Lender Parties under the Credit Agreement and the entry into Secured Hedge Agreements by the Hedge Banks from time to time, each Grantor has executed and delivered that certain Revolving Facility Security Agreement, dated January 31, 2008, made by the Grantors to the Collateral Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the "*Revolving Facility Security Agreement*").

WHEREAS, under the terms of the Revolving Facility Security Agreement, the Grantors have granted to the Collateral Agent, for the ratable benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed as a condition thereof to execute this Revolving Facility IP Security Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Collateral Agent for the ratable benefit of the Secured Parties a security interest in all of such Grantor's right, title and interest in and to the following (the "*Collateral*"):

- (a) the patents and patent applications set forth in Schedule A hereto (the "*Patents*");
- (b) the trademark and service mark registrations and applications set forth in Schedule B hereto (*provided* that no security interest shall be granted in United States intent-to-use trademark applications until the earlier of (x) the filing of a statement of use therefore or (y) the issuance of a registration thereon, the goodwill symbolized thereby) (the "*Trademarks*");
- (c) all copyrights, whether registered or unregistered, now owned or hereafter acquired by such Grantor, including, without limitation, the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the "*Copyrights*");
- (d) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or

conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;

(e) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover proceeds arising from such damages; and

(f) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral or arising from any of the foregoing.

## SECTION 2. Security for Obligations.

(a) The grant of a security interest in, the Collateral by each Grantor under this Revolving Facility IP Security Agreement secures the payment of all Obligations of such Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, this Revolving Facility IP Security Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations and that would be owed by such Grantor to any Secured Party under the Loan Documents but for the fact that such Secured Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Loan Party.

(b) Notwithstanding anything herein to the contrary, the Liens and security interest granted to the Collateral Agent hereunder for the benefit of the Secured Parties pursuant to this Revolving Facility IP Security Agreement, and the exercise of any right or remedy by the Collateral Agent for the benefit of the Secured Parties hereunder are subject to the provisions of that certain Intercreditor Agreement dated as of January 31, 2008 (the "*Intercreditor Agreement*") among Citicorp USA, Inc. ("*CUSA*"), as Term Facility Collateral Agent (as defined in the Intercreditor Agreement), CUSA, as Term Facility Administrative Agent (as defined in the Intercreditor Agreement), CUSA, as Revolving Facility Collateral Agent and as Revolving Facility Administrative Agent (as defined in the Intercreditor Agreement), the Borrower and such other parties as may be added thereto from time to time in accordance with the terms thereof and as the Intercreditor Agreement may be amended or otherwise modified from time to time in accordance with the terms thereof. As between (i) the lender parties under that certain Term Facility Credit and Guaranty Agreement, dated as of January 31, 2008, among the Borrower, the Guarantors party thereto, the lender parties party thereto, and CUSA, as administrative agent, and (ii) the Lender Parties under the Credit Agreement, in the event of any conflict between the terms of the Intercreditor Agreement and this Revolving Facility IP Security Agreement, the terms of the Intercreditor Agreement shall govern and control.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this Revolving Facility IP Security Agreement.

SECTION 4. Execution in Counterparts. This Revolving Facility IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Delivery of an executed counterpart of a signature page to this Revolving Facility IP Security Agreement by telecopier

or other electronic transmission shall be effective as delivery of an original executed counterpart of this Revolving Facility IP Security Agreement.

SECTION 5. Grants, Rights and Remedies. This Revolving Facility IP Security Agreement has been entered into in conjunction with the provisions of the Revolving Facility Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Collateral are more fully set forth in the Revolving Facility Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. To the extent there is any conflict with the terms of this Revolving Facility IP Security Agreement and the Revolving Facility Security Agreement, the terms of the Revolving Facility Security Agreement shall control.

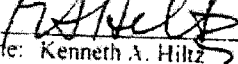

SECTION 6. Termination. This Revolving Facility IP Security Agreement shall terminate concurrently with the termination of the Revolving Facility Security Agreement in accordance with the terms thereof.

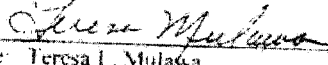

SECTION 7. Governing Law. This Revolving Facility IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

*[signature page follows]*

IN WITNESS WHEREOF, each Grantor has caused this Revolving Facility IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
