WHEREAS, on or about March 14, 2008, Assignor filed Voluntary Petitions under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Massachusetts (Western Division) ("the U.S. Bankruptcy Court");

WHEREAS, the U.S. Bankruptcy Court approved the Asset Purchase Agreement between Assignor and Assignee dated April 9, 2008 (as amended, "the Asset Purchase Agreement");

WHEREAS, Assignor is the owner of intellectual property, including inventions, U.S. and foreign patents and patent applications, technology and know-how, and licenses to patents, and Assignor, individually or collectively, has adopted, used, is using and is the owner of trademarks and domain names, and is the owner of goodwill residing therein, and of U.S. and foreign trademark and domain name registrations and applications therefor. WHEREAS, pursuant to the Asset Purchase Agreement, Assignee desires to acquire all of the Intellectual Property.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby assigns and transfers to Assignee, its successors, assigns and legal representatives, the entire right, title and interest in the United States and the World in and to the Intellectual Property, including the patents and applications listed on Schedule A hereto, together with the associated know-how, including the full and exclusive rights to those inventions, applications and patents, and to any and all inventions described in those applications and patents for the United States, its territorial possessions and all foreign countries as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, and the entire right, title and interest in and to any and all Letters Patents which may be granted therefor in the United States, its territorial possessions and all foreign countries; and in and to any and all continuations, divisions, substitutes, reissues, and extensions thereof, and all other applications for Letters Patents relating thereto which have been or shall be filed in the United States, its territorial possessions and any foreign countries, and all rights, including all priority rights, under any of the international
