**COLLATERAL ASSIGNMENT  
(Security Agreement)**

**WHEREAS**, I.D.L. Tech Tools, LLC, a Delaware limited liability company, and I.D.L. Techni-Edge, LLC, a Delaware limited liability company, (collectively "Assignor"), each having a mailing address of 136 Rotary Drive, Summit, New Jersey 07901, is the owner of the patents (the "Patents") as are listed in Schedule I hereto, and is the owner of the trademarks, trade dress, servicemarks and trade names (the "Trademarks"), as are listed in Schedule II hereto, which may be registered in the United States Patent and Trademark Office as set forth in said Schedules I and II; and

**WHEREAS, KELTIC FINANCIAL PARTNERS, LP**, a Delaware limited partnership, ("Assignee"), located and doing business at 580 White Plains Road, Suite 610, Tarrytown, New York 10591, has extended and may hereafter extend credit to Assignor, and Assignor has executed and delivered to Assignee a Revolving Note in the principal sum of \$2,000,000 dated the date hereof evidencing the present and future advances of credit by Assignee to Assignor and Assignor may in the future execute and deliver to Assignee other Note evidencing the advances of credit by Assignee to Assignor and a Term Note in the principal sum of \$450,000 (said notes as amended, modified, renewed, extended or substituted from time to time the "Notes"); and

**WHEREAS**, Assignor has executed and delivered to Assignee a revolving loan agreement dated the date hereof (said agreement as amended or modified from time to time the "Loan Agreement") pursuant to which it grants to Assignee a security interest in substantially all assets of Assignor to secure all of Assignor's Obligations (as defined in the Loan Agreement) to Assignee; and

**WHEREAS**, in order to further secure Assignor's Obligations (as defined in the Loan Agreement) to the Assignee, including under the Note, Assignor wishes to grant to Assignee a security interest in the Collateral and the goodwill and certain other assets with respect to the Collateral, as further set forth herein.

**NOW, THEREFORE**, for good and valuable consideration, receipt of which is hereby acknowledged, Assignor, as security for the full payment and performance of the Obligations, hereby assigns, sells, transfers, and conveys to Assignee and grants to Assignee a security interest in all of Assignor's right, title and interest in:

(a) the Patents and Trademarks;

(b) all right of action, claims for damages, profits and costs, all other demands for any sum or sums of money whatsoever which it has or may have either at law or in equity, against any and all persons, firms, corporations and associations by reason of claims of infringement upon said Patents and Trademarks.

(c) all existing and future patents, registrations and applications for the protection of inventions and designs hereafter acquired by, granted to, or filed by Assignor which are based upon, derived from or are variations of any invention or designs disclosed in the Patents (the "Future Patents");

(d) all extensions, renewals, and continuations, reissues, divisions, and continuations-in-part of the Patents and Future Patents;

(e) all proceeds, including without limitation, license royalties and proceeds of infringement suits, based on the Trademarks, Patents and Future Patents;

(f) all licenses and other agreements relating to the Trademarks, Patents and Future Patents and the use thereof;

(g) all Trademarks, Trademark registrations, Trademark registration applications, formulae, processes, compounds, methods, know-how, and trade secrets relating to the manufacture of Assignor's and under products under, utilizing, or in connection with the Patents and Future Patents; and

(h) all goodwill of Assignor's business connected with, symbolized by or in any way related to the items set forth in clauses (a) through (g) above.

All of the foregoing items set forth in clauses (a) through (h) are hereinafter referred to collectively as the "Collateral."

AND Assignor and Assignee agree as follows:

1. Assignor's Obligations. Assignor agrees that, notwithstanding this Assignment, it will perform and discharge and remain liable for all its covenants, duties, and obligations arising in connection with the Collateral and any licenses and agreements related thereto. Assignee shall have no obligation or liability in connection with the Collateral or any licenses or agreements relating thereto by reason of this Assignment or any payment received by Assignee relating to Collateral, nor shall Assignee be required to perform any covenant, duty, or obligation or Assignor arising in connection with the Collateral or any license or agreement related thereto or to take any other action regarding the Collateral or any such licenses or agreement.

Assignor shall have the obligation to maintain, preserve or renew the Patents and Trademarks, and take any action to prohibit the infringements or unauthorized use of same by any third party. Assignee shall have no obligation to maintain, preserve or renew the Patents and Trademarks, nor to take any action to prohibit the infringements or unauthorized use of same by any third party.

2. Use Prior to Default. Unless and until an Event of Default under, and as defined in the Loan Agreement, or under any future note in favor of Assignee, shall occur and be continuing, Assignor shall retain the legal and equitable title to the Patents and Trademarks and shall have the right to use the Collateral and make, and use the inventions disclosed and claimed in the Patents in the ordinary course of its business, subject to the terms and covenants of the Loan Agreement and this Assignment.

3. Remedies Upon Default. Whenever any Event of Default, under, and defined in, the Loan Agreement, shall occur, Assignor's rights pursuant to Section 2 hereof shall terminate and be null and void, and Assignee shall have all the rights and remedies granted to it in such

event by the Loan Agreement, which rights and remedies are specifically incorporated herein by reference and made a part hereof. Assignee in such event may collect directly any payments due to Assignor in respect of the Collateral and may sell, license, lease, assign, or otherwise dispose of the Collateral in the manner set forth in the Loan Agreement. Assignor agrees that, in the event of any disposition of the Collateral upon any such Event of Default, it will duly execute, acknowledge, and deliver all documents necessary or advisable to record title to the Collateral in any transferee or transferees thereof, including, without limitation, valid, recordable assignments of the Patents and Trademarks and Tradenames. In the event Assignor fails or refuses to execute and deliver such documents, Assignor hereby irrevocably appoints Assignee as its attorney-in-fact, with power of substitution, to execute, deliver, and record any such documents on Assignor's behalf. For the purpose of enabling Assignee to exercise rights and remedies upon any such Event of Default, Assignor hereby grants to Assignee an irrevocable, non-exclusive license (exercisable without payment of royalty or other compensation to Assignor) to use, assign, license, or sub-license any of the Collateral, now owned or hereafter acquired by Assignor, and wherever the same may be located.

4. Cumulative Remedies. The rights and remedies provide herein are cumulative and not exclusive of any other rights or remedies provided by law. The rights and remedies provided herein are intended to be in addition to and not in substitution of the rights and remedies provided by the Loan Agreement or any other agreement or instrument delivered in connection therewith.

5. Amendments and Waivers. This Assignment may not be modified, supplemented or amended, or any of its provisions waived at the request of Assignor, except in such manner as may be agreed upon by a written instrument executed by the parties hereto.

6. Reassignment. At such time as Assignor shall completely satisfy all of the Obligations, Assignee will, at Assignor's request, execute and deliver to Assignor all deeds, assignments and other instruments as may be necessary or proper to re-vest Assignor full title to the Collateral, subject to disposition thereof which may have been made by Assignee pursuant hereto.

7. Severability. If any clause or provision of this Assignment shall be held invalid or unenforceable, in whole or in part, in any jurisdiction, such invalidity or unenforceability shall attach only to such clause or provision, or part thereof, and shall not in any manner affect any other clause or provision in any jurisdiction.

8. Notices. All notices, requests and demands to or upon Assignor or Assignee under this assignment shall be given in the manner prescribed in the Loan Agreement.

9. Governing Law. This Assignment shall be governed by, construed, applied and enforced in accordance with the substantive laws of the State of New York and the United States of America as applicable.
