EXHIBIT C

INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (this "Assignment") is made April 30, 2009 (the "Assignment Effective Date"), by and between TV Guide Data Solutions Inc., a Delaware corporation ("Assignee"), Muze Inc., a Delaware corporation (the "Company"), Muze UK Limited, a company incorporated and registered in England and Wales with company number 02451479 whose registered office is at 10 Orange Street, London, WC2H 7DQ and a wholly-owned subsidiary of the Company ("Muze UK"), Muze Europe Limited, a company incorporated and registered in England and Wales with company number 04790556 whose registered office is at 10 Orange Street, London, WC2H 7DQ and a wholly-owned subsidiary of Muze UK (collectively with Muze UK, the "UK Subsidiaries"), Muze Sample Services Inc., a Delaware corporation and a wholly-owned subsidiary of the Company (the "US Subsidiary" and, together with the Company and the UK Subsidiaries, the "Assignors" and, individually, an "Assignor"). Each of Assignee and the Assignors are referred to herein as the "Parties" and, individually, as a "Party." Capitalized terms used in this Assignment and not otherwise defined shall have the meanings given to them in the Purchase Agreement.

WHEREAS, Assignors, Assignee, and certain other entities are parties to an Asset Purchase Agreement dated April 14, 2009 (the "Purchase Agreement"), pursuant to which, among other things, Assignors have agreed to transfer the Business to Assignee, on the terms and subject to the conditions set forth therein.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and to the extent that the Assignors have not done so via the Purchase Agreement, or if the Assignors have already done so via the Purchase Agreement than in confirmation of any obligation to do so in said Purchase Agreement, the Parties agree as follows:

1. **Assignment.** Each Assignor hereby irrevocably assigns, transfers and conveys to Assignee, all of the Assignors' worldwide right, title and interest of whatever nature in and to the Intellectual Property that is or was used in or that relates to the Business, including but not limited to such items of the Intellectual Property specifically identified in Appendix A to this Assignment ("Assigned Intellectual Property").

2. **Use.** Each Assignor hereby acknowledges that no Assignor retains any right to use the Assigned Intellectual Property and each Assignor agrees that no Assignor shall, directly or indirectly, challenge Assignee's ownership of or right to use the Assigned Intellectual Property. Each Assignor hereby waives and releases any rights or claims any Assignor may have against Assignee, now or in the future, with respect to any and all Assigned Intellectual Property and each Assignor covenants that no Assignor shall undertake any action or assert any claim, whether against Assignee or any third party, which action or claim would be adverse to or inconsistent with Assignee's right, title and interest in and to the Assigned Intellectual Property or Assignee's ability to exercise any such right, title or interest.

3. **License.** To the extent that any Assignor has any right to the Assigned Intellectual Property that cannot (as a matter of law) be assigned to Assignee, each Assignor unconditionally and irrevocably grants to Assignee during the term of such rights, an exclusive, even as to the Assignors, irrevocable, perpetual, worldwide, fully-paid and royalty-free license, with rights to sublicense through multiple levels of sublicensees, to reproduce, make derivative works of, distribute, publicly perform and

publicly display in any form or medium, whether now known or later developed, make, use, sell, import, offer for sale and exercise any and all such rights in the Assigned Intellectual Property. To the extent that any Assignor has any rights to the Assigned Intellectual Property that cannot be assigned or licensed to Assignee, each Assignor unconditionally and irrevocably (i) waives the enforcement of such rights, and all claims and causes of action of any kind against Assignee or any third party, with respect to such rights, and (ii) agrees, at Assignee's request and expense, to consent to and join in any action to enforce such rights.

4. **Cooperation and Further Assurances.** Upon each request by Assignee, without additional consideration, each Assignor agrees to promptly execute documents, testify and take other acts at Assignee's expense as Assignee may deem necessary or desirable to procure, maintain, perfect, and enforce the full benefits, enjoyment, rights, title and interest, on a worldwide basis of the Assigned Intellectual Property assigned hereunder, and render all necessary assistance in making application for and obtaining original, divisional, renewal, or reissued utility and design patents, copyrights, mask works, trademarks, trade secrets, and all other technology and intellectual property rights throughout the world related to any of the Assigned Intellectual Property, in Assignee's name and for its benefit. In the event Assignee is unable for any reason, after reasonable effort, to secure the signature of any Assignor on any document needed in connection with the actions specified herein, each Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents as its agent and attorney in fact, which appointment is coupled with an interest, to act for and in its behalf to execute, verify and file any such documents and to do all other lawfully permitted acts to further the purposes of this paragraph with the same legal force and effect as if executed by the Assignor.

5. **Delivery.** To the extent the Assignors have not done so via the Purchase Agreement, each of the Assignors agrees to deliver to Assignee upon execution of this Assignment any and all tangible manifestations of the Assigned Intellectual Property, including, without limitation, all notes, records, files and tangible items of any sort in its possession or under its control relating to the Assigned Intellectual Property.

6. **Miscellaneous.** This Assignment: (i) shall be governed by and construed in accordance with the law of the State of Delaware regardless of the law that might otherwise govern under applicable principles of conflicts of law thereof; (ii) along with the Purchase Agreement, sets forth the entire understanding of the Parties hereto with respect to the subject matter hereof, and supersedes all prior or contemporaneous oral or written understandings and agreements of the Parties with respect to the subject matter hereof; (iii) shall not be amended unless in a writing signed by each of the Assignors and Assignee that expressly sets forth such amendment; (iv) if held to be invalid or unenforceable, in whole or part, such term or provision shall be ineffective only to the extent of such invalidity or unenforceability without invalidating or rendering unenforceable the remaining terms and provisions of this Assignment; and (v) may be executed in counterparts, each of which shall be deemed an original and which together shall constitute one and the same instrument. The Assignee may assign its rights and interests in and to the Assigned Intellectual Property without the consent of any Assignor. The waiver of any breach of this Assignment shall not be construed to be the waiver of any subsequent breach.
