Execution Version

SHORT-FORM TRADEMARK SECURITY AGREEMENT

WHEREAS, Shred-it Canada Corporation Inc. (the "Grantor") has adopted, used, is using, or intends to use, and is the owner of the trademarks and the service marks listed in the attached Schedule of Trademarks, and the registrations and applications associated therewith;

WHEREAS, the Grantor has contemporaneously with the execution of this Short-Form Trademark Security Agreement entered into the Canadian Pledge and Security Agreement dated as of June 5, 2009 (as modified from time to time, the "Security Agreement"; capitalized terms used but not defined herein, shall have the meanings given to them in the Security Agreement), in which the Grantor has granted certain interests in favor of National Bank of Canada, as agent (the "Agent") for the benefit of the Secured Parties; and

WHEREAS, pursuant to the Security Agreement, the Grantor has agreed with the Agent and the Secured Parties to execute this Short-Form Trademark Security Agreement;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor hereby grants to the Agent for the benefit of the Secured Parties, to the extent provided in the Security Agreement, a security interest in all of its right, title and interest in, to and under the following (all of the following items or types of property being herein collectively referred to as the "Trademark Collateral");

- (i) all the trademarks and service marks, whether now owned or at any time hereafter acquired, of the Grantor that are registered with, or for which applications for registration have been filed with, the United States Patent and Trademark Office, including (a) the trademarks and service marks listed on the attached Schedule of Trademarks, and all registrations and pending applications associated therewith (excluding any application for registration of a trademark or a service mark filed on an intent-to-use basis but solely to the extent that the grant of a security interest in any such trademark or service mark application would materially adversely affect the term, validity or enforceability of the resulting trademark or service mark registration or result in cancellation, abandonment or withdrawal of such trademark or service mark application), and (b) all of the goodwill of the business connected with the use of, and symbolized by each such trademark, service mark, trademark registration, service mark registration, trademark application, and service mark application;
- (ii) all trademark license agreements, whether written or oral, providing for the grant by or to Grantor of any right to use any trademark or service mark, including any of the trademark license agreements listed on the attached Schedule of Trademarks; and
- (iii) all proceeds of and revenues from the forgoing, including, without limitation, all proceeds of and revenues from any claim by the Grantor against third parties for damages by reason of past, present or future unfair competition with, violation of intellectual property rights in connection with, injury to, or infringement or dilution of any trademark, service mark, trademark registration, service mark registration, trademark application or service mark application, including, without limitation, the trademarks, service marks, trademark registrations, service mark registrations, trademark applications and service mark applications listed in the attached Schedule of Trademarks or by reason of injury to the goodwill associated within any such trademark, service mark, trademark registration, service mark registration, trademark application

or service mark application, in each case together with the right to sue for and collect said damages;

as collateral security for the prompt and complete payment and performance when due of all the Secured Obligations. Notwithstanding the foregoing, in the event of any conflict between this Short-Form Trademark Security Agreement and the Security Agreement, the Security Agreement shall control.

Grantor hereby irrevocably constitutes and appoints Agent and any officer or agent of Agent, with full power of substitution, as its true and lawful attorney-in-fact with full power and authority in the name of Grantor, from time to time, in Agent's discretion, so long as any Event of Default (as defined in the Credit Agreement) shall have occurred and be continuing, to take with respect to the Trademark Collateral any and all appropriate action which Grantor might take with respect to the Trademark Collateral and to execute any and all documents and instruments which may be necessary or desirable to carry out the terms of this Short-Form Trademark Security Agreement and to accomplish the purposes hereof.

Except to the extent permitted in the Security Agreement or Credit Agreement, Grantor agrees not to sell, license, exchange, assign or otherwise transfer or dispose of, grant any rights with respect to or mortgage or otherwise encumber any of the Trademark Collateral.

The foregoing security interest is granted in conjunction with the security interests granted to the Agent pursuant to the Security Agreement. Grantor does hereby further acknowledge and affirm that the rights and remedies of Agent with respect to the security interest in the Trademark Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

This Short-Form Trademark Security Agreement shall be construed in accordance with and governed by the law of the State of New York.
