AMENDED AND RESTATED PATENT AND TRADEMARK SECURITY AGREEMENT

This AMENDED AND RESTATED PATENT AND TRADEMARK SECURITY AGREEMENT (this "**Agreement**"), dated as of June 15, 2009, is made by INTEGRATED DNA TECHNOLOGIES, INC., an Iowa corporation (the "**Debtor**"), in favor of WELLS FARGO BANK, NATIONAL ASSOCIATION, a national banking association (the "**Secured Party**"), with reference to the following:

WHEREAS, the Debtor and the Secured Party have entered into (i) an Amended and Restated Credit Agreement of even date herewith (as amended, restated, supplemented or otherwise modified from time to time, the "**Credit Agreement**"), pursuant to which the Secured Party has agreed to make certain financial accommodations to the Debtor; and (ii) a Reaffirmation of Guaranties and Security Agreement of even date herewith, pursuant to which the Debtor has reaffirmed its grant to the Secured Party under the Amended and Restated Security Agreement, dated as of August 4, 2006 (as amended, restated, supplemented or otherwise modified from time to time, the "**Security Agreement**"), of a security interest in, among other things, the general intangibles of the Debtor;

WHEREAS, the Debtor previously executed the Patent and Trademark Security Agreement dated as of August 4, 2006 in favor of the Lender (as amended, restated, supplemented or otherwise modified from time to time, the "**Prior Patent and Trademark Security Agreement**"), under which the Debtor granted to the Lender a continuing security interest in all of the Debtor's right, title and interest in, to and under all patents, trademarks and other intellectual property of the Debtor;

WHEREAS, pursuant to the Credit Agreement and as a condition precedent to the obligations of the Secured Party under the Credit Agreement, the Debtor has agreed to execute and deliver this Agreement to the Secured Party, which constitutes an amendment to, and a complete restatement of, the Prior Patent and Trademark Security Agreement, for filing with the United States Patent and Trademark Office and with any other relevant recording systems in any domestic or foreign jurisdiction, as further evidence of, and to effectuate the Secured Party's existing security interests in, the patents, trademarks, patent applications and trademark applications described herein;

NOW, THEREFORE, for valuable consideration, the receipt and adequacy of which are hereby acknowledged, the Debtor hereby agrees in favor of the Secured Party as follows:

As security for the payment and performance of the Obligations (as defined in the Credit Agreement), the Debtor hereby grants, assigns, transfers and conveys to the Secured Party a continuing security interest in all of the Debtor's right, title and interest in, to and under all patents, trademarks, patent applications and trademark applications owned by the Debtor in whole or in part, including the U.S. patents and patent applications described in Schedule A hereto, and the U.S. trademarks and trademark applications described in Schedule B hereto, as the same may be amended or supplemented from time to time pursuant to the Security Agreement.

ACKNOWLEDGMENT. The Debtor acknowledges that the rights and remedies of the Secured Party with respect to the security interest in the patents and patent applications listed in Schedule A and the trademarks and trademark applications listed in Schedule B and granted hereby are more fully set forth in the Credit Agreement and the Security Agreement, and all such rights and remedies are cumulative.

The Debtor further acknowledges that this Agreement, the Credit Agreement and the Security Agreement may contain covenants, representations and warranties and other terms and provisions variously stated regarding the same or similar matters, and the Debtor agrees that all such covenants, representations and warranties and other terms and provisions are cumulative and all shall be performed and satisfied in accordance with their respective terms.
