TRADEMARK AND TRADE NAME ASSIGNMENT

This TRADEMARK AND TRADE NAME ASSIGNMENT is dated as of October 29, 2009 (this "Assignment") between ViaCell, Inc., a Delaware corporation (the "Assignor"), and ViaCord LLC, a Delaware limited liability company (the "Assignee").

WHEREAS, pursuant to that certain Contribution and Assumption Agreement between Assignor and Assignee dated as of December 28, 2008 (the "CAA"), Assignor has agreed to transfer to the Assignee all of Assignor's rights, title and interests in and to Assignor's intellectual property, including without limitation the trademarks and trade names identified on Schedule A attached hereto and all registered and unregistered domestic and foreign trademarks, trademark applications and renewal rights relating thereto (the "Marks").

NOW, THEREFORE, in consideration of the CAA and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Assignment. The Assignor hereby assigns to the Assignee, its successors and assigns, all rights, title, and interests in and to the Marks, together with the goodwill associated therewith. To the extent that any of Assignor's rights or title in and to the Marks cannot be assigned and transferred by Assignor, then Assignor hereby grants Assignee an irrevocable, worldwide, fully paid-up, royalty-free, exclusive license, with the right to sublicense through multiple tiers, to make, have made, use, have used, sell, have sold, offer for sale, have offered for sale, import, have imported, improve, and otherwise exploit or utilize in any manner, the Marks.

2. Rights and Privileges. All rights and privileges, including the right to sue for and receive all damages from past infringements of the Mark, will be held and enjoyed by the Assignee and its successors, assigns and other legal representatives.

3. Further Assurances. Assignor agrees, at the Assignee's expense and request: (i) to assign, deliver and communicate to Assignee, its representatives, agents, successors and assigns any facts and materials relating to the Marks, including evidence for interference purposes or for other legal proceedings whenever requested and all files, documents and communications pertaining to the Marks, including all communications to and from the U.S. Patent and Trademark Office and any and all legal counsel advising on or assisting with the Marks; (ii) to testify in any interference or other legal proceedings whenever requested; (iii) to execute and deliver whenever requested all lawful papers required to make any of the foregoing provisions effective; and (iv) to generally provide all further cooperation, including taking such further action and executing such additional documents, which Assignee, its successors and assigns reasonably request to secure, obtain or enforce proper protection for the Marks and all associated rights in this or any foreign country.

4. Authorization. The Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States, and any other official throughout the world whose duty is to register and record ownership in trademark registrations and applications for

registration of trademarks, to record the Assignee as the assignee and owner of any and all of the Assignor's rights in the Marks.

5. Covenant Not to Sue. Assignor hereby releases, discharges, and covenants not to assert against Assignee, and Assignee's parents, subsidiaries, contractors, customers, suppliers, affiliates, agents, employees, directors, representatives, successors, assigns, licensors, licensees, partners, joint venturers, and distributors all claims, causes, obligations, rights of action, or liabilities of any kind or nature, whether now existing or hereinafter arising and whether known or unknown, arising from or relating to proprietary rights in the Marks.

6. Miscellaneous. This Assignment will be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns, each of which such successors and permitted assigns will be deemed to be a party hereto for all purposes hereof. This Assignment and any of the terms contained herein may be amended or modified by the Assignor and Assignee only in writing. This Assignment is executed by, and shall be binding upon, the Assignor and the Assignee and their respective successors and assigns, for the uses and purposes set forth and referred to above, effective immediately upon its delivery to the Assignee. In the event that any provision of this Assignment is construed to conflict with a provision in the Agreement, the provision in the Agreement shall be deemed to be controlling. This Assignment shall be governed by and construed in accordance with the laws of The Commonwealth of Massachusetts other than any provision of Massachusetts law that would result in the application of the laws of any jurisdiction other than The Commonwealth of Massachusetts. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
