ASSIGNMENT OF SELLER INTELLECTUAL PROPERTY AGREEMENT

This Assignment of Seller Intellectual Property Agreement (this "Assignment") is entered into as of May __, 2009, by and among Micron Technology, Inc., a Delaware corporation ("Buyer"), and Displaytech, Inc., a Delaware corporation ("Seller").

AGREEMENT

1. Assignment of Intellectual Property. Seller does hereby sell, assign, transfer, convey and deliver to Buyer all of the right, title, and interest of the Seller in and to all of the patents (the "Patents") and trademarks (the "Trademarks") set forth in Exhibit A (collectively, the "Assigned IP"). The foregoing includes the assignment, transfer and conveyance of all causes of actions, claims, and demands or other rights for, or arising from, any infringement, including past infringement, all rights of priority under any international conventions and any other international agreements to which the United States adheres, all income, royalties, damages, claims, and payments now or hereafter due or payable with respect to the Assigned IP, and all rights corresponding thereto throughout the world.

2. Issuance and Recordation Authorization. Seller hereby authorizes and requests the Director of the U.S. Patent and Trademark Office and any other official of the United States or any other jurisdiction or registrar to issue the Patents and Trademarks to Buyer and to record assignment of the Patents and Trademarks to Buyer.

3. Perfection and Recordation. Buyer shall prepare all paperwork that is necessary to perfect and record the assignments of the Assigned IP in the various jurisdictions and shall be responsible for all expenses, including recordation expenses, associated therewith.

4. Conflicts. Notwithstanding any other provisions of this Assignment to the contrary, nothing contained herein shall in any way supersede, modify, replace, amend, change, rescind, waive or in any way affect the provisions, including warranties, covenants, agreements, conditions, representations or, in general, any of the rights and remedies and any of the obligations of either Buyer or the Seller set forth in that certain Asset Purchase Agreement among the parties hereto and William C. Glynn, dated as of May ___, 2009 (the "Purchase Agreement"). This Assignment is subject to and controlled by the terms of the Purchase Agreement.

5. Entire Agreement. This Assignment and the Purchase Agreement contain the entire agreement of the parties with respect to the subject matter of this Assignment. No prior agreement or understanding pertaining to any such matter shall be effective. This Assignment may only be modified in a written instrument executed by the parties.

6. Binding Assignment. This Assignment shall be binding upon and inure to the benefit of each of the parties hereto, their successors and permitted assigns.

7. Governing Law. This Assignment, and all claims or actions that may be based upon, arise out of or relate to this Assignment or the negotiation, execution or performance of

this Assignment, shall be governed by and construed in accordance with the internal laws of the State of Delaware, without giving effect to principles governing conflicts of laws.

8. Severability. In the event that any provision of this Assignment or the application thereof, becomes or is declared by a court of competent jurisdiction to be illegal, void or unenforceable, the remainder of this Assignment will continue in full force and effect and the application of such provision to other Persons or circumstances will be interpreted so as reasonably to effect the intent of the parties hereto. The parties further agree to replace such void or unenforceable provision of this Assignment with a valid and enforceable provision that will achieve, to the extent possible, the economic, business and other purposes of such void or unenforceable provision.

9. Counterparts. This Assignment may be executed in one or more counterparts, all of which shall be considered one and the same agreement and shall become effective when one or more counterparts have been signed by each of the parties and delivered to the other party, it being understood that all parties need not sign the same counterpart.

10. Interpretation. The words "include," "includes" and "including" when used herein shall be deemed in each case to be followed by the words "without limitation." The headings contained in this Assignment are for reference purposes only and shall not affect in any way the meaning or interpretation of this Assignment. Unless otherwise defined herein, capitalized terms in this Assignment shall have the same meaning as in the Purchase Agreement.

[Remainder of Page Left Intentionally Blank]

IN WITNESS WHEREOF, the parties hereto have executed this Assignment on the date first above written.
